CAUTION: Caution should be observed:

1. Do not use on or near crops, animals, or humans.
2. May cause irritation to eyes, skin, and respiratory tract.
3. Do not reuse container. Destroy by burning.
4. Keep away from fire and sparks. Store in cool, dry place.
5. This product is toxic to fish. Keep out of lakes, streams, or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.
6. Dispose of excess treated seeds or wastes by burial.

ANTIDOTE: In case of skin contact wash with water. For eyes, wash with water copiously and get medical attention.

NOTICE: Seller warrants that this product conforms to the ingredient statement on the label. Due to conditions of use which vary, such as weather, condition of planting equipment, and compatibility with other chemicals, seller makes no claims other than those stated on the label.

Method of Application

DIRECTIONS FOR USE:

For protection of wheat, oats, barley and rye against certain seed and soil borne diseases, such as bunt (stinking smut), damping off, seed rots, seedling blights, and false loose smut of barley-- apply as follows:

Wheat--Apply at a rate of 1 ounce per bushel of seed.

Oats, Barley and Rye--Apply at a rate of 2 ounces per bushel of seed.

For best results apply the recommended amount of CLEAN CROP Seed Protectant in the drill box at the time of planting.

Mix thoroughly with seed in the drill box as follows: Fill the drill box one-half full of seed then treat with one half amount of CLEAN CROP and mix well by stirring with a stick or paddle until color is imparted to all seed: add the remaining seed to the drill box and cover with balance of CLEAN CROP. Mix thoroughly as above.

NOTE: Should CLEAN CROP Seed Protectant become compacted in the container, simply turn the container upside down and shake, then right the container and continue use.
