SHERWIN-WILLIAMS

BASIC COPPER ARSENATE

ACTIVE INGREDIENT:		
Basic Copper Arsenate	91%	
INERT INGREDIENTS:		9%
	TOTAL	100%

Total arsenic (expressed as metallic) not less than 24.2%. Water soluble arsenic (expressed as metallic) not more than 0.5%. Copper (expressed as metallic) not less than 41%.

**PIGMENT,
COLOR &
CHEMICAL
DEPARTMENT**

DIRECTIONS FOR USE

CABBAGE, CAULIFLOWER, BRUSSELS SPROUTS AND KOHLRABI: To control Imported Cabbageworm and Cabbage Looper, use 8 pounds per acre in sufficient water to wet the foliage, add spreader if necessary. Treat plants as soon as transplanted. These worms are best controlled when they are small. Badly damaged plants will be stunted. Do not apply after edible parts, cabbage heads or cauliflower curd begins to form. Remove all sprayed foliage at harvest.

TOMATOES: To control tomato flea beetle, tomato hornworm, apply 15 pounds per acre. This also reduces early and late blight. If used within 30 days of picking, remove residues by wiping or washing.

POISON

DANGER: KEEP OUT OF REACH OF CHILDREN

See other panels for other cautions

ANTIDOTE FOR ARSENIC

CALL A PHYSICIAN IMMEDIATELY. If swallowed, give 1-2 glasses of milk or water. Do not induce vomiting unless directed to do so by a physician. If inhaled, get fresh air immediately. If on skin, wash with plenty of water. If in eyes, wash thoroughly with water. For more information, call your local poison control center or the National Poison Control Center, Washington, D.C. 20540.
