

UNDER THE FEDERAL INSECTICIDE ACT AND RODENTICIDE ACT, THIS PRODUCT IS REGISTERED AS A DISINFECTANT, BACTERICIDE, AND DEODORANT.

DIRECTIONS

HOTELS-RESTAURANTS-TAVERNS SANITIZING AND DEODORIZING

1. Scrape and prewash all utensils and glassware.
2. Thoroughly wash in solution of 1 ounce of Sodium Hypochlorite to 2 gallons water.
3. Rinse in clear potable water.
4. Sanitize in solution of 1 ounce Sodium Hypochlorite to 7 1/2 gallons water 130 PPM available chlorine. Immerse all utensils for a minimum of 2 minutes or contact time specified by governing sanitary code.
5. Place sanitized utensils on rack or drainboard to air dry.

ENVIRONMENTAL PRECAUTIONS

This product is toxic to fish. Treated pool effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Do not contaminate water by cleaning equipment or disposal of wastes. Apply only as specified on label.

WARNING: Keep out of reach of children. Harmful if swallowed. Strong Oxidant. May produce chemical burns. Do not get on skin or in eyes. Do not use ammonia or other bowl cleaners with this product. To do so will release hazardous gases.

FIRST AID: In case of skin and eye contact, flush with plenty of water. If skin irritation persists, get medical attention. For eyes, get prompt medical attention. Internal—Give milk, water, or egg whites. Call Physician Immediately.

SODIUM HYPOCHLORITE SOLUTION

Active Ingredient: Sodium Hypochlorite 12.5%
Inert Ingredient: 87.5%

Degrades with age. Use a test kit and increase dosage as necessary to obtain required level of available chlorine. See Directions on Right Panel.

DISINFECTANT BACTERICIDE DEODORANT
FOR

EPA ECONOMIC POISON REGISTERED
EPA REG. NO. 34628-3

DIRECTIONS

For newly filled pools or at start of each season:

Add 10 oz. 10,000 gallons of water (equivalent to 1.0 ppm available chlorine) Test with a reliable chlorine test kit and continue adding in smaller amounts (1 oz. 10,000 gallons equivalent to 0.1 ppm available chlorine) if necessary until a residual of 0.6 to 1.0 ppm is established as determined by the test kit. Keep the pH at 7.2 to 7.6 at all times as determined by an adequate pH test kit.

Sodium Hypochlorite degrades with age. Store in cool, dark place.

Use Test Kit often and increase dosage as necessary to maintain required level of residual chlorine.

Test Kits available from your pool supply dealer.
