

COMPATIBILITY

Dixie's CYTHION 5E is compatible in spray tank mixes with most insecticides and fungicides providing they are not alkaline in reaction. Read labels carefully of products to be used with Dixie's CYTHION 5E to determine rates and conditions for use.

GENERAL INFORMATION

Dixie's CYTHION 5E is an emulsifiable concentrate which when diluted with water in the recommended dilution rate listed below is intended for control of insect pests of agricultural crops. Do not use in barns or dwellings and do not use on livestock. In the directions for use given below, unless otherwise noted, Dixie's CYTHION 5E should be mixed with sufficient water to insure thorough coverage of the plants involved. Best control is obtained when application is made at first sign of insects. Application should be repeated as necessary to maintain control. Consult your State Experiment Station Extension Service and Specialists to obtain proper information on timing of application and rates to be applied.

CONTAINER DISPOSAL

DO NOT RE USE THE EMPTY CONTAINER. Return to drum conditioner or destroy by perforating or crushing and burying in a safe place away from water supplies.

DIRECTIONS FOR USE:

CITRUS Grapefruit, Lemons, Limes, Oranges, Tangerines, Tangelos, Kumquats. Suggested amounts of CYTHION 5E for control:

PEST	DOSAGE AMOUNT PER ACRE	DAYS TO HARVEST
Citricola	1 pint	7
Black Scale	1 pint	7
Purple Scale	2 pints	7
Yellow Scale	1 1/2 pints	7
Brown Soft Scale	1 1/2 pints	7
Red Scale (California)	2 pints	7

VEGETABLES, FRUITS, AND OTHER CROPS

Apply at petal fall and spray every 10-14 days thereafter until control is achieved.

Oriental Fruit Moth	1 1/2 pints	3
Codling Moth	2 pints	3
Plum Curculio	2 pints	3

APPLES, DORMANT AND DELAYED DORMANT SPRAYS

PEST	DOSAGE AMOUNT PER ACRE
Aphids, woolly, green, rosy	1 pint plus 1 gallon of Superior oil
Mites	1 pint plus 1 gallon of Superior oil
Red-banded leafroller	1 pint plus 1 gallon of Superior oil

APRICOTS:

PEST	DOSAGE AMOUNT PER ACRE	DAYS TO HARVEST
Codling Moth	1 1/2 pints	7
Orange Tortrix	1 1/2 pints	7
Soft Brown Scale	1 1/2 pints	7
Terpan Scale	1 1/2 pints	7

CHERRIES:

Black Cherry Aphid	1 1/2 pints	3
Bud moth	1 pint	3
Cherry fruit fly	1 pint	3
Fruit tree leafroller	1 1/2 pints	3
Japanese beetle	1 pint	3

GRAPES:

European fruit lecanium	1 pint	3
Leafhoppers	1 pint	3
Mealy bugs	1 pint	3
Overwintering grape phyllopera	2 3/4 pints	
Spider mite	1 1/2 pints	29
Terpan scale	1 pint	3

PEACHES:

Green Peach	1 pint	7
Black Cherry	1 pint	7
Rusty Plum	1 pint	7
Cotton Peach Scale	2 pints	7
Japanese beetle	1 pint	7
Oriental Fruit Moth	2 pints	7
Plum Curculio	2 pints	7
Terpan scale	2 pints	7

PEARS:

Codling Moth	2 pints	1
Fruit tree leafroller	2 pints	1
Mealy bug	1 1/2 pints	1
Mites	1 1/2 pints	1
Pea Psylla	1 1/2 pints	1
Red-banded leafroller	2 pints	1

DIXIE CYTHION 5E Insecticide

ACTIVE INGREDIENTS:

Malathion* 57%

Aromatic Petroleum Solvent 30%

INERT INGREDIENTS 13%

Total 100%

*O,O dimethyl phosphorodithioate of diethyl mercaptosuccinate

One gallon contains five pounds of malathion.

WARNING:

KEEP OUT OF REACH OF CHILDREN
May be fatal if swallowed. Avoid contact with skin, eyes, and clothing. May be absorbed through skin. Wash thoroughly after handling. Avoid contaminations of food and feed. Do not permit children or pets to go onto sprayed grass until area has completely dried. Avoid breathing of spray mist and avoid contact with skin.

ENVIRONMENTAL CAUTIONS:

This product is toxic to fish, birds, and other wild life. Birds feeding on treated area may be killed. Keep out of lakes, streams, ponds, tidal marshes and estuaries. Do not apply where runoff is likely to occur. Do not apply when weather conditions favor drift from areas treated. Do not contaminate water by cleaning of equipment, or disposal of wastes. Shrimp and crab may be killed at application rates on this label. Do not apply where these are important resources. Restrain water spill from treated fields for 48 hours following applications for tadpole shrimp control (California only). Apply this product only as specified on this label.

CAUTION:

Minimum flash point 82 degrees F. Do not use, pour, or store near heat or open flame.

PHYTOTOXICITY:

Injury may occur on ferns, hickory, viburnum, lantana, crassula, and canaert jumper with the emulsion concentrate. Under heat and dry conditions the emulsifiable concentrate may cause slight injury to elms. When used at recommended rates in accordance with use directions Dixie's CYTHION 5E possesses no hazard to crops listed on label.
