EPA Reg. No. 34704-69

This labeling must be in the possession of the actual product user at the time of application.

TILE TERRACED FIELDS CONTAINING STANDPIPES

To ensure protection of surface water from runoff through standpipes and tile outlets in terraced fields, the following option may be used:

1. Do not apply this product within 66-feet of standpipes in tile-outletted terraced fields.
2. Apply this product to the entire tile-outletted terraced field and immediately incorporate it to a depth of 2-3 inches in the entire tile outletted terraced field.
3. Apply this product to the entire tile-outletted terraced field under a no-till practice only when the high crop residue management practices are used. High crop residue management practice is described as a crop management practice where little or no crop residue is removed from the field during or after crop harvest.

Always consult label for other use directions and limitations.
