AGENT FOR: PLATTE CHEMICAL CO. INC.
P.O. BOX 667
GREELEY, CO. 80632**

**OFFICE OF
PREVENTION, PESTICIDES AND
TOXIC SUBSTANCES**

**Subject: Label Amendment Submission of 09/21/93 In Response to PR Notice 93-7
EPA Reg. No. 34704-353
SUPERIOR 70 OIL**

Dear Registrant:

The labeling cited above and submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is accepted subject to the comments reflected on the enclosed sheet. A copy of your proposed labeling stamped "ACCEPTED WITH COMMENTS" is enclosed.

WHAT THIS ACCEPTANCE MEANS:

Based on your certification, the Agency has accepted the labeling changes that are necessary to comply with the Worker Protection Standard (WPS) labeling requirements of 40 CFR part 156, subpart K, described in PR Notices 93-7 and 93-11. Any other labeling changes submitted in connection with this amendment application but not directly related to compliance with the WPS have not been reviewed or accepted by the Agency. If you wish to make such changes, you must submit a separate amendment application proposing them. If your product is currently suspended, the acceptance of this labeling amendment does not affect the suspension in any way.

WHAT YOU NEED TO DO NEXT:

By the next label printing make all the specified changes to your labeling. Send to EPA one (1) copy of the final printed labeling:

- **BEFORE** selling or distributing any product bearing the final printed labeling
- AND**
- **WITHIN** one year from date of this acceptance.

Recycled/Recyclable
Printed with Soy/Canola ink on paper that
contains at least 50% recycled fiber

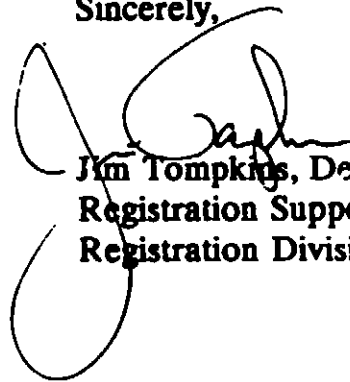

Submit the final printed labeling via the U.S. Postal Service to:

Document Processing Desk (FIN-LABEL)
Office of Pesticide Programs (7505C)
U.S. Environmental Protection Agency
401 M Street, SW
Washington, D.C. 20460-0001

Hand or courier deliveries of final printed labeling may be made to:

Document Processing Desk (FIN-LABEL)
Office of Pesticide Programs
Room 266A, Crystal Mall 2
1921 Jefferson Davis Highway
Arlington, VA 22202

Sincerely,

Jim Tompkins, Deputy Chief
Registration Support Branch
Registration Division (7505W)

PROPOSED LABEL

SUPERIOR 70 OIL

ACCEPTED with COMMENTS In EPA Letter Dated

28 1994

Under the Federal Insecticide, Fungicide, and Rodenticide Act

ACTIVE INGREDIENT: Petroleum Oil 87.0%

INERT INGREDIENTS: 3.0%

TOTAL 100.0%

Petroleum Oil Specifications:
 Unsulfonated Residue—82% Minimum
 Viscosity—70 Seconds

Physician Information
 Only minor irritation should be expected from any type of exposure other than pulmonary aspiration. Ingestion may result in some gastroenteritis and mild diarrhea. Viscosity is such that chemical (hydrocarbon) pneumonia is not a hazard; however, aspiration or lipid pneumonia of a less severe variety could result from pulmonary aspiration. Since systemic toxicity is not expected, the added risk of aspiration from attempts to induce vomiting or lavage are deemed not warranted.

KEEP OUT OF REACH OF CHILDREN!
CAUTION

See Below For Additional Precautionary Information.

Engineering controls statements

USER SAFETY RECOMMENDATIONS

STATEMENT OF PRACTICAL TREATMENT

If swallowed: no attempt need be made to empty the stomach. Irritation may be reduced by giving milk or other bland materials to drink.

If inhaled: there are no harmful vapors. If the liquid is sucked into the lung (aspirated) and causes coughing or breathing difficulties, a physician should be consulted.

If on skin: wash thoroughly with soap and water.

If in eyes: wash thoroughly with water and if irritation persists, consult a physician.

ENVIRONMENTAL HAZARDS

This product is toxic to fish. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Do not apply where runoff is likely to occur. Do not contaminate water by cleaning of equipment or disposal of wastes. Apply this product only as specified on this label.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

AGRICULTURAL USE REQUIREMENTS

NON-AGRICULTURAL USE REQUIREMENTS

STORAGE AND DISPOSAL

PESTICIDE STORAGE: Do not store below 32°F. (0°C). Do not use or store near heat, open flame or hot surfaces. Keep out of reach of children and animals. Store in original containers only. Store in a cool, dry place and avoid excess heat. Carefully open containers. After partial use, replace lids and close tightly. Do not put concentrate or dilute material into food or drink containers. Do not contaminate other pesticides, fertilizers, water, food, or feed by storage or disposal. Keep oil container tightly closed in storage to prevent entry of water.

In case of spill, avoid contact, isolate area and keep out animals and unprotected persons. Confine spills. To confine spill: If liquid, dike surrounding area or absorb with sand, cat

Storage and Disposal, Cont'd.

litter or commercial clay. Place damaged package in a holding container. Identify contents.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Metal: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities. Do not cut or weld metal containers. Plastic: Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

WARRANTIES, GUARANTEES, OR REPRESENTATIONS OF ANY KIND, EITHER EXPRESSED OR IMPLIED, OR BY USAGE OF TRADE, STATUTORY OR OTHERWISE, WITH REGARD TO THE PRODUCT SOLD, INCLUDING, BUT NOT LIMITED TO, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, USE OR ELIGIBILITY OF THE PRODUCT FOR ANY PARTICULAR TRADE USAGE.

Directions for Mixing: Fill the spray tank about one-third full of water, start the agitator and pour in the required amount of this product. If other spray materials are to be used with the oil, mix the other materials thoroughly with the water in the spray tank first, and then add the oil as the filling of the tank is being completed. Do not use in undiluted form.

Caution: Spray on war: 1 days in later Winter or early Spring, and before the buds separate into the clusters. Do not spray in freezing weather, or apply strong dosages after the buds have burst to any extent. Do not apply when buds have separated in the clusters.

Do not apply within 2 weeks of sulfur spray or within 7 days of captan.

Do not use if this spray oil does not emulsify. Correct emulsification is indicated if, when this product is added to the water in the spray tank, a uniform milk-white spray mixture results, provided the spray mixture is being agitated. If the spray mixture, after adding the oil to the spray tank with the agitator running, is not milk-white, do not use the resulting spray or the remainder of this product.

When a gun has been shut off or the outfit stopped for any length of time, spray on the ground for a few moments until the spray appears creamy white. This is desirable also where there are dead ends in the pipe lines of stationary outfits. All the material in stationary outfits should be sprayed out each day.

Do not apply this product through any type of irrigation system.

APPLES, PEARS: Apple Red Bug, European Fruit Lecanium Scale, San Jose Scale—Apply 2 gallons per 100 gallons of water in the delayed dormant stage. Fruittree Leafroller, Scurfy Scale—Apply 3 gallons per 100 gallons of water in the delayed dormant stage. European Red Mite—Apply 2 gallons per 100 gallons of water in the green tip to delayed dormant stage. Pear Leaf Blister Mite—Apply 3 gallons per 100 gallons of water in the dormant stage. Pear Psylla—Apply 2 gallons per 100 gallons of water in the late dormant stage.

APRICOTS, CHERRIES, NECTARINES, PEACHES, PLUMS, PRUNES—Dormant or Delayed Dormant: European Red Mite, San Jose Scale, European Fruit Lecanium Scale, Eggs of Aphids—1½ to 2 gallons per 100 gallons of water in the delayed dormant stage. Terrapin Scale—Use 3 gallons per 100 gallons of water in the delayed dormant stage.

ORNAMENTALS AND SHADE TREES (Conifers [see note], Holly, Pyracantha, Sycamore, Hawthorn, Flowering Peach, Flowering Cherry, Apple, Magnolia, Maple, Dogwood, Oak, privet, Birch): Soft Brown Scale, Oyster Shell Scale, Brown Apricot Scale, Black Scale, San Jose Scale, Red Spider Mites and Eggs—1 gallon to 100 gallons of water. Dormant Spray on Deciduous Varieties—2 gallons per 100 gallons of water. Dormant Spray on Other Varieties—1 gallon per 100 gallons of water. Note: May cause discoloration of Blue Spruce. Do not use in conifers or ferns not tolerant to oil sprays.
