STOP! READ THE ENTIRE LABEL FIRST. OBSERVE ALL PRECAUTIONS AND FOLLOW DIRECTIONS CAREFULLY.

PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Keep out of reach of children. Keep in original container in storage. Avoid contact with skin, eyes and clothing. Wear long pants, long-sleeved shirt, shoes and gloves when mixing, loading or applying this product. Wear face shield or goggles when mixing, loading or applying this product. Wash hands after use.

Do not allow spray mist, visible or invisible vapors, or air containing mist or vapors to contact plants, other than those being sprayed. If 2,4-D or MCPP susceptible plants are growing within a distance of 1/2 mile from the area being sprayed, make application only when there is a light breeze away from the susceptible plants. Spray drift can be reduced by using high volume sprays under low pressure, coarse droplet nozzles and boom nozzle drops. Susceptible crops include grapes, tomatoes, tobacco, sugar beets, sunflowers, beans, cauliflower, and cabbage, boxelder trees, as well as other field, vegetables, flowers, ornamental and fruit crops. Do not contaminate streams, lakes, ponds, irrigation water, or water used for livestock or domestic purposes.

Do not store open containers near seeds, feeds, fertilizer or pesticides including insecticides, fungicides, and weed killers other than those containing 2,4-D or brush killers. Sprayers which have contained MCPP should not be used to apply other pesticides to 2,4-D or MCPP susceptible crops. Do not apply this product through any type of irrigation system.

Drift or run-off may adversely affect nontarget plants. For terrestrial uses, do not apply directly to water, to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water when disposing of equipment washwaters. When cleaning equipment, do not pour the washwater on the ground; spray or drain over a large area away from wells and other water sources.

Most cases of groundwater contamination involving phenoxy herbicides such as MCPP have been associated with mixing/loading and disposal sites. Caution should be exercised when handling MCPP pesticides at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing and transferring this pesticide will reduce the probability of spills. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not reenter or permit workers to reenter treated areas until sprays have dried or dusts have settled.

STORAGE & DISPOSAL

STORAGE: Store in original container in a locked storage area inaccessible to children or pets. Keep from freezing.

PESTICIDE DISPOSAL: Do not contaminate water, food, or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

- USE DIRECTIONS -

ACME MCPP HERBICIDE will not injure bentgrasses, established lawns or turf grasses when used as directed. Controls mouse-ear chickweed, clover, plantains, black medic and knotweed in turf grasses. Apply when weeds are young and growing vigorously. Do not apply to bentgrasses in the heat of the summer. Do not mow for several days before or after treatment. Do not water for one day following treatment.

ESTABLISHED GRASSES (Fairways and Lawns):

Apply 1 1/2 to 2 1/4 fluid ounces of product per 1,000 square feet in 2 1/2 gallons of water (4 to 6 pints of product in at least 25 gallons of water per acre). Do not spray during long dry spells

NOTE: If dandelions are a problem, add 2,4-D at the usual rate except on bentgrasses where the rate of 2,4-D should not exceed 4 oz. acid equivalent per acre.

ESTABLISHED GREENS:

Apply 1 1/2 fluid ounces of product per 1,000 square feet in 2 1/2 gallons of water (4 pints of product in at least 25 gallons of water per acre) for control of mouseear chickweed, black medic, knotweed and plantains.

LIMITED WARRANTY AND DISCLAIMER.

The manufacturer warrants only that the chemical composition of this product conforms to the ingredient statement given on the label, and that the product is reasonably suited for the labeled use when applied according to the Directions for Use.

THE MANUFACTURER NEITHER MAKES NOR INTENDS ANY OTHER EXPRESS OR IMPLIED WARRANTIES, INCLUDING ANY WARRANTY OF MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE, WHICH ARE EXPRESSLY DISCLAIMED. This limited warranty does not extend to the use of the product inconsistent with label instructions, warnings or cautions, or to use of the product under abnormal conditions such as drought, excessive rainfall, tomadoes, hurricanes, etc. These factors are beyond the control of the manufacturer or the seller. Any damages arising from a breach of the manufacturer's warranty shall be limited to direct damages, and shall not include indirect or consequential damages such as loss of profits or values, except as otherwise provided by law.

The terms of this Limited Warranty and Disclaimer cannot be varied by any written or verbal statements or agreements. No employee or agent of the seller is authorized to vary or exceed the terms of this Limited Warranty and Disclaimer in any manner.
