MAY 01 2009

Dear Dr. Landis,

Subject: Label Amendment
Product Name: Trebon 3G
EPA Registration No. 33657-39
Application dated April 24, 2009

The label amendment above, submitted in connection with the Federal Insecticide, Rodenticide, and Fungicide Act, as amended, is acceptable.

Submit three (3) copies of your final printed labeling before releasing the product shipment. If you have any questions, please contact Kevin Sweeney at (703)-305-5063 or by email at sweeney.kevin@epa.gov

Sincerely,

A handwritten signature in black ink, appearing to read "Richard Gebken".

Richard Gebken
Product Manager 13

EPA Reg. No.: 33657-39

EPA Est. No.: 054675-MX-001

Net Contents: 12.5 lbs. (5.67 kg.)
 60 lbs. (27.21 kg.)
 40 lbs. (18.14 kg.)

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS**

CAUTION

Harmful if swallowed. Causes moderate eye irritation. Avoid contact with eyes, skin or clothing. Wash thoroughly after handling and before eating or smoking. Remove contaminated clothing and laundry before reuse. Prolonged or frequently repeated skin contact may cause allergic reactions in some individuals.

PERSONAL PROTECTION EQUIPMENT

Applicators and other handlers must wear:

- Long-sleeved shirt and long pants
- Chemical-resistant gloves such as barrier laminate, nitrile rubber, neoprene rubber, Viton, Selection Category E
- Shoes plus socks
- Dust/mist filtering respirator

USER SAFETY REQUIREMENTS

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions exist for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

USER SAFETY RECOMMENDATIONS

Users should:

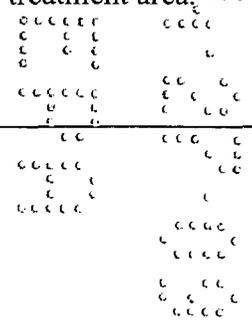

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.
- Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

This product is extremely toxic to aquatic organisms, including fish and aquatic invertebrates. Do not use etofenprox in rice fields where shrimp and/or crayfish are to be cultivated. Do not contaminate water by cleaning of equipment or disposal of waters. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans or other waters unless in accordance with the requirements of a National Pollutant Discharge Elimination System (NPDES) permit and the permitting authority has been notified in writing prior to discharge. Do not discharge effluent containing this product to sewer systems without previously notifying the local sewage treatment authority. For guidance contact your State Water Board or Regional Office of the EPA. This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product while bees are actively visiting the treatment area.

PHYSICAL OR CHEMICAL HAZARDS

Do not use, pour, spill or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL, USE STRICTLY IN ACCORDANCE WITH PRECAUTIONARY STATEMENTS AND DIRECTIONS, AND WITH APPLICABLE STATE AND FEDERAL REGULATIONS.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, greenhouses and handlers of agricultural insecticides. It contains requirements for training, decontamination, notification and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil or water is:

- Coveralls
- Chemical-resistant gloves such as barrier laminate, nitrile rubber, neoprene rubber, Viton, Selection Category E
- Shoes plus socks

DIRECTIONS FOR USE

Failure to follow directions and precautions on this label may result in crop injury, poor insect control, and/or illegal residues.

Trebon 3G should only be applied through aerial application. Confine all granular applications to field areas. Cut off application equipment to avoid treating adjacent roads, field drains, ditches, banks, and other non-target areas. Apply Trebon 3G only when weather conditions are calm to prevent misplacement of granules. Avoid making application under conditions where uniform coverage cannot be obtained or where excessive drift may occur.

RICE: To control Rice Water Weevil, apply 6 to 9 lbs of Trebon 3G per acre (2.9 to 4.3 oz. a.i./A) 3 days before to 7 days after flooding. Trebon 3G should be applied only when adults are present in a field and conditions are favorable for oviposition. Do not make more than one application per season. Permanent flood waters may not be released until 7 days after application.

Handwritten scribbles and marks at the bottom right of the page.
