

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS**

May be harmful if swallowed. Do not take internally. Avoid eye contact. Flush contaminated eyes with plenty of water. Get medical attention if irritation persists. Wash thoroughly after handling. Wash contaminated clothing before reuse. Keep away from food, feedstuffs and domestic water supplies.

PHYSICIAN: Active ingredient is a cholinesterase inhibitor. Treat symptomatically. Atropine is an antidote.

ENVIRONMENTAL HAZARDS

Do not allow to get into and then wildlife. Keep out of any body of water. Do not allow to get into waterways containing fish or shellfish. Apply this product only as specified on this label.

STORAGE AND DISPOSAL

CONDITIONS: Store in a cool, dry place. Do not store in areas where children and pets can get into it. Do not store in areas where children and pets can get into it. Do not store in areas where children and pets can get into it. Do not store in areas where children and pets can get into it.

Do not store in a manner that will allow children and pets to get into it. Do not store in a manner that will allow children and pets to get into it. Do not store in a manner that will allow children and pets to get into it.

Do not store in a manner that will allow children and pets to get into it. Do not store in a manner that will allow children and pets to get into it. Do not store in a manner that will allow children and pets to get into it.

DIRECTIONS FOR USE

For use on lawns, use this product in a manner consistent with its labeling. Do not apply to areas where children and pets can get into it. Do not apply to areas where children and pets can get into it.

Directions: 1/2 G granular material to be applied uniformly to home lawns and other ornamental and recreational turf areas. Use a granular material spreader designed for application of granular material. Apply the amount of product in one direction, then apply the balance at a right angle. Irrigate with 1,000 gallons of water per acre so as to wash the granules into the zone of active feeding. Consult the following table to determine amounts of CHLORPYRIFOS 1/2 G and water needed for treatment. Repeat as necessary.

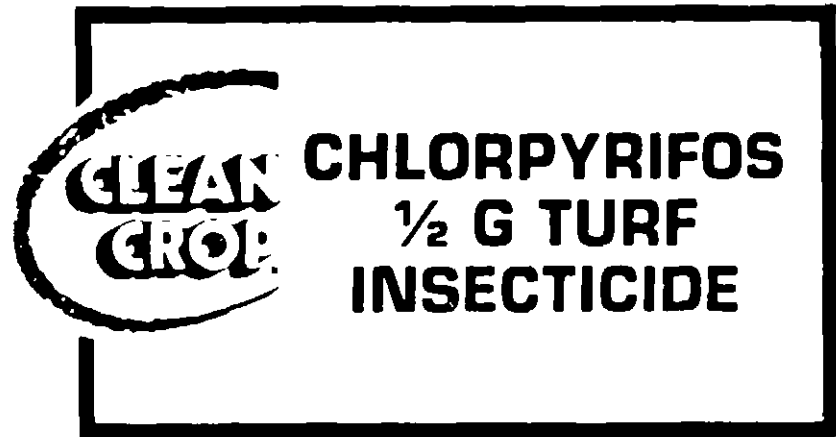

Control: Sod Webworms (Lawn Moths), Ants, Brown Dog Ticks, Crickets, Cutworms, Earwigs, Sowbugs, Certain White Grubs* and Hyperodes (Turfgrass) Weevils** Infesting Home Lawns and other Ornamentals.

Application: For European chaffer and Japanese beetle use two to four times the amounts of CHLORPYRIFOS 1/2 G shown in the table, i.e., 10 to 20 pounds per 1,000 sq. ft. Apply the granules uniformly over the lawn and immediately by thorough watering to wash the insecticide into the turf. For best results treat when the larvae are actively feeding near the soil surface, usually during late July and August. Consult your local Agricultural Extension Service specialist for best time to apply.

Hyperodes (Turfgrass) Weevils: use twice the rate of CHLORPYRIFOS 1/2 G shown in the table. Treat suspected areas in mid April and again in mid May. Consult your local Agricultural Extension Service specialist for best time to apply.

RATES TO USE

Area to be Treated	Pounds of CHLORPYRIFOS 1/2 G	Gallons of Water to Sprinkle on Turf after Treatment
10,000 sq. ft.	5	30
50,000 sq. ft.	25	150
100,000 sq. ft.	50	325

ACTIVE INGREDIENT:
Chlorpyrifos [O,O-diethyl O-(3,5,6-trichloro-2-pyridyl) phosphorothioate*0.5%
