

CITRUS SOLUBLE OIL LIGHT MEDIUM

Insecticide-Miticide

ACTIVE INGREDIENT: By Wt.
Petroleum Oil ... 99.30%
INERT INGREDIENTS: 0.70%
TOTAL 100.00%

Classification—Light Medium
Unsulfonated Residue—92% Minimum

KEEP OUT OF REACH OF CHILDREN CAUTION

See Below Panel For Additional Precautionary Statements.

EPA REG. NO. 34704-337

EPA EST. NO. ______ GALS. (______L)

40104 01Y94

PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION

Avoid inhalation of spray mist. Harmful if swallowed.

First Aid

If swalloved, do not induce vomiting. Call a physician immediately.

Persor : I Protective Equipment:

Some materials that are chemical resistant to this product are listed below. If you want more options, follow the instructions for category (E) on the EPA chemical resistance category selection chart.

Applicators and other handlers must wear: long-sleeved shirt and long pants, chemical-resistant gloves, such as barrier laminate, nitrile rubber, neoprene, or viton and shoes plus socks.

Follow manufacturer's instructions for cleaning and maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

Engineering controls statements:

When handlers use closed systems, enclosed cabs, or aircr', in a manner that meets with requirements listed in the Worker P otection Standard (WPS) for agricultural pesticides [40 CFR 170.240 (d) (4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

USER SAFETY RECOMMENDATIONS

Users should:

Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet.

Remove clothing immediately if pesticide gets inside. Then wash thoroughly and put or clean clothing.

Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

ENVIRONMENTAL HAZARDS

For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not contaminate water by cleaning equipment or disposal of wastes.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontains specific instructions, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE), and restricted-entry injerval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (HEI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is: coveralls, chemical-resistant gloves, such as barrier laminate, nitrile rubber, neoprene or viton and shoes plus socks.

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Keep out of reach of children and animals. Store in original containers only. Store in a cool, dry place and avoid excess heat. Carefully open containers. After partial use, replace lids additional containers. Do not put concentrate or dilute material into food or drink containers. Do not contaminate other pesticides, fertilizers, water, food, or feed by storage or disposal.

In case of spill, avoid contact, isolate area and keep out animals and unprotected persons. Confine spills.

To confine spiff: If liquid, dike surrounding area or absorb with sairo, cat litter or commercial clay. Place damaged package in a holding container, identify contents.

PESTICIDE DISPOSAL: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility. CONTAINER DISPOSAL: Metal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by stath and local authorities. Do not cut or weld metal containers. Pleatic: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incide aid to the dispose of in a sanitary landfill, or incide aid to the dispose of the sanitary landfill, or incide aid to the dispose of the sanitary landfill or incide aid to the dispose of the sanitary landfill or incide aid to the dispose of the sanitary landfill or incide aid to the dispose of the sanitary landfill or incide aid to the dispose of the sanitary landfill or incide aid to the sanitary landfill or incide a

dispose of in a sanitary landfill, or incine, state, or, if allowed by state and local subtorities, between the transfer of smoke.

Special attention has been given and formulation of this product to make it compatible with wettable powder materials such as Malcit.icr. 25.

Spray and products used for the correction of minor element deficients.

CITRUS SOLUBLE OIL LIGHT MEDIUM

EPA REG. NO. 34704-337

MIXING DIRECTIONS: Before using this product, be sure the spray tank is clean and contains just enough water to cover the agitator shaft. With agitator running, start filling tank with water; add oil when tank is about half full. Pump this mixture through the overflow and back into the tank for about two minutes to insure proper emulsification. Fill with water, adding other desired materials as tank is filling. Keep agitator running at all times. Sufficient agitation must be present to insure proper emulsification. If an injector is used, first add 25 to 50 gattons of water to tank with engine running to provide good pressure. Put injector suction tube into the measured amount of spray oil, opening injector valve to allow the oil to be sucked into the tank, then fill the tank with water.

Do not use this material if it does not emulsify.

Use efficient equipment of the proper type. Avoid spraying during or immediately prior to hot or freezing weather (over 90°F or under 32°F), hot dry winds, rain or other unsuitable conditions; avoid overspraying or double spraying. Plants should be sprayed only when in vigorous condition and when their moisture condition is suitable.

Do not make an oil spray application within 2 weeks prior to, or after an application of sulfur. On Citrus do not make an oil application within 60 days prior to, or after an application of sulfur.

Apply when pests first appear. Apply the following recommended rates in sufficient water to thoroughly cover one acre. By ground use a minimum of 200 gallons of diluted soray per acre. Do not use in undiluted form.

Do not apply this product through any type of Irrigation system.

GRAPEFRUIT, LEMONS, ORANGES:

Yellow Scale, Citricola Scale, Red Scale, Brown Soft Scale, Citrus Red Mite-Use 11/2 to 2 gallons per 100 gallons of water.

OLIVES: Olive Scale, Black Scale, Oleander Scale-Use 11/2 to 2 galions per 100 gallons of water.

DEALERS SHOULD SELL IN ORIGINAL PACKAGES ONLY.
