P.O. BOX 4780 • OAK PARK, MICHIGAN 48237

KS-9

ALGAE KILLER

HOW TO APPLY

Apply KS-9 as a surface spray using the amounts indicated on the application chart. Dilute KS-9 with enough water to allow even distribution. Usually 10 to 20 parts of water to 1 part KS-9 is sufficient. Do not apply before rain or before spraying.

Apply KS-9 on a sunny day when algae growths first become visible and the water temperature is above 60 degrees F. Treatment should begin at shoreline and proceed toward center of water to prevent trapping of algae.

Do not use KS-9 in areas where oxygen loss from algae could be a problem. This loss can cause fish kills. To avoid this hazard treat 2 to 3 cu. ft. of water per acre of algae vegetation and part it out 10 to 14 hrs. before treatment. Begin treatment at shoreline and proceed outwards in straight lines, overlapping adjacent treated areas. Do not spray birds, fish, or other animals before they are completely out of the water.

FISH CAUTION: Do not use KS-9 in water that has a density of 1.0000 or less. Do not use KS-9 in the immediate vicinity of the water. Do not use KS-9 in water with a pH less than 6.5 or more than 9.0.

Do not use KS-9 in areas where it may be harmful to plants. Do not use KS-9 in any stream.

ACTIVE INGREDIENTS:

Copper as elemental* 7%

INERT INGREDIENTS:..... 93%

Contains 3.4 Lbs. of Elemental Copper per Gallon

*From Copper Trisulfate and Complex

CAUTION

KEEP OUT OF REACH OF CHILDREN

See additional cautions on label panel.

GENERAL INFORMATION

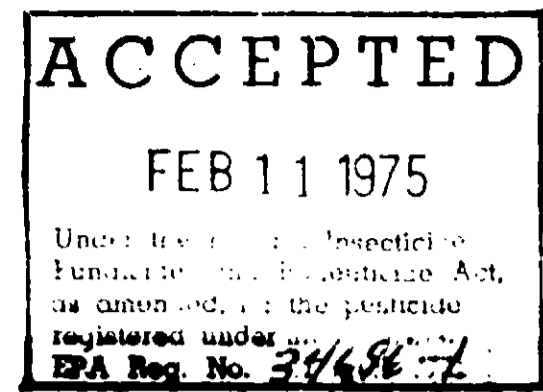

KS-9 Algaecide is effective in controlling a broad range of algae. Species of Pithoidia and Lyellia are copper tolerant and are not always controlled by KS-9.

Some states require permits for use in public waters before using KS-9. Check with appropriate authority.

Do not use KS-9 in contact with fish or shellfish. Do not place

DILUTION CHART

Average Water Depth	Gallons of KS-9 to use per Acre	
	0.3ppm Cu/Algae	0.3ppm Cu/Chlor
1 foot	1	1
2 feet	2	2
3 feet	3	3

ALGAECIDE

For Use in

- POTABLE WATER RESERVOIRS
- FARM, FISH & FIRE PONDS
- LAKES AND FISH HATCHERIES

CAUTION

Keep out of reach of children. KS-9 may cause skin damage. Do not get on skin, eyes, clothing. In case of contact, wash thoroughly. For eyes, wash thoroughly and get medical attention. May be harmful if swallowed. If swallowed, call a doctor. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

WARNING

Do not use KS-9 directly to, or otherwise permit it to come into contact with, any crop plants, trees, or ornamental plant as injury may result. Wash spray equipment after each application.

NOTICE

Neither the manufacturer nor the seller makes any warranty, expressed or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use of this material when such use is contrary to label instructions.
