| | TERM OF ISSUANCE Until Reregistered | |
| | NAME OF PESTICIDE PRODUCT Clean Crop RL2 Dust Contains Co-Ral | |

NOTICE OF PESTICIDE: REGISTRATION
 REREGISTRATION
 (Under the Federal Insecticide, Fungicide,
 and Rodenticide Act, as amended)

NAME AND ADDRESS OF REGISTRANT (Include ZIP code)

Platte Chemical Company
 419 8th Street
 P.O. Box 007
 Greeley, CO 80632

656/188006
18/19

NOTE: Changes in labeling formula differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above U.S. EPA registration number.

On the basis of information furnished by the registrant, the above named pesticide is hereby Registered/Reregistered under the Federal Insecticide, Fungicide, and Rodenticide Act.

A copy of the labeling accepted in connection with this Registration/Reregistration is returned herewith.

Registration is in no way to be construed as an indorsement or approval of this product by this Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.

Based on your response to the Reregistration Standard Guidance Package, EPA has reregistered the product listed above. Enclosed is a copy of your label stamped "Accepted." This registration is granted under the authority of FIFRA section 3(a).

1. This application has been approved based on the provisions of FIFRA section 35-3 pertaining to data compensation. A final rule on data compensation is effective as of April 25, 1985, and future applications must be submitted under these new procedures.

2. Make the labeling changes listed below before you release the product for shipment bearing the amended labeling.

- a. A Statement of Practical Treatment must be added to the labeling. We suggest the following statement; however, if your toxicological data suggest otherwise, please submit a written statement of practical treatment for prior approval:

If swallowed - Call a physician or Poison Control Center immediately. Drink copious amounts of water and induce vomiting by touching the back of throat with a finger. Do not induce vomiting or take anything by mouth for an unconscious or convulsing person.

|---|-----------------|
| SIGNATURE OF APPROVING OFFICIAL  | DATE 3/16/87 |
|---|-----------------|

- If Inhaled - Remove victim to fresh air. Apply artificial respiration if indicated.
- If On Skin - Remove contaminated clothing and wash affected areas with soap and water.
- If In Eyes - Flush eyes with plenty of water. Call a physician if irritation persists.

b. Revise the "Note to Physician" to read:

If symptoms of cholinesterase inhibition are present, atropine sulfate is antidotal. 2-Pam is also antidotal and may be administered in conjunction with atropine.

c. Add the following headings above the signal word on the back panel:

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS**

- d. Add the heading ENVIRONMENTAL HAZARDS before "This product is toxic to fish, etc."
- e. Add the statement "It is a violation of Federal law to use this product in a manner inconsistent with its labeling" to the beginning of the Directions For Use.

The product name has been changed from RL2 Dust Contains Co-Ral to Clean Crop RL2 Dust Contains Co-Ral.

3. Submit five (5) copies of your final printed labeling before you release the product for shipment.

If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA section 6(e). Your release for shipment of the product bearing the amended labeling constitutes acceptance of these conditions.

George T. LaRocca
Product Manager (15)
Insecticide-Rodenticide Branch
Registration Division (TS-767C)

STORAGE AND DISPOSAL

PROHIBITIONS: Do not contaminate water, food or feed by storage or disposal.

STORAGE: Store in a cool, dry place in original container.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

CONTAINER DISPOSAL: Completely empty bag into application equipment. Then dispose of empty bag into a sanitary landfill or by incineration, or, if allowed by State and local authorities, by burning. If burned, stay out of smoke.

APPLICATIONS

LOUSE AND HORN FLY CONTROL: Suspend Dust Bags in areas frequented by cattle or in gateways or lanes through which the animals pass daily for water, feed or mineral. Bags may also be suspended in loafing sheds or in front of protected mineral feeders. For lactating dairy cows, Dust Bags may be suspended in the exit through which cows leave the milking barn. In all cases, the bags should be adjusted so that the bottom of the bag will hang four to six inches below the topline of the cattle.

REDUCING FACE FLY POPULATIONS: Suspend Dust Bags in the same manner as described under "Louse and Horn Fly Control." Best results, bags should be located so the animals will be forced to use them daily, or the bags can be hung in loafing areas for choice use. When dust bags are used free choice be sure bags are hung in such position that the cattle can easily dust their faces. As face flies are able to travel over an area of several miles, best results in reducing face fly populations are achieved when cattle dusters are used on an area-wide basis.

INSTALLATION OF DUST BAGS: Suspend the bags by inserting rope, chain, or wire through the grommets at the top of the bag and attaching to an overhead structure or by hooking the grommets into hooks fixed to a stationary overhead 2 x 4 at the heights recommended for horn fly control.

Install as many Dust Bags as necessary in lanes or other openings to assure proper dusting of the animals. When dust bags are provided on a free-choice basis, allow 25 pounds dust per 25 to 50 animals.

RESTRICTIONS: Do not hang dust bag over feed, mineral, or water troughs.

IMPORTANT: Read these entire Directions and Conditions of Sale, including the Warranty and Limitation of Damages provision, before using this product.

CONDITIONS OF SALE: These Directions for Use reflect the opinion of experts based on tests of effectiveness, of toxicity to laboratory animals and of residues on or in food and feed under normal conditions of use. However, because of the wide range of conditions under which this product may be used, it is impossible to eliminate all risks associated with its use because of abnormal conditions beyond the control of the Seller. The Manufacturer and the Seller offer, and the Buyer uses, this product subject to the understanding that the Buyer assumes all such risks.

WARRANTY AND LIMITATIONS OF DAMAGES: Manufacturer and Seller warrant that this material conforms to the chemical description on the label and is reasonably fit for the purposes referred to in the Directions for Use and Conditions of Sale, subject to the risks referred to therein. Manufacturer and Seller make no other express or implied warranty, including any other express or implied warranty of FITNESS or of MERCHANTABILITY, and no agent of Manufacturer or Seller is authorized to do so except in writing, with a specific reference to this warranty. Any damages arising from a breach of this warranty shall be limited to direct damages, and shall not include consequential commercial damages such as loss of profits or values, etc.
