TECHNICAL DATA SHEET

PENTA WOOD PRESERVATIVE

PENTA WOOD PRESERVATIVE is 5% pentachlorophenol in solution with a petroleum distillate conforming to AWPA P9-74 specifications.

SAFE HANDLING OF PENTA SOLUTIONS

Penta Wood Preservative (PWP) is harmful or fatal if swallowed. If swallowed induce vomiting by administering an emetic--call a physician immediately.

PWP can cause skin irritation. To keep off skin and clothes may require the use of goggles, synthetic rubber or other oil resistant gloves, aprons or other protective clothing. Clothing which becomes contaminated with PWP should be laundered before rewearing. In case of skin contact, wash thoroughly with plenty of soap and warm water.

PWP may be harmful to eyes. In case of eye contact, flush thoroughly with water for fifteen minutes and get medical attention.

KEEP AWAY FROM CHILDREN - NEVER put PWP in soft drink bottles or store in such a way that children can get at them. Do not store near feed or foodstuffs.

Avoid breathing PWP vapors. PWP IS FLAMMABLE, keep away from open flames.
