Dear Ms Eagle:

**Subject: Response to Pesticide Registration Notice (PRN 2007-4), Labeling Revisions Required by the Final Rule "Pesticide Management and Disposal: Standards for Pesticide Containers and Containment". Acme Malathion 50% Spray (EPA Reg. No. 33955-394)**

***I. Labeling notification per Pesticide Registration Notice (PRN) 2007-4:***

1. We ask to revise the disposal instructions and to adopt the exact language of Pesticide Registration Notice (PRN 2007-4), Labeling Revisions Required by the Final Rule "Pesticide Management and Disposal: Standards for Pesticide Containers and Containment." One (1) copy of the annotated labeling is enclosed for your review. Please refer to page 4 of the draft labeling.
2. **Certification:** This notification is consistent with the guidance PR Notice 2007-4 and the requirements of EPA's regulations at 40 CFR 156.10, 156.140, 156.144, 156.146, and 156.156. No other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to the EPA. I further understand that if this amended labeling is not consistent with the terms of 40 CFR 156.10, 156.140, 156.144, 156.146, and 156.156, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under Section 12 and 14 of FIFRA.

***II. Labeling notification for Pesticide Registration Notice (PRN) 2008-1***

1. We ask to revise the environmental hazards section of the labeling and to adopt the exact language of (PRN) Pesticide Registration Notice (PRN 2008-1), Environmental Hazard Labeling Statements on Outdoor Residential Use. Please refer to page 2 of the draft labeling.

- 2. **Certification:** This notification is consistent with the guidance PR Notice 2008-1 and the requirements of EPA's regulations at 40 CFR 156.10, 156.80, and 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to the EPA. I further understand that if this notification is not consistent with the guidance of PRN 2008-1 and the requirements of 40 CFR 156.10, 40 CFR 156.80, and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under Section 12 and 14 of FIFRA.

**III. Labeling notification per PRN 98-10:**

- 1. **New York State restriction:** We ask to add one use restriction required by New York State Department of Environmental Conservation for this product. The labeling requirement is stated in a letter prepared by Paula McBath and dated May 18, 2009. Please refer to page 3 of the draft labeling.
- 2. **Certification:** This notification is consistent with the provisions of PR Notice 98-10 and EPA regulations at 40 CFR 152.46, and no other changes have been made to the labeling or the confidential statement of formula of this product. I understand that it is a violation of 18 U.S.C. Sec. 1001 to willfully make any false statement to the EPA. I further understand that if this notification is not consistent with the terms of PR Notice 98-10 and 40 CFR 152.46, this product may be in violation of FIFRA and I may be subject to enforcement action and penalties under Section 12 and 14 of FIFRA.

**IV. Enclosures:**

- 1. Application for Pesticide Amendment (EPA Form 8570-1)
- 2. One (1) copy of the draft labeling

**DELIVERY CONFIRMATION**

**[Company # 2217]**

Ms. Linda Dannaldson  
PBI- Gordon Corporation  
P.O. Box 014090  
Kansas City, Missouri 64101-0090

Dear Ms. Dannaldson,

**Re: Intent to Deny Your Application to Renew the Registration of Four Pesticide Products.**

**Note: Please submit a copy of this letter with your response.**

The New York State Department of Environmental Conservation (Department) has completed its review of your renewal application received August 20, 2008. Your submission has been deemed administratively complete. However, the products listed below are **unacceptable** for the reasons stated:

**Formec 80 Turf & Ornamental Fungicide (EPA Reg. No. 2217-426)** - The product is labeled “Not for Use by Homeowners” and as such the Department intends to restrict this product within thirty days of notification to your Company. The Department takes this action to ensure that only trained applicators, and not homeowners, can purchase and use this product.

**Trimec Classic Broadleaf Herbicide (EPA Reg. No. 2217-543)** – The product labeling on file as AAccepted@ by New York State on 9/14/06, does not comply with the United States Environmental Protection Agency (USEPA) stamped AAccepted@ label dated 07/25/06. **Please submit electronic labeling in .pdf format via e-mail. Please ensure that the corrected final product labeling complies with the USEPA stamped AAccepted@ label or more current accepted labeling. Please include USEPA stamped label or other documentation if different from the above, to support the submitted product labeling. You may also submit this information by mail and by including a CD.**

**Gordon’s Liquid Weed & Feed 15-0-0 (EPA Reg. No. 2217-742)** – This product is being voluntarily cancelled at the federal level and therefore should be put into “discontinued status” in New York State. Please submit a written statement (e-mail is fine) requesting this product to be put into discontinued status.

60 of 12

**Power Zone Broadleaf Herbicide for Turf (EPA Reg. No. 2217-834)** - The product labeling on file as AAccepted@ by New York State on 10/16/06, does not comply with the United States Environmental Protection Agency (USEPA) stamped AAccepted@ label dated 10/23/07. **Please submit electronic labeling in .pdf format via e-mail. Please ensure that the corrected final product labeling complies with the USEPA stamped AAccepted@ label or more current accepted labeling. Please include USEPA stamped label or other documentation if different from the above, to support the submitted product labeling. You may also submit this information by mail and by including the electronic label on a CD.**

**Gordon's Malathion 50% Spray (EPA Reg. No. 33955-394) & Groundwork Concentrate Mosquito & Fly Killer (EPA Reg. No. 33955-394)** – These two products are labeled for homeowner use in spraying areas around domestic dwellings and as such New York State is limiting the use of homeowner products in residential automatic misting systems. Please add the statement "In New York State - Not for Use in Automatic Misting Systems" bolded and prominently displayed in the "Directions for Use" section by your next label printing or by your next renewal date.

**Stronghold PGR (EPA Reg. No. 2217-802)** – The Department is considering restricting all products which contain the active ingredients Ammonium salt of Imazethapyr (chemical code 128923) and/or Ammonium salt of Imazapyr (chemical code 128821) due to impacts to groundwater. PBI Gordon has added a statement to this product label which informs the user that the product cannot be used in Nassau and Suffolk Counties, New York. The Department is in the process of evaluating whether product restriction is required to ensure that the product is used according to the label by a trained applicator. You will be notified of our decision prior to the beginning of the next use season.

**Within 30 days from receipt of this letter** you may make the necessary corrections and/or submit the documentation requested above. If you do not submit the requested documentation, or if you submit the requested documentation and there are still deficiencies in your application, the review will be terminated and your application for re-registration of these products, will be **denied**.

The Department takes this action because New York State will not register labels inconsistent with the most current USEPA stamped AAccepted@ labels or variations allowed by 40 CFR Sections 152.130 and 152.132.

Please be aware that any unregistered product may **not** be sold, offered for sale, distributed, or used in New York State.

Should you have any questions regarding this letter, please contact me, at (518) 402-8768.

Sincerely,

Paula J. McBath

### **Environmental Hazards**

This pesticide is toxic to fish, aquatic invertebrates, and aquatic life stages of amphibians. For terrestrial uses, do not apply directly to water, or to areas where surface water is present, or to intertidal areas below the mean high water mark. Drift and runoff may be hazardous to aquatic organisms in areas near the application site. Do not contaminate water when disposing of equipment washwater.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

### **[Environmental Hazards (alternate per PRN 2008-1)**

This pesticide is toxic to fish, aquatic invertebrates, and aquatic life stages of amphibians. Drift and runoff may be hazardous to aquatic organisms in areas near the application site. To protect the environment, do not allow pesticide to enter or run off into storm drains, drainage ditches, gutters or surface waters. Applying this product in calm weather when rain is not predicted for the next 24 hours will help to ensure that wind or rain does not blow or wash pesticide off the treatment area. Rinsing application equipment over the treated area will help avoid runoff to water bodies or drainage systems.

This product is highly toxic to bees exposed to direct treatment on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.]

### **Physical Or Chemical Hazards**

Do not use or store near heat or open flame.
