Directions for Use

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling. BEAR-CAT PLUS is a proven "one-step" disinfectant-cleaner-sanitizer-mildewstat-virucide which is effective in water up to 400ppm hardness in the presence of 5% serum contamination.

Apply BEAR-CAT PLUS to walls, floors and other hard (inanimate) non-porous surfaces such as tables, chairs, countertops, sinks, tile, porcelain and bedframes with a cloth, mop or mechanical spray device so as to thoroughly wet surfaces. For heavily soiled areas, a preliminary cleaning is required. Prepare a fresh solution daily or when use solution becomes visibly dirty.

Disinfection—To disinfect hard, non-porous surfaces, add 1 oz. per gallon of water. Treated surfaces must remain wet for 10 minutes. The activity of BEAR-CAT PLUS has been evaluated in the presence of 5% serum and 400ppm hard water by the ADAC use dilution test and found to be effective against a broad spectrum of gram negative and gram positive organisms as represented by:

<i>Pseudomonas aeruginosa</i>	<i>Enterobacter aerogenes</i>
<i>Staphylococcus aureus</i>	<i>Salmonella schollmuelleri</i>
<i>Salmonella choleraesuis</i>	<i>Streptococcus faecalis</i>
<i>Escherichia coli</i>	<i>Shigella dysenteriae</i>
<i>Streptococcus pyogenes</i>	<i>Salmonella typhi</i>
<i>Klebsiella pneumoniae</i>	<i>Serratia marcescens</i>

Mildew and Mildew Control—At 1 oz. per gallon, BEAR-CAT PLUS will effectively inhibit the growth of mold and mildew and the odors caused by them when applied to hard, non-porous surfaces (as indicated in general instructions above). Allow to dry on surface and repeat when mildew growth returns.

Virucidal Performance—At 1 oz. per gallon use-level, BEAR-CAT PLUS was evaluated in the presence of 5% serum and 400ppm hard water and found to be effective against the following viruses: Influenza A/Brazil, Herpes simplex Type 1 and Type 2 and Vaccinia on inanimate environmental surfaces.

Sanitizing Non Food Contact Surfaces (such as floors, walls, tables, etc.)—At 1 oz. per 5.5 gallon use-level, BEAR-CAT PLUS is an effective sanitizer against *Staphylococcus aureus* and *Klebsiella pneumoniae* on hard porous and non porous environmental surfaces. Treated surfaces must remain wet for 10 minutes.

Statement of Practical Treatment

In case of contact, immediately flush eyes with plenty of water for at least 15 minutes. For eyes, call a physician. Remove and wash contaminated clothing before reuse.

If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol. Call a physician immediately. NOTE TO PHYSICIANS: Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression, and convulsion may be needed.
