A non-selective weed and grass killer. For dry application only

READ THIS LABEL BEFORE USING PRODUCT

WEED-FREE B-4P is a granular [illegible] designed to be applied dry to the surface of the ground for control of weeds. The kill of weeds may be slow as the chemical is absorbed through roots of weeds and must be carried to root zone by moisture. The degree of control and duration of effect will vary with the amount of chemical applied, soil type, rainfall, and other conditions.

Before applying, measure area to be treated and select rate of acre desired to get desired [illegible] treatment. Calibrate over a small area and get even coverage at the rate selected. A seeder or [illegible] is best for application. For 3 cups of WEED-FREE B-4P per [illegible] use 1 lb. per 100 sq. ft. Increase or decrease rate as conditions require.

GENERAL WEED CONTROL

[illegible] most weeds [illegible] non-crop land such as Utility, [illegible] Right of Way [illegible] Tree Farms, Fencerows, Storage Areas, Industrial Plant Sites, [illegible] Farm Lanes, apply 6 to 12 lbs. per [illegible] 200 sq. ft. Apply [illegible] and GRASSES such as [illegible] Children's-quarters.
