Dear Ms. Rodriguez-Koster:

Subject: VLN TRIFLURALIN TECHNICAL EPA Registration No. 33660-36

Application and Your Letter Dated September 26, 2001

and Letter Dated November 7, 2002 Requesting

Amendment To the Labeling To Revise the "First Aid Statements" To Comply with EPA PR Notice 2001-1 (Note

Labeling Was Received on May 18, 2004)

The proposed amendment to the subject registration reflected on the submitted labeling have been reviewed and found acceptable under the Federal Insecticide, Fungicide and Rodenticide Act (FIFRA) as amended, provided that you:

- Revise the "Directions of Use" section statement that reads: "This pesticidefollowing crops." to read: "This pesticide product may be used only for the formulation of other herbicide products for use in the control of grass and broadleaf weeds in the culture of the following crops:"
- Submit one copy of the final printed labeling prior to shipping under the revised labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA, section 6(e). Your release for shipment of this product under the revised labeling constitutes acceptance of these conditions. A stamped copy of the accepted labeling is enclosed for your records.

Please submit applications to amend registrations of pesticide products as separate requests. Apparently, the labeling was either not received or it was confused with other labeling submitted in a lumped package under one letter and one application. Please follow the EPA "General Information on Applying for Registrations of Pesticides in the United States", Second Edition, August, 1992. Please use EPA Application Form 8570-1 completed in required detail. One copy of any changes in the labeling or Confidential Statements of Formula must be highlighted and described clearly as part of each application.

Sincerely yours,
