33576-KS-1  
33576-NY-1

## bactericide and fungicide for use in industrial recirculating cooling water systems and cane sugar mills

### DIRECTIONS FOR USE:

OLIN 3312 is highly effective for controlling the growth of bacteria and fungi in industrial recirculating water cooling towers, evaporative condensers, air washers, and cane sugar mills.

**INDUSTRIAL CIRCULATING COOLING WATER SYSTEMS:** Begin treatment when the system is in jeopardy of becoming affected or after cleaning system whose efficiency is already impaired. Badly fouled systems must be cleaned before treatment is begun. For best results slug feed at a point in the system where the product will be well mixed.

**INITIAL DOSE:** Apply 58.09 fl. oz. Olin 3312 per 1,000 gal. water in system (478 ppm). Repeat weekly or more frequently if needed to control growth of slime-forming organisms.

**SUBSEQUENT DOSE:** When control is evident, add 9.9 to 19.7 fl. oz. Olin 3312 per 1,000 gal. water in system (81.4-163 ppm) every three days or as needed.

**CANE SUGAR MILLS:** See Product Bulletin for Olin 3312 Cane Sugar Mill Bactericide-Fungicide for use directions.

### ACTIVE INGREDIENTS

Sodium Dimethyldithiocarbamate 3.75%

Nabam (Disodium Ethylene Bis(dithiocarbamate)) 3.75%

### INERT INGREDIENTS

92.50%

EPA Reg. No. 33576-37-AA-50607

EPA Reg. No. 33576-37-AA-50607

**FOR INDUSTRIAL USE ONLY**

## WARNING

### Keep Out Of Reach of Children

Causes eye and skin irritation. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Harmful if swallowed. Avoid contamination of food.

**FIRST AID:** In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before re-use.

If swallowed, drink promptly a large quantity of milk, egg white, gelatin solution or if these are not available, drink large quantity of water. Call a physician immediately.

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water supplies. Treat minute water by cleaning of equipment or disposal of waste.

Do not reuse empty containers. Containers should be washed, perforated or crushed. Discard container in a safe place.
