# OLIN 3203

EPA Est. No.  
33576-CA-1  
33576-KS-1  
33576-NY-1

## Water treatment microbiocide for industrial cooling towers.

OLIN 3203 is recommended for use in industrial recirculating cooling water systems such as cooling towers, evaporative condensers, evaporative coolers, and closed cooling water systems. OLIN 3203 can be prescribed to meet virtually any cooling system problem that involves algae or odors. Each formulation of OLIN ALGICIDE contains different primary ingredients toxic to the bacterial slime forming organisms or growth of algae. Thus two different formulations should be kept on hand to be alternated at regular intervals.

**DIRECTIONS FOR USE:** For best results slug feed, beginning treatment before system has become fouled with algae, or after cleaning system whose efficiency has been reduced by such fouling. Badly fouled systems must be cleaned before treatment is begun.

**INITIAL DOSAGE:** 100 PPM or .83 lb. per 1,000 gallons OLIN 3203. Repeat until control is achieved.

**REGULAR DOSAGE:** 50-100 PPM or .42-.83 lb. per 1,000 gallons OLIN 3203. Dosage should be added to water in sump.

Frequency of dosage addition is determined by results obtained. Normally, once a week will suffice. At certain times of the year, two dosages a week or even several dosages a day may be required.

EPA REG. NO. 33576-22-AA-50607

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Do not reuse empty drum. Return to drum reconditioner or rinse well with soap solution and discard. Do not contaminate water by disposal of waste.

### DANGER

#### Keep Out of Reach of Children.

Corrosive. Causes severe eye and skin damage. Do not get in eyes, on skin, or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

**FIRST AID:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution; or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately.

**NOTE TO PHYSICIAN:** Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.

**ACTIVE INGREDIENTS:** N-Alkyl (98% C<sub>12</sub>, 2% C<sub>14</sub>)  
dimethyl I-Naphthylmethyl ammonium  
chloride monohydrate .....10%  
**INERT INGREDIENTS:** .....90%
