WEED-FREE HC 1.6 is a pelletized non-[illegible] weed and grass killer, designed for long-[illegible] trol. It may be applied to the surface of the soil or mixed with water and sprayed to plant foliage. The product is formulated for use on non-crop areas where barren soil is desired. Some of these areas are storage yards, industrial sites, around utility poles, railroad berm, highway shoulders, around substations, and similar areas where vegetation might create unsightly or fire hazardous conditions.
