 READ THE LABEL
 CAREFULLY. DO NOT
 EXCEED DOSAGE. DO NOT
 USE INSIDE THE HOME. Use
 only as specified on this label.
 CHINCH BUGS, SOD
 WEBWORMS, EARWIGS,
 CUTWORMS, AND ANTS IN

10-2-75

TURF AND ORNAMENTAL LAWNS: Mix 1 1/2 fl. oz. (3 tbs.) in 20 gallons rated sprayer. Dilute to mark with water. Apply uniformly to 1,000 sq. ft. area, or 4 tsp. per 15 gallons for 500 sq. ft. Measure area to be treated. For best results, lawn should be well watered before spraying. Treat as soon as insects appear. Repeat only if needed. Thorough wetting is necessary for chinch bug control.

TO PREVENT ANTS, CRICKETS, EARWIGS, SOWBUGS, BROWN DOG TICKS, AND WATERBUGS (woods roaches) FROM INFESTING BUILDINGS: Spray a band 6 to 10 feet wide around the building, including 2 feet up the foundation. Use same dosage and dilution as recommended above.

MEALYBUGS, CUTWORMS,

AND LEAFHOPPERS ON ORNAMENTAL PLANTS: Mix 6 1/2 tbs. in 10 gallons of water. Use a suitable hand sprayer and apply uniformly, but not to the point of excessive runoff. Treat when pests appear and repeat at 7 to 10 day intervals if needed. Mosquitoes resting in sprayed shrubbery will be killed for several days.

NOTE—Do not use on azaleas, camellias, poinsettias, rose bushes, or variegated ivy because of possible injury to these plants.

WARNING—Keep children and pets off treated areas until spray has completely dried.

CONTAINER AND WASTE DISPOSAL: Do not reuse empty container. Discard in a safe place by burying in a location away from domestic water supplies. Bury unused chemical and spray mixture in
