**Storage:**

Oxidizing material; avoid contact with combustible materials. In the event of fire, accidental contact or spillage, flood promptly with large amounts of water and wash to sewer. Store in cool, dry, well-ventilated area. Avoid moisture contamination.

**Thermal Decomposition:**

Keep away from all sources of heat, flames or sparks. At elevated temperatures (above about 325° F) a self-propagating thermal decomposition may occur with resultant irritating and toxic gases. In the event of thermal decomposition, flood with large quantities of water.

**Personal Safety:**

Not for personal use, internally or externally. In case of contact, remove material and flood skin or eyes with cold water for at least 15 minutes. For eyes, call physician. Harmful if swallowed. Avoid contact with skin, eyes, or clothing.

Do not breathe fumes, dust, or spray mist. Wear gloves and goggles when handling.
