NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
(Under the Federal Insecticide, Fungicide,
and Rodenticide Act, as amended)

NAME OF PESTICIDE PRODUCT
Septan 3.2

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Prescott Chemical, Inc.
P.O. Box 240677
Charlotte, NC 28228

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit and/or cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.
2. Make the labeling changes listed below before you release the product for shipment:
 - a. Add the phrase "EPA Registration No. 33818-4."
 - b. Add the word: Corrosive (left panel precautionary statement).
 - c. Delete the number 33818-0. This is not your registration number.
 - d. Revise the referral statement to read:

See side panel for additional precautionary statements.

General Classification

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Septan 3.2 detergent/disinfectant has been designed specifically for hospitals, nursing homes, schools, food processing plants and other institutions where housekeeping is of prime importance.

DISINFECTION-To disinfect hard inanimate surfaces (such as walls, floors, table tops), apply solution with mop, cloth, sponge or mechanical sprayer so as to wet all surfaces thoroughly. Allow to remain wet for 10 minutes and then let air dry.

DILUTION RATES: General Disinfection-add 2 ounce 3.2 per gallon of water. Hospital Disinfection-add 3 ounce 3.2 per gallon of water.

To disinfect toilet bowls, flush toilet, add 2 ounce Septan 3.2 detergent disinfectant directly to the bowl of water. Swab the bowl completely using a scrub brush or toilet mop, making sure to get under the rim. Let stand for 10 minutes and flush.

For heavily soiled surfaces, a pre-cleaning step is required and recommended. Prepare a fresh solution for each use.

MILDEWSTAT-To control mold and mildew on hard nonporous surfaces (such as floors, walls, table tops), clean surfaces then add 2 ounces 3.2 per gallon of water. Apply with a cloth, mop or sponge to surfaces to be treated making sure to wet thoroughly. Let air dry. Prepare a fresh solution for each use. Repeat application at weekly intervals or when mildew growth reappears.

SANITIZATION-To sanitize previously cleaned and rinsed nonporous food contact surfaces, prepare 200ppm active quaternary solution by adding 4 ounces 3.2 to 5 gallons of water.

To sanitize immobile items (such as tanks, chopping blocks, counter tops), flood the area with 200ppm 3.2 solution or apply with a cloth or sponge, making sure to wet all surfaces completely for at least 60 seconds. Let air dry. Prepare a fresh solution for each use.

To sanitize mobile items (such as drinking glasses, eating utensils) immerse in 200ppm 3.2 solution for at least 60 seconds making sure to immerse completely. Remove and let air dry. Prepare a fresh solution daily or more frequently as soil is apparent.

PRECAUTIONARY STATEMENTS
Hazard to Human and Domestic Animals

Keep Out Of Reach Of Children. Causes severe eye and skin damage. Do not get in eyes, on skin or clothing. Wear goggles or face shield and rubber gloves when handling. Harmful or fatal if swallowed. Avoid contamination of food.

STATEMENT OF PRACTICAL TREATMENT

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink milk, egg whites, gelatin solution or if these are not available, drink large quantities of water. Call a physician.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.

Septan 3.2 is a cleaner disinfectant for general use in schools, food processing, industrial and hospital applications. Its prime importance is in controlling contamination. When used as directed, it disinfects inanimate hard surfaces such as walls, floors, table tops, toilet bowls, tables, chairs, and other areas, such as patient care facilities, designed both general cleaning and disinfection.

In addition, Septan 3.2 deodorizer is effective against odors which are hard to keep fresh smelling, such as empty garbage bins and cans, toilets, which are prone to odors caused by bacteria.

DISINFECTION-At 2 ounces per gallon of dilution, Septan 3.2 exhibits effective disinfection against organisms: Salmonella choleraesuis, Shigella, and others.

At this level the product is also fungicidal against fungi, Trichophyton mentagrophytes, and others. At 3 ounces per gallon of dilution, Septan 3.2 is also effective against Pseudomonas aeruginosa.

EFFICACY TESTS HAVE DEMONSTRATED SEPTAN 3.2 IS AN EFFECTIVE BACTERICIDE, AND FUNGICIDE OF ORGANIC SOIL (BY BLOOD & MILK).

MOLD & MILDEWSTAT - Septan 3.2 is effective against mold and mildew and the odors they cause on inanimate surfaces at 2 ounces per gallon of dilution. **SANITIZATION**-When used to sanitize cleaned food equipment or food contact surfaces, Septan 3.2 is effective at 200ppm. At this dilution, a **RINSE** is required.

Septan 3.2 is an effective sanitizer for hard surfaces up to 500ppm hardness (CaCo3).

STORAGE BY SERVICE PERSONS
DO NOT CONTAMINATE FEED BY STORAGE AND STORAGE - Store in a dry, cool place, temperature not above 60°F. **CONTAINER DISPOSAL -** Do not reuse. Triple rinse container. Return metal drums for reconditioning or purchase a sanitary landfill, or approved by State and local authorities. **Stay out of smoke.** **PESTICIDE DISPOSAL -** As hazardous, improper disposal may be hazardous. Improper disposal may be hazardous. If these wastes are used according to label instructions, they are not a pesticide or environmental hazard. **NEAREST EPA REGIONAL OFFICE**
