# TOTAL RELEASE AEROSOL FOGGER

**KILLS LISTED INSECTS IN**  
• Apartments • Basements • Attics

**CAUTION: KEEP OUT OF REACH  
OF CHILDREN**

SEE DIRECTIONS AND ADDITIONAL CAUTIONS ON BACK

NET WEIGHT: 16 oz.

The contents of this container will treat an unobstructed area of approximately 5,000 cubic feet. Area is larger, use additional containers. The fine aerosol particles will penetrate and access the stages of small flying moths, wasps, silverfish, cockroaches, flies, gnats, and mosquitoes, fleas and crickets.

### DIRECTIONS FOR USE

Remove pets, birds and live fish aquariums in areas to be treated and close for 15 minutes. To do a completely effective job, leave hallways, closets and trunk space in conditioners and refrigerators open. Cover all food and utensils from direct contact with the spray.

Place can on a raised area such as a table, spread paper under the can to protect the area. Tilt the can beneath the spray head and can. Remove cap, lifting can away from your face. Catch the nozzle firmly over rim of can by placing the thumb over the arrow and pressing forward. Leave the nozzle open; the spray will continue until the complete contents have been released. For maximum effectiveness, keep treated area closed for two (2) hours or more, then open windows and doors and allow space to air for thirty (30) minutes.

This product can be used for spot spraying. Use nozzle top, spray directly on insects. Hold nozzle upwards with a circular motion for 5 to 10 seconds for an average room. Keep nozzle open for 10 minutes. Then air room out for 15 minutes. Spray directly on roaches, fleas, gnats, and flies wherever possible. Do not use as a one shot type treatment after using manually.

**WARNING:** After used in an enclosed area, vacate premises, turning on fans and ventilating area once treatment is completed. Foods should be removed or covered. All food processing surfaces should be covered. Thorough treatment of thoroughly sealed attics is best. When using the product in these areas, apply only when the facility is not occupied by the presence of children.

Apply this product only as specified on this label.

Contents under pressure. Do not puncture. Do not use or store near heat, open flame, or other sources of heat. Do not use if can is damaged or leaking. Never throw or burn a can. Do not use if can is damaged or leaking.

### ACTIVE INGREDIENTS

Permethrin	10.0%
Chlorpyrifos (Technical)	30.0%
Allyl isothiocyanate (Technical)	5.0%
Permethrin (Technical)	5.0%

### INERT INGREDIENTS

81.00%
