Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or incineration, or, if allowed by state and local authorities, by burning. If burned, stay out of smoke.

## READY TO USE DIRECTIONS FOR USE

For Dairy Cattle Spraying: To protect dairy stock from biting Flies, House Flies, Mosquitoes, and Gnats, as well as certain other flying pest: where barn foggers are not used, spray daily before milking, preferably in the Litrin to avoid wastage due to wind drift, using one ounce per flead. Larger quantities may cause skin irritation or inhibit skin ventilation in hot weather. Spray lightly, but evenly and thoroughly over every part of the animal, with particular attention to the back, flanks, and legs—avoid udder and area around eyes. Do not soak the skin or wet the hide. Do not apply on calves. Do not blanket, brush, or curry the animals shortly after spraying, as this might increase the risk of skin irritation.

For Barn Fogging: To control House Flies, Stable Flies, Horn Flies, Mosquitoes, and Gnats, use approximately one ounce of BCVINOL Super Stock Spray for each 1000 cubic feet of space. Have cattle in barn before spraying. Keep doors and windows closed for at least 10 minutes. Swigep up and destroy all fallen flies. Follow recommendations of equipment manufacturer for proper, costioning of the fogging machine.

For Horses: Spray lightly or sponge horses, using one out to first adult animal, proportionately less for smaller animals. All gardr of the animal's body should be covered, with special attention to shapks, figs, and shoulders. Apply till have is moistened, but do not soak hide. Do not get the spray usdor any leather, such as bridle, harness, or saddle, as the rubbank, bridge leather is abit to produce intritation. Also, do not blanket, brush, or curry the nnimals shortly after spraying.
