

VEGETATION KILLER

For non-selective weed control on non-cropland areas
such as parking lots, fence rows, railroad sidings,
drainage ditch banks, storage yards around buildings
or industrial sites.

ACTIVE INGREDIENTS:

Prometon: 2,4-bis (isopropylamino)-
6-methoxy-s-triazine 3.73%

INERT INGREDIENTS*: 96.27%

*Contains petroleum distillates **TOTAL** **100.00%**

**KEEP OUT OF REACH OF CHILDREN
CAUTION**

See Side Panel For Additional Precautionary Statements

CAUTION

Harmful if swallowed. If swallowed, do not induce vomiting, call a physician immediately. Avoid contact with eyes and skin. In case of skin contact, wash with soap and water. Avoid inhalation of spray mist. Avoid contamination of food and feed.

Do not contaminate water used for irrigation or domestic purposes.

Keep out of lakes, streams or ponds. Do not contaminate water by cleaning of equipment, or disposal of wastes. Apply this product only as specified on this label.

Do not use, pour, spill or store near heat or open flame.

Important: Read the entire Directions For Use and the Conditions of Sale and Warranty before using this product.

DIRECTIONS FOR USE

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

STORAGE: Do not store below temperature of 32°F. Store in safe manner. Store in original container only. Store in cool, dry place. Keep container tightly closed when not in use. Reduce stacking height where local conditions can affect package strength.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Metal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. **Plastic:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

APPLICATIONS

Uniformly spray one gallon of this product mixed in ten gallons of water over 1,000 sq. ft. of soil surface. Thoroughly wet all foliage to insure contact action. Best results are obtained when applications are made during or after weed emergence while growth is succulent. Where vegetation is tall and dense, use 1½ gallons of this product in ten gallons of water per 1,000 sq. ft. For control of hard-to-kill perennial weeds and grasses such as johnsongrass, bindweed, and wild carrot, use 3 to 4½ gallons per 1,000 sq. ft. Although this herbicide has considerable activity through foliar contact, much of its activity is through the roots and, therefore, adequate rainfall to move the chemical into the root zone is necessary.

Under conditions where the rainfall is high and the growing season long, a second application may be necessary to maintain a weed-free soil surface.

Care must be taken to keep this herbicide away from desirable flower beds, lawns and shrubs. Do not apply over roots of valuable trees or woody ornamental plants. Only apply herbicide outside the dripline of trees. Avoid spray drift to desirable plants.

CONDITIONS OF SALE AND WARRANTY

Since weather and other conditions under which this product may be used will vary, the Seller makes no warranty express or implied, concerning the use of this product other than indicated on the label. Buyer assumes all risk of use and/or handling of this material when such use and/or handling is contrary to label instructions.
