**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS & DOMESTIC ANIMALS**

CAUTION

Harmful if swallowed. Avoid breathing dust. Do not allow contact with eyes or skin.

STATEMENT OF PRACTICAL TREATMENT

If Swallowed: Induce vomiting by drinking water and touching back of throat with finger. Do not induce vomiting or give anything by mouth to an unconscious person.

If Inhaled: Remove victim to fresh air. If abnormal symptoms develop, contact a physician.

If on Skin: Wash affected area with plenty of soap and water.

If in Eyes: Flush with plenty of water. Get medical attention if irritation persists.

ENVIRONMENTAL HAZARDS

Do not apply directly to water or wetlands (swamps, bogs, marshes and potholes). Do not contaminate water when disposing of equipment washwaters. Cover, collect, or incorporate granules spilled on the soil surface.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

STORAGE & DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a dry location. Do not store with propagative structures such as seed, bulbs, tubers, nursery stock, etc., or with food or feed products.

Pesticide Disposal: Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility.

Container Disposal: Completely empty bag into application equipment. Then dispose of empty bag in a sanitary landfill or by incineration, or if allowed by State and local authorities, by burning. If burned, stay out of smoke.

WORKER SAFETY RULES

IMPORTANT! Always wash hands, face and arms with soap and water before smoking, eating, drinking or toileting.

Keep all unprotected persons, children, livestock and pets away from treated area or where there is a danger of drift.

Do not rub eyes or mouth with hands. If you feel sick in any way, STOP work and get help right away. See "Statement of Practical Treatment".

BEFORE APPLICATION

Remove existing weeds.

Thoroughly work and smooth the area to be treated.

(BACK PANEL CONT'D)

Carefully measure area to be treated and determine the number of square feet.

NOTE: If area to be treated is large, it should be divided into smaller sections, and each treated individually.

APPLICATION AND RATE

Shake DICHLOBENIL 2G uniformly on the soil at the rate of 3/4 ounce (2 level tablespoons) for each 10 sq.ft. to be treated (i.e. 20 oz. treats 270 sq.ft.). Rates higher than those indicated may cause injury.

More accurate and uniform application can be obtained by applying one-half of the required material over the entire treatment area and repeating the application with the remaining material. DICHLOBENIL 2G should not be used on sloping areas as run-off may result in injury to lawn or other plants in adjacent areas.

As a guide for proper application rate and uniformity of distribution of the granules, consult the following diagram.

AFTER APPLICATION

Unless the soil is wet, sprinkle lightly to moisten the soil 1/4 to 1/2 inch deep. Do not flood; avoid puddling and washing.

Avoid disturbing soil in the treated area as long as weed control is being maintained.

USE PRECAUTION

Use only on the ornamental plants listed on the label. Do not apply to transplant or cutting beds or to newly set transplants, and do not seed or transplant into treated areas. Do not use in greenhouses. Do not use on extremely light sand soils. Do not use on plants, and part of which is used for human or animal consumption.

WEEDS CONTROLLED

DICHLOBENIL 2G when applied to the soil as directed will give selective control of annual grassy and broadleaved weeds and certain perennial weeds such as:
