NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

This product is conditionally registered in accordance with FIFRA section 3(c)(7)(A) provided that you:

1. Submit/cite all data required for registration/reregistration of your product under FIFRA section 3(c)(5) when the Agency requires all registrants of similar products to submit such data.

2. Make the labeling changes listed below before you release the product for shipment:

a. Add the phrase "EPA Registration No. 34688-40."

b. Add the wording "Do not use on items that will come in contact with the skin or food products."

3. Submit five (5) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 Enclosure for a further description of final printed labeling.

DIRECTIONS FOR USE

It is violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

(12 Pt)

Store away from heat or open flame in a cool dry location. Keep container tightly closed when not in use. Clean up spills immediately with diatomaceous earth or similar substance.

PESTICIDE DISPOSAL: Do not contaminate water, food or feed by storage or disposal. Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Triple rinse or equivalent. Then offer for recycling or re-conditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

INSTRUCTIONS FOR TREATING WOOD

Intercide Copper Octoate 1% is a ready to use product containing Copper 2-ethylhexanoate, a biocide used to protect against wood rot fungi. It is suitable for protecting either exterior or interior wood items. The wood rot protection of interior wood is only required when such wood is subject to frequent or prolonged wetting (e.g., condensation or rain seepage). It can be used for treating lumber and heavy timbers, treatment of wood includes the following representative wooden items: wooden flooring for decks and patios, ladders, door and window frames and sashes, fence posts, stakes and small dimensional lumber, wooden siding and shingles, etc. Best results are obtained when the wood to be treated is dry and free of bark and the application temperature is above 50°F.

DIP TREATMENT: Lumber and small wooden structures should be totally immersed in Intercide Copper Octoate 1% treating solution for a period of from 30 seconds to 3 minutes, depending on the thickness of the wood and the absorption required. Heavy lumber items should be dipped for 3 minutes, whereas light and absorptive stakes, window frames, etc. may be sufficiently treated in less time. The treated wood should be drained of excess solution and allowed to air dry until all solvent is gone and the wood is free from solvent odor. This usually takes 24 hours.

BRUSH COATING AND SPRAYING: Intercide Copper Octoate 1% is ideal for brushing or spraying all types of wood items as discussed above. When using a brush or spraying, coverage should be complete or until runoff starts to occur (approximately 300 sq. ft. per gallon). After permitting to dry for 24 hours, a second coat may be applied. Treated dried wood may be painted over if desirable.

CLEANING OF BRUSHES OR SPRAYING EQUIPMENT: Equipment and/or brushes may be cleaned with mineral spirits or a suitable paint thinner.

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION

(18 Pt)

Contains Petroleum Distillate

Harmful if swallowed, inhaled or absorbed through skin. Do not get in eyes, on skin or on clothing. Wash thoroughly with soap and water after handling.

STATEMENT OF PRACTICAL TREATMENT

IF IN EYES: Flush with plenty of water and get medical attention.

IF SWALLOWED: Do not induce vomiting. Call a physician immediately.

IF ON SKIN: Wash with plenty of soap and water.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to water. Do not contaminate water by cleaning of equipment or disposal of wastes.

PHYSICAL OR CHEMICAL HAZARDS

Combustible. Do not use or store near heat, sparks or open flame. Use with adequate ventilation.
