PRECAUTIONARY STATEMENTS

Hazards to Humans & Domestic Animals

CAUTION: Avoid contact with eyes, skin and clothing. Avoid breathing vapors or spray mist. Keep away from food, feedstuffs and domestic water supplies. Wash thoroughly after handling.

Statement of Practical Treatment

If Swallowed: Call a physician or Poison Control Center. Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

If On Skin: In case of contact, remove contaminated clothing and immediately wash skin with plenty of soap and water.

If In Eyes: Flush eyes with plenty of water.

Note to Physician

Chlorpyrifos is a cholinesterase inhibitor. Treat symptomatically. Atropine only by injection is an antidote.

Environmental Hazards

This product is highly toxic to bees exposed to direct treatment or residues on plants. Protective information may be obtained from your Cooperative Agricultural Extension Service.

This product is toxic to fish, birds and other wild life. Do not apply directly to water. Do not apply where runoff is likely to occur. Do not apply where weather conditions favor drift from treated areas. Do not contaminate water, cleaning of equipment or disposal of wastes.

Physical or Chemical Hazards

Do not use or store near heat or open flame. Do not store below 32 degrees F.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

DISPOSAL: Do not reuse empty container. Wrap container and put in trash collection.

RESIDENTIAL BUILDINGS: Homes, Apartments & Nonfood Areas of Industrial, Institutional and Commercial Buildings including Hospitals, Stores, Manufacturing Plants and Warehouses. **For Spot Treatment Only:** Apply as a coarse spray or with a paint brush to localized areas where cockroaches (including strains resistant to other insecticides), ants, clover mites, crickets, firebrats, silverfish and spiders are found or normally occur including dark corners of rooms and closets, cracks and crevices in walls, along and behind baseboards, beneath and behind sinks, stoves, refrigerators and cabinets, around plumbing and other utility installations. For ants, apply to ant trails and around doors and windows and wherever else these pests may find entrance. **Note:** A period of 4 to 7 days is normally required for maximum effect on cockroaches.

**READY-TO-USE — ODORLESS
CONTAINS *DURSBAN® INSECTICIDE**

ACTIVE INGREDIENTS:

Chlorpyrifos (0,0-diethyl 0-(3,5,6-trichloro-2-pyridyl) phosphorothioate	0.50%
Xylene-Range Aromatic Petroleum Solvent	0.33%

INERT INGREDIENTS

99.17%

TOTAL 100.00%

Keep Out of Reach of Children
CAUTION
See side panels for additional precautionary statements and Statement of Practical Treatment.

*DURSBAN® is a registered trademark of The Dow Chemical Company. U.S. Patent No. 3,244,586

NET CONTENTS ONE-HALF GALLON

Cont. from left panel

Carpet Beetles: Thoroughly apply as a spray for spot treatment along baseboards and edges of carpeting, under carpeting, rugs and furniture in closets and on shelving and wherever else these insects are seen or suspected.

Fleas & Brown Dog Ticks

Thoroughly apply as a spray for spot treatment to infested areas such as pet beds and resting quarters, nearby cracks and crevices, along and behind baseboards, window and door frames and localized areas of floor and floor covering where these pests may be present. Old bedding of pets should be removed and replaced with clean, fresh bedding after treatment of pet area. **Do not treat pets with this product.** To control the source of flea infestation, pets inhabiting the treated premises should be treated with ACME GARDEN GUARD 1% Rotenone or ACME SEVIN 5% DURA DUST, both registered for direct application use to dogs and cats.

PESTS OUT OF DOORS

Fleas & Mosquitoes

For outdoor use only as an aid in reducing annoyance from these insects. Spray outside surfaces of screens, doors, window frames or wherever these insects may enter the room. Also treat surfaces around light fixtures on porches, in garages, and other places where these insects might congregate. Repeat as necessary.

Ants, Brown Dog Ticks, Crickets, Fleas & Earwigs

For treatment of localized infestation of these insects in outdoor areas where there are weeds or brushy non-crop areas, spray infested areas thoroughly. If removal of brush is desired, use ACME SUPER BRUSH KILLER first in non-crop areas according to the instructions given on that label. For ants, thoroughly wet hills and runways. Repeat applications as infestations warrant and as reinfestations occur.

NOTICE

Seller warrants that this product conforms to the ingredient statement on the label. Since conditions of use such as weather, compatibility with other chemicals and condition of application equipment will vary, Seller makes no claims other than those stated on this label.
