POOLSIDE

ALGI-RID

CONCENTRATE

COMPOSITION

NET CONTENTS 32 Fl. Oz. (1 Qt.)

Active ingredient:

Poly ((oxyethylene (dimethyliminio) ethylene (dimethylimino) ethylene dichloride)) 60.0%

Inert ingredient 40.0%

APPLICATIONS

POOLSIDE ALGI-RID CONCENTRATE is used to control the growth of algae in swimming pools. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using POOLSIDE ALGI-RID CONCENTRATE.

For pools having just visible algae growth, add an initial dose of 11 to 17 fl. oz. of POOLSIDE ALGI-RID CONCENTRATE per 10,000 gal. of water and remove settled algae debris by cleaning. For treatment of a freshly cleaned and filled pool, add initially 6 to 11 fl. oz. of POOLSIDE ALGI-RID CONCENTRATE per 10,000 gal. of water.

To maintain pools free of visible algae growth, subsequent additions of 2 to 4 fl. oz. of POOLSIDE ALGI-RID CONCENTRATE per 10,000 gal. of water should be made every 5 to 7 days after the initial treatment.

Uniform distribution of POOLSIDE ALGI-RID CONCENTRATE throughout the water in the pool is necessary for maximum effectiveness. POOLSIDE ALGI-RID CONCENTRATE is compatible with those chemicals normally used to treat pools and is effective at both acid and alkaline pH. POOLSIDE ALGI-RID CONCENTRATE can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix POOLSIDE ALGI-RID CONCENTRATE with concentrated dry or liquid chlorine products.

EPA REG. 34269-1

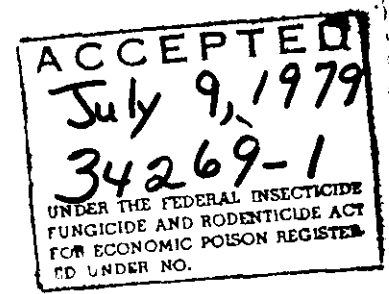

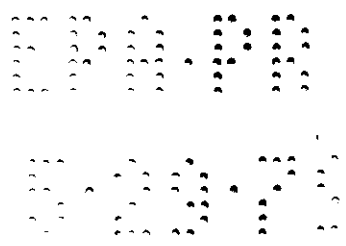

EPA ESTABLISHMENT NO. 34269MN 01

CAUTION: KEEP OUT OF THE REACH OF CHILDREN

Harmful if swallowed. Do not get in eyes. Avoid contact with skin. In case of contact, flush with plenty of water for at least 15 minutes. If eye irritation persists, get medical attention. Avoid contamination of food.

Rinse empty container thoroughly with water and discard container. Do not reuse empty container. Destroy it either by perforating or crushing. Bury or discard in a safe place away from water supplies. This product is toxic to fish. Treated effluent should not be discarded where it will drain into lakes, streams, ponds, or public water. Apply this product only as specified on this label.
