SODIUM HYPOCHLORITE

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

WARNING

**KEEP OUT OF REACH
OF CHILDREN**

- Causes eye damage.
- May cause severe skin irritation or chemical burns.
- Do not get in eyes, on skin, or on clothing.
- Wear goggles or face-shield and rubber gloves when handling concentrated product.
- Wash thoroughly after handling. Remove contaminated clothing and wash before reuse.

ENVIRONMENTAL PRECAUTIONS

This pesticide is toxic to fish. Pool wastes treated with Sodium Hypochlorite Solution should not be drained into streams, ponds or public water. Do not contaminate water by cleaning equipment or disposing of wastes.

PHYSICAL OR CHEMICAL HAZARDS

- Mix only with water according to label directions. Do not mix with other products or chemicals (such as household ammonia, detergents or acids). To do so will release hazardous gases.
- Use only in well ventilated areas.
- Organic contamination must be removed by washing and rinsing with recommended use dilutions.
- Vacate treated areas as soon as possible and do not return until vapors and odors have dissipated.

ACTIVE INGREDIENT, Sodium Hypochlorite	10.5%
INERT INGREDIENT	89.5%
	100.0%

DISINFECTANT BACTERICIDE DEODORANT

For use in food processing plants, farms, restaurants, hotels, swimming pools, and in industrial applications as a bleach. See directions.

WARNING

**KEEP OUT OF REACH
OF CHILDREN**

STORE IN A COOL DRY PLACE, OUT OF SUN AND AWAY FROM SOURCES OF HEAT AND LIGHT. Degrades with age. Use a test kit and increase dosage as necessary to obtain required level of available chlorine.

EMPTY CONTAINERS: Flush out with water. With all plugs and caps intact, return to supplier for deposit refund.

KEEP OUT OF REACH OF CHILDREN

MAY BE HARMFUL IF SWALLOWED

Will irritate skin and eyes. In case of contact:

EXTERNAL: Flush area with water.

INTERNAL: Drink milk, raw egg white mucilage or rice gruel. Follow with
emetic (Tablespoon of mustard in glass of warm water.)

CALL A PHYSICIAN.

DIRECTIONS FOR USE

DEODORIZING AND SANITIZING FOR USE BY HOTELS, RES- TAURANTS, FARMS AND FOOD PROCESSING PLANTS:

1. Scrape and prewash all utensils and glassware.
2. Thoroughly wash in solution of 1 ounce of Sodium Hypochlorite to
1 3/4 gals. of water.
3. Rinse in clear potable water.
4. Sanitize in solution of 1 ounce of Sodium Hypochlorite to 7 1/4 gals.
of water. Immerse all utensils for a minimum of 2 minutes.
5. Place sanitized utensils on rack or drainboard to air dry.

COMMERCIAL LAUNDRY BLEACH

Mix 1 gallon to 14 gallons of water. Introduce Sodium Hypochlorite into
your normal laundry process.

SWIMMING POOLS

For initial dosage of swimming pool water, use 10 ounces of Sodium
Hypochlorite solution per 1,000 gals. of water. Bathers: Do not enter pool
until the Chlorine residual falls below 3ppm.

One gallon of Sodium Hypochlorite solution per 10,000 gallons of water
twice a week to provide a Chlorine residual of .6 to 1ppm. Use a reliable
Chlorine test kit to maintain the Chlorine residual between .6 and 1ppm at
all times. The PH should be kept between 7.2 and 7.6.
