

## GENERAL INFORMATION

A multi-use insecticide repellent formulation which may be applied to animals to protect them from biting and nuisance flies, mosquitoes, and gnats.

A space spray giving quick knockdown and kill of flies, mosquitoes and gnats in barns.

## DIRECTIONS FOR USE

FLY-OFF is made especially for use on horses.

It will kill horse flies, stable flies, house flies, hornflies, face flies, mosquitoes and gnats on the animal at the time of application.

Make sure horse's hair coat is free of dirt by brushing thoroughly before making application. Moisten a soft cloth with FLY-OFF and rub over the hair paying special attention to the legs, shanks, shoulders, neck and area around the face where flies generally are seen. Rub against hair growth and apply lightly.

Use a soft cloth or sponge to wipe spray on animal. Apply just enough spray to wet the ends of the hair but not enough to soak the hide. Repeat at daily intervals or as necessary to give continued protection.

Face Flies: Use a heavy cloth or sponge to wipe spray on the faces of horses. Apply daily or as needed to those areas of the animal where face flies rest, such as the face, withers and sides where saliva may occur from head tossing.

Barns: Apply as a spray in barns to knock down and kill stable flies, house flies, face flies, mosquitoes and gnats. Close all doors and windows and direct the spray toward the ceiling. The barn should remain closed for 12 to 20 minutes. Do not remain in treated areas. Ventilate the area after treatment is completed. Sweep up and destroy fallen insects. Repeat as necessary.

## Spray or Wipe

Repels and Kills  
Horse Flies, Stable Flies, House Flies,  
Face Flies, Hornflies, Mosquitoes, Gnats

Effective in Barn and in the Pasture

NET CONTENTS 1 GALLON

Manufactured by  
**WL Western Laboratories**  
P.O. Box 284, Omaha, Nebr. 68101

## ACTIVE INGREDIENTS: 100%

Pyrethrins .....	06%
*Piperonyl butoxide, technical .....	12%
†N-octyl bicycloheptene dicarboximide .....	20%
**Di-n-propyl isocinchomeronate .....	40%
Mineral Oil .....	99.22%
Total —	100.00%

\*Equivalent to .090% (butylcarbitol) (0-propylcarbitol) ether and .024% related compounds.

†MGK-264, Insecticide Synergist.

\*\*MGK Repellent 325, U.S. Pat. No. 2,757,120.

EPA Registration No. 34346-1  
EPA Establishment No. 34346 NB-1

## CAUTION

### Keep Out of Reach of Children

For use on horses only. Not for human use. Harmful if swallowed. Do not contaminate food, feedstuffs or drinking water. Keep out of lakes, streams or ponds. Keep out of any body of water. Apply this product only as specified on this label.

Do not reuse empty container. Discard in a safe place.

Do not use, pour, spill or store near heat or open flame.
