### DIRECTIONS FOR USE

Dilute the contents of this can with oil or water before use. Use oil solutions when spraying logs and lumber which have been attacked. Water emulsions may also be used in these applications.

When spraying logs or lumber, add one gallon of **STAA-CLEAR ABX** to 23 gallons of #2 Fuel Oil, Diesel Fuel, or Kerosene and stir. Use same dilution ratio for water and stir to form an emulsion. Emulsions should be agitated periodically to assure good distribution. Better results are obtained when strainers or other means are used to remove debris that might clog spray nozzles.

Spray logs promptly after they are felled, thoroughly wetting all parts of the log bark and ends. One gallon of spray for each 100 square feet of log surface is recommended. Added sap stain control may be obtained by adding one gallon of **STAA-CLEAR CONCENTRATE 1-10** to 27 gallons of #2 Fuel Oil, Diesel Fuel or Kerosene with one gallon of **STAA-CLEAR ABX**.

For treating lumber, add one gallon of **STAA-CLEAR ABX** to each 100 gallons of solution in hip tank. This product is compatible with **STAA-CLEAR 10-S** solutions and other sodium pentachlorobenate solutions. It can be added directly to the mixing tank or hip tank in that container to form an emulsion for Ambrosia Beetle control. Stir or agitate after long standing to assure good distribution.

For treating lumber for Lyctid Beetle control add 4 gallons of **STAA-CLEAR ABX** to each 100 gallons of stain solution as for Xestrosa Beetle control.

### NON-WARRANTY

We make no representation or warranty concerning the results of the use of this product, or the material used, and that it is not the responsibility of the manufacturer to assume the cost of use and handling of the product in any application not specifically mentioned in the directions and warning statements on the label.

**WARNING**  
**KEEP OUT OF REACH OF CHILDREN!**

Do not get in eyes or on skin!  
Do not breathe spray!  
If spilled on skin, wash off at once with warm water and soap!  
In case of contact with eyes, flush with water and get medical attention!  
Do not contaminate feed and food stuffs!  
May be fatal if swallowed!  
May be absorbed through skin!  
May produce irritation of skin or eyes!  
Wash after handling!  
Flammable - keep away from fire!  
Care should be taken in disposal of empty containers. It is recommended they be triple rinsed before disposal with rinsing solvent disposed of in a closed tank.  
**DO NOT USE NEAR CHILDREN, FEED OR STORE NEAR HEAT OR OPEN FLAME!**  
Avoid contact with children and other people when handling the freshly treated lumber.  
This product is toxic to fish and wildlife. Avoid contact with streams, or rivers. Do not contaminate water by burning of this product. Dispose of wastes according to the label only, as specified on this label.
