KEEP OUT OF REACH OF CHILDREN

MADE AND PRINTED IN U.S.A.

DIRECTIONS

Century Creosote Wood Preserver protects wood from insect infestation and decay. Treatment will delay the onset of rot and decay. Frequent inspection and retreatment may be necessary to maintain control. Use for protection of wooden railings, fences, barn rafters, boat docks, homes, and industrial buildings. Century Creosote Wood Preserver may be applied with brush, spray, or by dipping.

Fence posts, poles, foundation timbers and heavy wooden members should be free of bark, dry and well seasoned and immersed in the product for a period of 12 to 48 hours to be an effective wood preserver.

Lumber intended to be in contact with the soil should be dipped for a minimum 3 minutes or if treated by the brush or spray method, receive two or more flowing coats of the product.

CAUTION: Surfaces treated with Creosote Wood Preserver may not be painted. Properly discard container when empty. Do not reuse.
