Dear Dr. Mandava:

Subject: Nissan T.C.C.A. Granular  
EPA Registration No. 33906-6  
Your Amendment Dated January 3, 1992

This is in response to your amendment for approval of revised printed labels of different sizes for the subject product.

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable. A stamped copy of one size container is enclosed for your record.

It should be noted that we do not review or stamp different size container labels for a product. Only one representative size label should be submitted for our review and acceptance. The different sizes of containers that the product is packaged in should be included on the Application form (EPA Form 8570-1). Also, note that an application form should be included with each submission to the Agency.

If you wish to market this product under an additional brand name (i.e., Nissan T.C.C.A. - Extra Granular) you must submit a Notification only to the Agency. Do not submit labels. We do not review additional brand name labels. It is understood that they will be the same as the basic product label except for the brand name. The submitted labeling with "Extra Granular" included in the name is being returned without action.

If you have any questions about these comments, please call Marianne Clark at (703) 305-7879.

Sincerely yours,

Ruth Douglas  
Product Manager (32)  
Antimicrobial Program Branch  
Registration Division (H7505C)

KEEP OUT OF REACH OF CHILDREN

## DANGER

### FIRST AID (PRACTICAL TREATMENT)

IF SWALLOWED, drink promptly a large quantity of water. Avoid alcohol. Call physician.

IF IN EYES, flush with plenty of water. Get medical attention.

IF ON SKIN, wash with plenty of soap and water. Call physician if irritation persists.

NOTE TO PHYSICIAN: Probable mucosal damage may contraindicate the use of gastric lavage.

### Directions For Use

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

For Manufacturing, Repackaging or Reformulating Disinfectants, Sanitizers and Algicides.

Each repacker or reformulator must obtain his own registration from the Environmental Protection Agency to market his product.

### PRECAUTIONARY STATEMENTS

Hazard to Humans and Domestic Animals:

**DANGER:** Corrosive. Causes eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles and rubber gloves when handling. May be fatal if swallowed. Avoid breathing dust. Wash thoroughly with soap and water after handling.

**ENVIRONMENTAL HAZARD:** This pesticide is toxic to fish. Do not discharge effluent containing this product into lakes, streams, ponds, estuaries, oceans, or public waters unless this product is specifically identified and addressed in an NPDES permit. Do not discharge effluent containing this product to sewer systems without previously notifying the sewage treatment plant authority. For guidance contact your State Water Board or Regional Office of the EPA.

**PHYSICAL OR CHEMICAL HAZARD:** Oxidizing material. Avoid contact with combustible materials. Keep away from all sources of heat, flame or sparks. At elevated temperatures (above about 325°F) a self propagating thermal decomposition may occur with resultant irritating and toxic gases. In case of fire, flood with large quantity of water. In the event of contamination or decomposition, do not reseal container.

### STORAGE AND DISPOSAL

**STORAGE:** Retie polyethylene liner after each use and keep container tightly closed. Store in dry place. Do not allow water to get into container. Keep container off wet floors. Do not contaminate water, food or feed by storage or disposal.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal law. If these wastes cannot be disposed of by use according to label instructions, contact your state Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL:** Completely empty liner by shaking and tapping sides and bottom to loosen clinging particles. Empty residue into application equipment. Then dispose of liner in a sanitary landfill or by incineration if allowed by State or local authorities. Rinse empty container with water, and dispose of in the same manner.
