OFFICE OF  
PREVENTION, PESTICIDES AND  
TOXIC SUBSTANCES

Subject: Label Amendment Submission of 01/07/94 in Response to PR Notice 93-7  
EPA Reg. No. 34704-715  
PARASPRAY 6-3

Dear Registrant:

The labeling cited above and submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), as amended, is accepted subject to the comments reflected on the enclosed sheet. A copy of your proposed labeling stamped "ACCEPTED WITH COMMENTS" is enclosed.

**WHAT THIS ACCEPTANCE MEANS:**

Based on your certification, the Agency has accepted the labeling changes that are necessary to comply with the Worker Protection Standard (WPS) labeling requirements of 40 CFR part 156, subpart K, described in PR Notices 93-7 and 93-11. Any other labeling changes submitted in connection with this amendment application but not directly related to compliance with the WPS have not been reviewed or accepted by the Agency. If you wish to make such changes, you must submit a separate amendment application proposing them. If your product is currently suspended, the acceptance of this labeling amendment does not affect the suspension in any way.

**WHAT YOU NEED TO DO NEXT:**

By the next label printing make all the specified changes to your labeling. Send to EPA one (1) copy of the final printed labeling:

- BEFORE selling or distributing any product bearing the final printed labeling
- AND
- WITHIN one year from date of this acceptance.

Recycled/Recyclable  
Printed with Soy/Canola Ink on paper that  
contains at least 50% recycled fiber

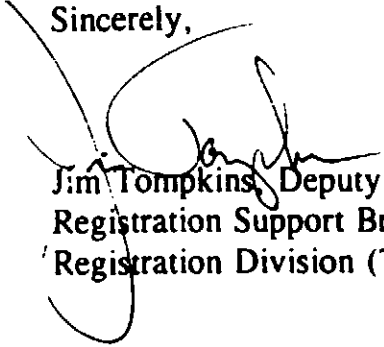

Submit the final printed labeling via the U.S. Postal Service to:

Document Processing Desk (FIN-LABEL)  
Office of Pesticide Programs (7505C)  
U.S. Environmental Protection Agency  
401 M Street, SW  
Washington, D.C. 20460-0001

Hand or courier deliveries of final printed labeling may be made to:

Document Processing Desk (FIN-LABEL)  
Office of Pesticide Programs  
Room 266A, Crystal Mall 2  
1921 Jefferson Davis Highway  
Arlington, VA 22202

Sincerely,

Jim Tompkins, Deputy Chief  
Registration Support Branch  
Registration Division (7505W)

Comment for: EPA Reg Nr.34704-715  
PARASPRAY 6-3.

The following specific comments pertain to your WPS  
labeling submission concerning the product  
cited above:

Correct the typographical errors circled on your proposed  
label.

PROPOSED LABEL

# RESTRICTED USE PESTICIDE

Due to very high acute toxicity to Humans and Birds

For retail sale only to certified commercial aerial applicators or persons under their direct supervision. For use only by certified commercial aerial applicators. Direct supervision for this product is defined as the certified commercial applicator being physically present during mixing, loading, repair and cleaning of application equipment. Certified commercial applicators must also ensure that all persons involved in these activities are informed of the precautionary statements.

# PARASPRAY™ 6-3

## Organophosphate Insecticide

### ACTIVE INGREDIENTS:

|  |        |
|--|--------|
| Parathion (O,O-dimethyl O-p-nitrophenyl phosphorothioate) .....        | 55.3%  |
| Related Compounds .....  | 1.7%   |
| Methyl Parathion (O,O-dimethyl O-p-nitrophenyl phosphorothioate) ..... | 27.8%  |
| Related Compounds .....  | 1.1%   |
| INERT INGREDIENTS: .....   | 14.1%  |
| TOTAL  | 100.0% |

CONTAINS 6 POUNDS PARATHION AND 3 POUNDS METHYL PARATHION PER GALLON

**KEEP OUT OF REACH OF CHILDREN**  
**DANGER POISON**  
**PELIGRO**

See Below For Additional Precautions and Statement of Practical Treatment.

### CAN KILL YOU IF SWALLOWED

This product can kill you if swallowed even in small amounts; spray mist may be fatal if swallowed.

### CAN KILL YOU BY SKIN CONTACT

This product can kill you if touched by hands or spilled or splashed on skin, in eyes or on clothing (liquid goes through clothes).

### CAN KILL YOU IF BREATHED

This product can kill you if vapors or spray mist are breathed.

## PRECAUTIONARY STATEMENTS HAZARDS TO HUMANS & DOMESTIC ANIMALS

# DANGER

POISONOUS if swallowed, inhaled, or absorbed through skin or eyes. Rapidly absorbed through skin by contact with vapors. Do not get in eyes or on skin or clothing.

THIS PRODUCT MAY BE FATAL IF SWALLOWED OR INHALED, OR IF ALLOWED TO CONTACT SKIN. FAILURE TO PROPERLY FOLLOW ALL INSTRUCTIONS FOR PERSONAL PROTECTIVE EQUIPMENT WILL INCREASE YOUR RISK

### Personal Protective Equipment

Mixers and loaders (who must use the closed system described elsewhere on this label) must wear: coveralls, cover, long-sleeved shirt and long pants, waterproof gloves, chemical resistant footwear plus socks, chemical resistant apron, and protective eyewear. (In the closed

### System's description:

Applicators (pilots in enclosed cockpits) must wear: coveralls, long-sleeved shirt and long pants, waterproof gloves, chemical resistant footwear plus socks, chemical resistant apron, and protective eyewear. (In the closed system, the applicator must wear waterproof gloves when entering or exiting the aircraft cockpit and must wear protective eyewear when entering or exiting the cockpit. The applicator must also use and use containers to prevent contamination of the inside of the cockpit. All Other Handlers, including persons who (1) repair, clean, or maintain the parts of mixing, loading, or application equipment that may contain residues, (2) clean up spills, (3) handle open containers, or (4) dispose of this pesticide, must wear: chemical resistant protective suit, waterproof gloves, chemical resistant footwear plus socks, protective eyewear, coveralls, long-sleeved shirt and long pants, waterproof apron, and a respirator with the manufacturer's approved cartridge with a canister approved for pesticides, MSHA/NIOSH approval number prefix "C" 250, or a canister approved for pesticides, MSHA/NIOSH approval number prefix "C" 145.

### User Safety Requirements

#### Users must:

- Provide mechanical exhaust ventilation of product in hand held indoors.
- Second person in cockpit must wear a shirt that have been disinfected or heavily contaminated with this product's concentrate. Do not reuse them.
- Carry respirators and replace cartridges or canisters according to instructions included with the respirators.
- Replace PPE as necessary.
- Keep and wash PPE: coveralls, gloves, footwear, aprons, protective eyewear, and long pants away from other laundry. Wash PPE before or after use, following the manufacturer's instructions. If no such instructions are provided, wash and dry separately from personal clothing.
- Wash face, hands, and clothing before eating, drinking, and before using tobacco or pipe smoking.
- Wash clothing immediately with liquid detergent. Do not wash with baby and children's clothing.
- Remove PPE immediately after use. Do not immediately return to work until the eyes, nose, mouth, and skin are washed with soap and water before removing the apron, gloves, and shoes. Wear only clean clothing when working with this product. Do not use contaminated clothing.
- Use National Pesticide Information Network (NPI) via available for recommendations regarding management, emergency treatment, and other information regarding the toxicity of parathion. For more information call NPI at 1-800-858-7378.
- Repeated exposure to cholinesterase inhibitors such as are contained in this product may, without warning, cause or predispose to very small doses of any cholinesterase inhibitor.
- Persons working with this product should have frequent blood tests of their cholinesterase level. If the cholinesterase level falls below a critical point, no further exposure should be allowed until it has been determined by means of blood tests that the cholinesterase level has returned to normal. Before using this product, consult the Agricultural Extension Service or Experimental Station for specific recommendations regarding such blood tests.

### User Safety Recommendations

#### Precautions:

- Wear eye protection with goggles.
- STOP work and get help right away if you feel sick in any way. See First Aid section for more information on this label. Call a doctor right away if you are hospitalized or hospitalized. Explain that the problem has been exposed to parathion and describe its condition. After first aid is given, see First Aid Treatment Section and if a doctor cannot come, take you to a doctor immediately.
- Wash hands before eating, drinking, chewing gum, using tobacco, or using a telephone.
- Wash clothing immediately with liquid detergent. Do not wash with baby and children's clothing.
- Remove PPE immediately after use. Do not immediately return to work until the eyes, nose, mouth, and skin are washed with soap and water before removing the apron, gloves, and shoes. Wear only clean clothing when working with this product. Do not use contaminated clothing.
- Use National Pesticide Information Network (NPI) via available for recommendations regarding management, emergency treatment, and other information regarding the toxicity of parathion. For more information call NPI at 1-800-858-7378.
- Repeated exposure to cholinesterase inhibitors such as are contained in this product may, without warning, cause or predispose to very small doses of any cholinesterase inhibitor.
- Persons working with this product should have frequent blood tests of their cholinesterase level. If the cholinesterase level falls below a critical point, no further exposure should be allowed until it has been determined by means of blood tests that the cholinesterase level has returned to normal. Before using this product, consult the Agricultural Extension Service or Experimental Station for specific recommendations regarding such blood tests.

BEST AVAILABLE COPY

ACCEPTED with COMMENTS in EPA Letter Dated MAR 24 1984

Under U.S. Federal Insecticide, Fungicide, and Rodenticide Act registered with EPA Reg. No. 34704-715

STATEMENT OF  
+ PRACTICAL TREATMENT +

Call a doctor (physician), clinic or hospital immediately. Explain that the victim has been exposed to parathion and describe his condition.

If Breathing Has Stopped, start artificial respiration immediately and maintain until doctor sees victim.

If Swallowed: Drink 1 or 2 glasses of water and induce vomiting by touching back of throat with finger or blunt object. Do not induce vomiting or give anything by mouth to an unconscious person. Get medical attention.

If in Eyes: Flush eyes with plenty of water. Contact Physician Immediately.

If on Skin: Flush skin with plenty of water. Contact Physician Immediately.

ATROPINE IS AN ANTIDOTE.  
CONSULT PHYSICIAN FOR EMERGENCY SUPPLY.  
If symptoms or signs of poisoning include blurred vision, abdominal cramps, and tightness in the chest, do not wait for a doctor but give two atropine tablets (each 1/100 grain or 0.65 milligrams) at once. (One tablet to children under five years of age.)

NOTE TO PHYSICIAN

Antidote - administer atropine sulfate in large doses. Two to Four mg. intravenously or intramuscularly as soon as cyanosis is overcome. Repeat at 5 to 10 minute intervals until signs of atropinization appear. 2-PAM chloride is also antidotal and may be administered in conjunction with atropine. DO NOT GIVE MORPHINE OR TRANQUILIZERS. Parathion is a strong cholinesterase inhibitor affecting the central and peripheral nervous systems and producing cardiac and respiratory depression. At first sign of pulmonary edema, the patient should be given supplemental oxygen and treated symptomatically. Continued absorption of the poison may occur and fatal relapses have been reported after initial improvement. VERY CLOSE SUPERVISION OF THE PATIENT IS INDICATED FOR AT LEAST 48 HOURS.

ENVIRONMENTAL HAZARDS

This pesticide is highly toxic to fish and wildlife. Birds in treated areas may be killed. For terrestrial uses, do not apply directly to water, or to areas where surface water is present or to intertidal areas below the mean high water mark. Runoff and drift from target areas may be hazardous to aquatic organisms in adjacent aquatic sites. Do not contaminate water when disposing of equipment washwaters.

This product is highly toxic to bees exposed to direct treatment or residues on blooming crops or weeds. Do not apply this product or allow it to drift to blooming crops or weeds if bees are visiting the treatment area.

USAGE CAUTION: DO NOT ALLOW THIS MATERIAL TO DRIFT ONTO NEIGHBORING CROP OR NON-CROP AREAS OR USE IN A MANNER OR AT A TIME OTHER THAN IN ACCORDANCE WITH DIRECTIONS BECAUSE PLANT INJURY, EXCESSIVE RESIDUES OR OTHER UNDESIRABLE RESULTS MAY OCCUR.

PHYSICAL & CHEMICAL HAZARDS

FLAMMABLE, DO NOT USE NEAR HEAT OR OPEN FLAME.  
Do not heat shell or drum or any part of contents above 200 degrees F. because of violent decomposition.

Do not store at below freezing temperatures to avoid crystallization.

DO NOT USE IN UNDILUTED FORM  
DO NOT STORE NEAR FOOD OR FEED PRODUCTS.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

For any requirements specific to your State or to be, consult the agency responsible for pesticide regulation.

Application Restrictions

Aerial Application Only. E75 parathion may only be applied aerially, and only by a certified commercial applicator as defined in 40 CFR 170.101. HUMAN FEEDSTUFFS ARE STRICTLY PROHIBITED DURING AERIAL APPLICATION.

No Spray or Drift On Any Person. Do not apply this product in a way that will contact any person either directly or through drift. During application keep ALL persons out of the treated area plus any area within 100 feet of the treated area, and of any additional area where there is a danger of drift. Keep all livestock and pets away from treated area and where there is danger of drift.

Areas Where Application is Prohibited. Do not apply this product within 100 feet of ponds, public streams or bodies of water. Do not apply within 100 feet of property lines unless the owner of the adjacent property has given prior written consent to the application and has been

informed of the timing of the application and the appropriate entry restrictions.  
Crop Limitations. This product must not be applied to any crop other than alfalfa, barley, corn, cotton, sorghum, soybeans, sunflower, and wheat. Any treated crop must be harvested only by mechanical means. Hand harvesting of treated crops is prohibited.  
Chemigation Prohibited. Do not apply this product through any type of irrigation system.  
Drift Reduction Measures: Do not apply this product if the wind exceeds 10 miles per hour. Apply only from nozzles located not more than 1/2 mile of the distance from the center of the aircraft to the windward or leeward direction.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Agricultural Use Requirements of 40 CFR 170.101. This Standard contains the following requirements for the use of this pesticide in agricultural settings:  
1. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
2. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
3. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
4. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
5. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
6. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
7. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
8. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
9. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
10. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
11. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
12. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
13. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
14. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
15. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
16. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
17. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
18. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
19. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
20. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
21. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
22. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
23. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
24. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
25. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
26. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
27. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
28. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
29. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
30. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.  
31. The pesticide must be applied in accordance with the labeling on the pesticide container and the Agricultural Use Requirements of 40 CFR 170.101.

must meet the quality and temperature of criteria set for decontaminating non water in 9) above.

(12) Each person must wash thoroughly after removing PPE.

(13) Personal protective equipment worn during early entry must not be worn home. No person other than owners of the farm and members of the immediate family may take home, before it is cleaned, PPE worn during early entry.

**Personal Protective Equipment for Early Entry:** PPE required for early entry to treated areas that is permitted on this label is: Coveralls over long sleeved shirt and long pants, waterproof gloves, chemical resistant footwear, protective footwear and chemical resistant headgear for overhead exposure.

**Notification About Applications and Entry Restrictions**

When a pesticide is applied to a farm, the owner or operator of the farm must be notified in writing of the application by a warning label on the container. The label must be placed in a conspicuous place on the container. The label must be written in English and must be written in Spanish if the pesticide is to be used in California. The label must be written in the language of the state in which the pesticide is to be used. The label must be written in the language of the state in which the pesticide is to be used. The label must be written in the language of the state in which the pesticide is to be used.

**Notification to Farm Owner/Operator**

A certified applicator must not apply this parathion product on a farm or other premises unless the owner of the farm or person responsible for managing the farm has the following information in writing: (1) specific location and description of the area to be treated; (2) time and date of application; (3) product name, EPA registration number, and active ingredients; (4) the entry restrictions including the restricted entry interval; (5) the requirement for caution or warning to workers and posting of treated areas; (6) the requirement that direct treated area parathion be handled with care; and (7) the prohibition on hand harvesting; (8) the independent requirements set forth on this label; and (9) any other labeling requirements concerning the protection of workers or other persons during or after application. This requirement is satisfied if the owner/operator of the farm has a copy of this labeling.

**STORAGE AND DISPOSAL**

**PROHIBITIONS:** Do not contaminate water, food, or feed by storage or disposal. Open dumping is prohibited. Do not reuse empty container. Do not store under conditions which might adversely affect the container or its ability to function properly.

**STORAGE:** Do not store below temperature of 32°F. Store in safe manner. Store in original container only. Keep container tightly closed when not in use. Reduce stacking height where local conditions can affect package strength. Personnel must wear the personal protective equipment specified for "Other Handlers" listed in the Hazards to Humans section of this label when handling open containers or clean-up spills.

**SPILLED MATERIAL:** Block or dike to prevent spreading of spill. Cover with absorbent material such as lime, clay or sawdust. Scoop and sweep into a disposable container. Wash area with strong lye solution, absorb and place into a disposable container.

**PESTICIDE DISPOSAL:** Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance.

**CONTAINER DISPOSAL:** Triple rinse (or equivalent). Then offer for recycling or reconditioning, or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Add the concentrate to the spray tank while filling with water, and mix thoroughly either by means of a tank agitator or pump by-pass. For best results, thoroughly cover all surfaces to be treated with spray. Rates of application given below should not be exceeded.

For application add the desired amount of concentrate per acre to 1 to 3 gallons of water.

**PROTECTION OF APPLICATORS AND MIXER-LOADERS**

**Applicator Protection:** The cockpit of the aircraft used to apply this product must be fully enclosed while this product is being applied. No pilot may apply this product if the pilot has earlier during the day of application performed any mixing-loading activities (other than acting as an observer) involving any pesticide product containing parathion. Human taggers are prohibited.

**Mixer/Loader Protection:** An observer must be present during all mixing-loading activities in order to furnish assistance in the event of an accident. The observer must not act as a mixer/loader and need not wear personal protective equipment.

This product must be mixed and loaded in a closed system, as described

**BELOW**

The liquid product must be removed from its original shipping container and transferred through connecting hoses, pipes, and/or couplings that are sufficiently tight to prevent handlers or other persons from contacting the parathion concentrate, use dilution, or rinsate solution.

All hoses, piping, tanks, and connections used in the system shall be of a type appropriate for the product being used and the pressure and vacuum levels involved. The system shall be designed and operated so that the concentrated form of this product is not under more than 25 psi of pressure at any point in the system beyond or downstream from a pump producing positive pressure. The closed system must be adequate to make necessary measurements of the product being used. External sight gauges shall be equipped with valves so that the flow of pesticide to the sight gauge can be shut off in case of breakage or leakage from the gauge.

Dry-break couplings shall be used for all hose connections that may be disconnected during normal mixing-loading operations (excluding periodic maintenance). A coupling shall be considered to be a dry-break coupling only if its manufacturer certifies that less than 2 milliliters of liquid will escape per disconnect.

In mixing-loading operations do not pour this product from its container. Before opening the container, make sure that the container is resting securely on the ground or a sturdy support, with the top (opening) end up and approximately level.

Remove the product from the container only by use of a vacuum-producing pump system connected to a probe system that is listed by the State of California under that State's program establishing criteria for closed-system handling of Toxicity Category I pesticides. If you have any questions please contact the State Agricultural Extension Service for further information.

The probe system shall be screwed into the threaded opening in the top of the container to form a watertight connection, using appropriate adaptors provided by the probe manufacturer as necessary. The instructions provided by the seller of the probe system shall be followed, except that a removable probe may not be removed from the container until the container is empty and the container and probe have been thoroughly rinsed as required by this section.

The closed system must provide for adequate rinsing of any removable probe and of all containers that are not labeled for return to the registrant. Rinsing must be done using a liquid that contains no pesticide. The rinsing system must be capable of spray-rinsing the inner surface of the container. The rinse solution shall be removed from the pesticide container concurrent with the introduction of the rinse medium. The rinse solution shall go into the pesticide mix tank or applicator vehicle via the closed system.

The system shall be rinsed according to the specifications of the manufacturer of the probe system, or, in the absence of such specifications, by moving at least one half the container volume through the system. A minimum pressure of 15 psi shall be used for the spray rinse. Measures shall be taken to prevent the spray rinse procedure from causing an increase in pressure on the inside of the container walls of more than 5 psi.

Either the operator of the closed system must have available at the time of operation a complete set of written instructions for proper operation of the system, or the certified applicator must document in writing before an operator uses the closed system that the operator has been adequately trained in the proper operation of the system.

**INCIDENT REPORTING.** A telephone notification must be made if mixing, loading, or use of a product containing parathion results in (1) inadvertent or unexpected human exposure to the product or illness resulting from exposure to the product, (2) spill of the product, (3) an investigation by Federal, State, or local authorities of allegations involving drift of the product, or (4) the deaths of birds or other wildlife. The certified applicator or the owner of the treated land must notify by telephone the Chief, Compliance Branch, Office of Compliance Monitoring, USEPA, at (202) 260-3375 within seven days of becoming aware of the incident.

**CROP USE DIRECTIONS**

| CROP    | PESTS  | PINTS/ACRE | RESTRICTIONS   |
|---------|--|------------|--|
| Alfalfa | Aphids, Alfalfa Weevil and adults, Alfalfa Caterpillars, Armyworms, Climbing Cutworms & Grasshoppers | 1/4-2/3    | Do not apply to alfalfa if the crop or weeds in the treatment area are in bloom. California and Nevada regulations limit the use of this material to not more than 1/3 pint per acre. Do not apply within 15 days of harvest, pasturing, cutting or forage use |

| Sunflowers | Sunflower Seed Weevil, Sunflower Moth, Sunflower Maggot, Sunflower Stem Weevil, Grasshopper | 7/a        | Do not apply more than 3 times at 5-day intervals per season. Do not apply within 30 days of harvesting, pasturing, cutting or foraging. |

**NOTICE**

PLATTE WARRANTS THAT THIS PRODUCT CONFORMS TO THE CHEMICAL DESCRIPTION ON THE LABEL THEREOF AND IS REASONABLY FIT FOR THE PURPOSES STATED ON SUCH LABEL ONLY WHEN USED IN ACCORDANCE WITH THE DIRECTIONS UNDER NORMAL USE CONDITIONS. IT IS IMPOSSIBLE TO ELIMINATE ALL RISKS INHERENTLY ASSOCIATED WITH THE USE OF THIS PRODUCT. CROP INJURY, INEFFECTIVENESS, OR OTHER UNINTENDED CONSEQUENCES MAY RESULT BECAUSE OF SUCH FACTORS AS WEATHER CONDITIONS, PRESENCE OF OTHER MATERIALS, OR THE MANNER OF USE OR APPLICATION, ALL OF WHICH ARE BEYOND THE CONTROL OF PLATTE. IN NO CASE SHALL PLATTE BE LIABLE FOR CONSEQUENTIAL, SPECIAL OR INDIRECT DAMAGES RESULTING FROM THE USE OR HANDLING OF THIS PRODUCT. ALL SUCH RISKS SHALL BE ASSUMED BY THE BUYER. EXCEPT AS EXPRESSLY PROVIDED HEREIN, PLATTE MAKES NO WARRANTIES, GUARANTEES, OR REPRESENTATIONS OF ANY KIND, EITHER EXPRESSED OR IMPLIED, OR BY USAGE OF TRADE, STATUTORY OR OTHERWISE, WITH REGARD TO THE PRODUCT SOLD, INCLUDING, BUT NOT LIMITED TO, MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, USE OR ELIGIBILITY OF THE PRODUCT FOR ANY PARTICULAR TRADE USAGE.
