

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

IN FOGGING EQUIPMENT & HAND SPRAYERS

To Kill Accessible Stages of Insects* Infesting Dried Fruit Products in Storage or Being Processed

Close room or warehouse and shut off all ventilating systems. Dispense this product as a fine mist in the air above trays or shelves of dried fruit. Use a spraying device similar to Micro-sol machine, or use fixed ceiling sprayers that produce a very fine spray. Do not apply to fruit directly. If overhead sprayers are used, be sure that the spray is discharged from a position of at least 6 feet over the top trays of fruit. Use a dosage of 1 gallon of this spray per 50,000 cubic feet of room space. Repeat applications as necessary for insect control, but do not exceed more than ten applications at this dosage in any seven month. More than ten applications may also be made if this spray is diluted with more petroleum distillate, so that the pyrethrins and synergists in the final spray are reduced proportionately. Do not remain in treated areas. Ventilate the area after treatment is completed. Maximum dilution is 1 part CR-175 plus 5.6 parts oil.

*Indian Meal Moth, Dried Fruit Beetle, Confused Flour Beetle, Saw-Toothed Grain Beetle

To Kill the Adult and Accessible Forms of Insect Pests* of Stored Food (Stored in Multi-wall Paper Bags or in Cloth Bags) in Warehouses, Storage Rooms and Similar Locations

Close room or warehouse and shut off all ventilating systems. Use a spraying device similar to the Microsol machine, or use fixed ceiling sprayers that produce a very fine spray. Use a dosage of one fluid ounce of this spray per 1000 cubic feet of room space. Do not remain in treated areas. Ventilate the area after treatment is completed. Repeat applications as necessary for insect control.

*Rice Weevil, Yellow Meal Worm, Caddis, Confused Flour Beetle, Saw-Toothed Grain Beetle, Angoumois Grain Moth, Mediterranean Flour Moth and Indian Meal Moth.

To Kill Flies, Mosquitoes and Gnats

Close room and discharge spray mist as described above. Use a dosage of 1/2 to 1 fluid ounce per 1000 cubic feet of room space. Leave room closed for at least ten minutes. Sweep up and destroy fallen insects. Repeat as necessary for control. Do not remain in treated areas. Ventilate the area after treatment is completed.

Chemrite

CR-175 HI-KILL

SYNERGIZED PYRETHRIN INDUSTRIAL SPRAY

ACTIVE INGREDIENTS:	100%	
Pyrethrins		.50%
*Piperonyl butoxide, technical		1.00%
+N-octyl bicycloheptene dicarboximide		1.67%
Petroleum distillate		96.83%

*Equivalent to .80% (butylcarbetyl)(6-propylpiperonyl) ether and 20% related compounds.
+MGK-264, Insecticide Synergist.

KEEP OUT OF REACH OF CHILDREN

CAUTION:

PRECAUTIONARY STATEMENTS
HAZARDS to HUMANS and DOMESTIC ANIMALS

Hazardous if swallowed or absorbed through skin. Avoid breathing vapors or spray mist. Avoid contact with skin and eyes. In case of contact, immediately flush eyes or skin with plenty of water. Obtain medical attention if irritation persists. If swallowed, do not induce vomiting, call a physician immediately.

Do not apply directly to food. In commercial food handling facilities, cover or remove any food and food processing equipment during application. Do not apply while food processing is under way. After space spraying in bakeries, and other food processing plants, wash all equipment with potable water, benches, shelving, etc., where exposed food will be handled. In the home, all food processing surfaces and utensils should be covered during treatment or thoroughly washed before reuse.

This product is toxic to fish. Do not contaminate water by cleaning of equipment or disposal of waste.

BEST DOCUMENT AVAILABLE

NOTE: This spray, when applied per the directions and cautions above, conforms with Food Additive Regulations 193.350 and 193.390 and the food additive tolerances established thereunder.

DIRECTIONS Continued

IN PRESSURIZED TANK SPRAYERS FOR WETTING

CONTACT SPRAYS

As a Surface Spray to Kill the Accessible Stages of Granary Insects: Rice Weevils, Confused Flour Beetles, Rust Red Flour Beetles, Saw Toothed Grain Beetles, Cigarette Beetles, Meal Moth Larvae and Adults, Cigarette Beetles, Drug Store Beetles and Granary Weevils. Apply as a coarse, wet spray to all areas infested by these insects. Use a dosage of 1 gallon per 1000 square feet. Pay particular attention to cracks and crevices in floor, walls and ceiling. Spray thoroughly around and into floor drains, conveyors and other areas where granary insects may be found. (For Flying Moths and Beetles, treat as for Flies, Mosquitoes and Gnats. See above). Do not apply this spray to surfaces that may come in contact with food, excessive residues in food may result.

To Kill Fleas, Silverfish and Waterbugs in Sheltered Stations

Apply this spray with a sprayer that produces coarse, wetting droplets into all cracks and crevices in woodwork, floors, underneath sinks, areas behind pipes, and in all places where these insects shelter. Contact as many insects as possible. Repeat as necessary for control. Do not allow spray to contact any stored food.

STORAGE and DISPOSAL

KEEP CONTAINER CLOSED

Triple rinse. Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved state and local procedures.

Pesticide, spray, mixture, or rinse water that cannot be used according to label instructions must be disposed of according to applicable Federal, state and local procedures.
