

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS
CAUTION**

Causes eye and skin irritation. Harmful if swallowed, inhaled or absorbed through skin. Do not get in eyes, on skin or on clothing. Wear goggles or face shield and rubber gloves when handling. Wash with soap and water after handling. Avoid breathing dust. Use with adequate ventilation. Do not contaminate food or foodstuff.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. Do not apply directly to lakes, streams or ponds. Do not contaminate water by cleaning of equipment or disposal of waste. **NOTE TO USER:** Federal Government and most states have seed laws and regulations requiring an appropriate caution statement be affixed to bags containing treated seed such as: "Treated Seed - Do Not use for food or feed."

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited.

PESTICIDE DISPOSAL: Pesticide, spray mixture, or residue that cannot be used or chemically reprocessed should be disposed of in a landfill approved for pesticides or buried in a safe place away from water supplies.

CONTAINER DISPOSAL: Dispose of in an incinerator or landfill approved for pesticide containers, or bury in a safe place.

GENERAL: Consult federal, state or local disposal authorities for approved alternative procedures such as limited open burning. Store in a cool, dry place. Protect from excessive heat.

POTATO SEED PIECE TREATMENT—To control Brown Eye, Damping-Off, Seed Decay (Fusarium), Verticillium Wilt. Apply sufficient amount of Captan 5 Dust to provide thorough coverage. Use 1 to 2 pounds of this product per bushel of cut seed. Whole or 1-drop seed will need less material. Depending on the number of cuts made in the seed piece, the amount of dust used will vary as a result of the number of surface areas exposed for treatment. Captan 5 Dust will NOT protect against fungal inoculum already within the tuber or bacterial diseases. Dust seed pieces before planting, but pieces should be treated within 6 hours of cutting. If planting is delayed more than 1 or 2 days, treated pieces should be stored 2 days in open crates before bagging.

**DO NOT USE TREATED SEED FOR FEED OR FOOD
NOTICE**

DISCLAIMER—The label instructions for the use of this product reflect the opinion of experts based on field use and tests. The directions are believed to be reliable and should be followed carefully. However, it is impossible to eliminate all risks inherently associated with use of this product. Crop injury, ineffectiveness or other unintended consequences may result because of such factors as weather conditions, presence of other materials, or the manner of use or application all of which are beyond the control of Platte Chemical Company. All such risks shall be assumed by the user. Platte Chemical Company warrants only that the material contained herein conforms to the chemical description on the label and is reasonably fit for the use therein described when used in accordance with the directions for use, subject to the risks referred to above. Any damages arising from a breach of this warranty shall be limited to direct damages and shall not include consequential commercial damages such as loss of profits or values or any other special or indirect damages. Platte Chemical Company makes no other express or implied warranty, including any other express or implied warranty of FITNESS or of MERCHANTABILITY.
