# INTERCIDE ABF-2 AQ

EPA REG No. 34688-38 EPA EST No. 34688-NJ-1  
FUNGISTATIC PLASTICIZER-STABILIZER  
FOR VINYL COMPOUNDS

## PRECAUTIONARY STATEMENTS

Hazards to Humans (and Domestic Animals)

### DANGER

Corrosive, causes eye and skin damage. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling.

Intercede ABF-2 AQ should not be used on items which come into contact with food stuffs nor on items of clothing or infant wear.

### FIRST AID

If splashed in eyes or on skin wash immediately with copious amounts of water and secure immediate medical attention.

### ENVIRONMENTAL HAZARDS

This product is toxic to fish and wildlife. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

## STORAGE AND DISPOSAL

### PESTICIDE DISPOSAL

Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

### CONTAINER DISPOSAL

Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other approved State or local procedures.

## COMPOSITION AND APPLICATION

Intercede ABF-2 AQ is a formulation of 10, 10'-oxybisphenoxarsine, specifically designed for compatibility with flexible vinyl systems. It contains polypropylene glycol as its carrier.

The incorporation of approximately 1.5% by weight of an Intercede ABF-2 AQ based on the weight of the total vinyl system, will usually provide protection against the surface growth of many mildew organisms. It is recommended that each formulation be checked out in a qualified laboratory in order to determine the optimum level required for protection. Interstab Chemicals can provide antifungal testing and/or assistance in formulation to meet individual requirements. It may be necessary to incorporate levels as high as 2.5% of this material in a vinyl system which is exposed to outside weathering.

Intercede ABF-2 AQ contains the 10,10'-oxybisphenoxarsine in a formulation containing a primary plasticizer and can be substituted directly for the equivalent amount of plasticizer it is replacing.

This information is furnished without warranty, representation, inducement of any kind, including, but not limited to, the implied warranties of merchantability and fitness for a particular purpose except that it is accurate to the best of Interstab Chemical's knowledge or obtained from sources believed by Interstab Chemicals to be accurate, and Interstab Chemicals does not assume any legal responsibility for use or reliance upon same. Customers are encouraged to conduct their own tests. Before using any product read its label.

ACCEPTED  
SEP 22 1987  
Under the Federal Insecticide, Fungicide, and Rodenticide Act as amended, for the pesticide registered under EPA Reg. No. 34688-38
