#### UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

JUL 1 9 1995

Mr. J. Allen Dunlap III Platte Chemical Company P.O. Box 667 Greeley, CO 80632-0667

Dear Mr. Dunlap:

Subject: Amendment- Revise per Diazinon Registration Standard Clean Crop Diazinon G-14 EPA Registration Number 34704-230 Your submissions dated December 15, 1993

This amendment referred to above, submitted in connection with registration under FIFRA section 3(c)(7)(a), is acceptable, provided that you:

- Submit and/or cite all data or other material required for registration/reregistration of your product under FIFRA section 3(c)(5) or FIFRA section 4 when the Agency requires all registrants of similar products to submit such data.
- Make the labeling changes listed below before you release the product for shipment bearing the amended labeling:
  - a. Under DIRECTIONS FOR USE change "Federal Law" to "Federal law".
  - b. Incorporate all the changes in the Agency's letter of March 3, 1994 for the Worker Protection Standard.
  - c. Under Statement of Practical Treatment If inhaled: add "Get medical attention.".
  - d. Under Statement of Practical Treatment If on skin: change "Get medical attention." to "Remove contaminated clothing and wash promptly with plenty of soap and water. Rinse thoroughly. Get medical attention.".

CONCURRENCES SYMBOL 32.50 OFFICIAL FILE COPY

EPA Form 1320-1A (1/90)

Printed on Recycled Paper

会 U.S. GENERAMENT PRINTING OFFICE 1945 - \$1975

3. Submit three (3) copies of your final printed labeling before you release the product for shipment. Refer to the A-79 enclosure for a further description of final printed labeling.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product constitutes acceptance of these conditions.

A stamped copy of the label is enclosed for your records.

Your current Confidential Statement of Formula (CSF) does not list the impurities of toxicological concern separately nor does it include the diazinon certification for FIFRA Sec. 12(a)(1)(C), that the description of this product refers to the composition set forth on the CSF and supporting materials as required by the Diazinon Registration Standard, as well as the certification regarding the determination of the certified limits of the toxicological significant impurities, i.e., reliance on your diazinon supplier's analysis of their technical. Please check with each of your diazinon suppliers in this regard and update your CSF accordingly.

We note that you list two different suppliers for diazinon. For each supplier you must submit separate CSF forms because the impurities of toxicological concern for diazinon are different for each technical.

Sincerely,

George T. LaRocca Product Manager (13) Insecticide-Rodenticide Branch Registration Division (H7505C)

Enclosure

# RESTRICTED USE PESTICIDE

Due to Avian and Aquatic Toxicity

For retail sale to and use only by Certified Applicators or persons under their direct supervision and only for those uses coverable to such COMMENTS with COMMENTS in EPA Letter Dued

Fungicide and Rodenicide Act Reg. No.

#### **GRANULAR INSECTICIDE**

### PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS CAUTION

Harmful if swallowed, inhaled or absorbed through the skin. Avoid breathing dust and contact with eyes, skin or clothing. Wash thoroughly after handling and before eating or smoking. Do not store near food or feed products. Do not contaminate ornamental fish ponds.

#### **ENVIRONMENTAL HAZARDS**

This pesticide is highly toxic to birds, fish, and other wildlife. Birds. especially waterfowl, feeding or drinking on treated areas may be killed. Do not exceed maximum permitted label rates. Application rates above those recommended significantly increase potential hazards to birds. Avoid overlapping granules. Collect or incorporate granules that are spilled during loading or are visible on soil surface in turn areas. Keep out of lakes, streams, ponds, tidal marshes and estuaries. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff may be hazardous to aquatic organisms in neighboring areas. Shrimp and crab may be killed at application rates recommended on this label. Do not apply where fish, shrimp, crab, and other aquatic life are important resources. Do not contaminate water by cleaning of equipment or disposal of equipment washwaters.

#### STATEMENT OF PRACTICAL TREATMENT

If swallowed: Call a physician immediately. Drink one or two glasses of water and induce vomiting by touching the back of the throat with finger. Repeat until vomit fluid is clear. Do not induce vomiting or give anything by mouth if person is unconscious or convulsing.

If inhaled: Remove victim to tresh air and apply artificial respiration if

If on skin: Wash promptly with plenty of soap and water. Rinse thoroughly. Get medical attention

If in eyes: Rinse eyes with plenty of water and call a physician immediately.

Note to Physician: This product is an organophosphale insecticide. If symptoms of cholinesterase inhibition are present, atropine sulfate by injection is antidotal. 2-PAM is also antidotal and may be administered. but only in conjunction with atropine.

#### **DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling

FAILURE TO FOLLOW THE DIRECTIONS FOR USE AND PRECAUTIONS ON THIS LABEL MAY RESULT IN POOR INSECT CONTROL. CROP INJURY, OR ILLEGAL RESIDUES.

Unless directions under Timing/Special Directions state otherwise, applications to the soil should be worked into the top few inches immediately after application with a rotary hoe, cultivator, disk, harrow, or other suitable means for greatest effectiveness.,

#### **WORK SAFETY RULES**

REPEATED EXPOSURES TO CHOLINESTERASE INHIBITORS SUCH AS ARE CONTAINED IN THIS PRODUCT MAY, WITHOUT WARNING, CAUSE PROLONGED SUSCEPTIBILITY TO VERY SMALL DOSES OF ANY CHOLINESTERASE INHIBITOR.

When handling DIAZINON G-14 do not rub eyes or mouth with hands. If you leel sick in any way, STOP work and get help right away. See Practical Treatment section of this label. When handling this product, wear the personal protective equipment listed in the following section.

#### PERSONAL PROTECTIVE EQUIPMENT

Long-sleeved shirt, long-legged pants, shoes and socks, and chemicalresistant gloves.

Do not apply this product in a way that will contact unprotected workers, either directly or through drift. Only protected handlers may be in the area during application.

### STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal. Store in a cool, dry, well-ventilated area away from food or feed.

Pesticide: Pesticide or equipment rinsate that cannot be used according to label instructions may be disposed of on site or at an approved waste disposal facility.

Container: Completely empty bag by shaking and tapping sides and bottom to toosen clinging particles into application equipment. Then dispose of empty bag in a sanitary landfill or incinerate, or burn if allowed by state and local authorities. Stay out of smoke during burning. Do not reuse container.

For minor spills, leaks, etc. follow all precautions indicated on this label and clean up immediately. Take special care to avoid contamination of equipment and facilities during clean up and disposal of wastes, in the event of a major spill, fire or other emergency, call 1-303-356-4400 or 1-800-424-9300 day or night.

#### **VEGETABLE CROPS**

1 .

### Special Precautions To Reduce Risks To Birds

Birds feeding on treated areas may be killed. To reduce risks to birds:

- Thoroughly incorporate this product into the soil during or immediately after application. Refer to the Soil Incorporation table that
- Cover or incorporate spilled granules.

DIAZINON G-14 should be applied uniformly as directed for each crop. When a range of rates is given, use the higher rate for heavy infestations: For application by ground equipment only. Do not apply this product to food crops grown in greenhouses.

Note: Soil Incorporation - Unless directions under Timing/Special Directions state otherwise, for control of pests listed below DIAZINON G-14 should be incorporated into the soil during or immediately after applica-

Insect	Depth of Incorpora	
Surface cutworms*	2 3 inches	
Subterranean cutworms*	3-6 inches	
Mole crickets	1-2 inches	
Root maggots	3-4 inches	
Wireworms	4-8 inches	

If cutworms cannot be identified, incorporate 4-6 inches.
