registered under
EPA Reg. No. 34473-4

FLOWTRON

OCTENOL MOSQUITO ATTRACTANT

DIRECTIONS FOR USE: It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Remove sealed attractant cartridge from package and peel off adhesive label covering evaporation holes. (See figure 1).

FIGURE 1

Attach cartridge to insect killer using double faced adhesive tape as follows:

1. Remove double faced tape from package and peel off backing paper from one side of tape. Press tape to bottom of cartridge. (Side opposite evaporation holes).
2. Peel off backing paper from opposite side of tape. Press cartridge to bulb holder at bottom of enclosure.

FIGURE 2

When your insect killer is operating, it will produce the required heat and convective air flow to vaporize the attractant and disperse it at the proper rate per hour.

For best results, replace cartridge after hours of insect killer use.

C

PRECAUTIONARY STATEMENTS:

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful if swallowed, absorbed through the skin or inhaled. Avoid skin, mouth and eye contact with the evaporation holes. Wash thoroughly with soap and water after handling. Avoid inhalation.

STATEMENT OF PRACTICAL TREATMENT: IF INHALED — move to fresh air. IF ON SKIN — wash affected areas with soap and water. IF IN EYES — flush with plenty of water. Call a physician if irritation develops.

STORAGE & DISPOSAL: Storage: Store unopened attractant cartridge in a cool, dry place until ready to use.

Disposal: Do not reuse attractant cartridge. Wrap attractant cartridge in several layers of newspaper and discard in trash.
