USE AND CARE FOR A. I. D. 1000

To control weeds and earthworms apply contents of this package to 100 square feet of land area. For best uniform distribution, mix thoroughly with top soil or similar material evenly. Apply when soil is dry and work into the soil with beam or rake. Mixing at the above rate with a granular type fertilizer and spreading with a fertilizer spreader been found highly satisfactory. Apply Fall or Spring or any time during growing season.

FOR FERTILIZER

For control of weeds, earthworms, and insecticides, mix 3 tablespoons (1/2 to 1 gallon of water). Label application directions of insecticide and follow with 2 or 3 applications at weekly intervals.
