KLEENUP®

SYSTEMIC WEED & GRASS KILLER

FOR GENERAL WEED CONTROL
KILLS WEEDS — ROOTS AND ALL
KILLS IN 2 TO 4 WEEKS
BIODEGRADABLE

CONTAINS WETTING AGENT FOR ADDED VALUE
CONCENTRATE MAKES UP TO 24 GALLONS SPRAY

- Contains the Same Active Ingredient as Roundup®. Roundup is a Trademark of Monsanto Co.
- New! Contains Blazon® Spray Indicator (Marker)(Biodegradable Dye)
- With Blue Marker to Show Where You Have Sprayed
- 25% More Free—5 Quarts for the 1 Gallon Price
- No Odor
- Water Based Formula
- New! Improved Formula
- Is Not Active in the Soil
- Multi-purpose Grass & Broadleaf Weed Control
- Use to Prepare Site for Planting Fruit Trees, Ornamentals and Vegetables
- Can Be Applied With a Tank Sprayer, Sprinkling Can, or Hose-End Applicator
- Makes XX Gallons of Spray
- Concentrated for Extra Value
- Treats up to XX Sq. Ft.
- Use for Lawn Renovations
- Can Reseed Lawn 7 Days After Treatment
- Lawns & Gardens Can Be Reseeded Soon After Treatment
- No Extra Chemical Used Like Kleeraway™ Concentrated Weed & Grass Killer or Roundup®
- 50% Less Chemical Required to Kill Weeds than Kleeraway™ Concentrate or Roundup®
- Makes the Same Amount of Spray as Kleeraway™ or Roundup® Without the Extra Wasted Active Ingredient
- Makes the Same Amount of Spray as Kleeraway™ Concentrated Weed & Grass Killer or Roundup®

ACTIVE INGREDIENT:

Isopropylamine salt of *glyphosate 5.0%
INERT INGREDIENTS 95.0%

TOTAL 100.0%

*N-(phosphonomethyl)glycine

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION: Avoid contact with eyes. In case of contact, immediately flush

eyes with plenty of fresh water for 15 minutes. Get medical attention if irritation persists. Keep children and pets off treated areas until spray has dried. Avoid contamination of food.

FOR CHEMICAL EMERGENCY, SPILL, LEAK, FIRE, EXPOSURE OR ACCIDENT, CALL CHEMTREC - DAY OR NIGHT 1-800-424-9300.

ENVIRONMENTAL HAZARDS

Do not apply directly to water. Do not contaminate water when disposing of equipment washwaters.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

READ ENTIRE LABEL. USE STRICTLY IN ACCORDANCE WITH LABEL PRECAUTIONARY STATEMENTS AND DIRECTIONS.

STORAGE AND DISPOSAL

STORAGE: Keep pesticide in original container. Do not put concentrate or dilute into food or drink containers. Avoid contamination of feed and foodstuffs. Store in a cool, dry place, preferably in a locked storage area. Do not store diluted spray.

DISPOSAL: PRODUCT: Partially filled bottle may be disposed of by securely wrapping original container in several layers of newspaper and discard in trash. **CONTAINER:** Do not reuse empty bottle. Rinse thoroughly before discarding in trash.

What is this product and what will it do?

Kleenup Systemic Weed & Grass Killer is a weed killer that kills all vegetation contacted. It moves throughout the weed, killing roots and all. Gives complete kill of tough weeds in flower beds, around trees, shrubs, walks, driveways, and mulch, and for spot treatment in lawns. It can be used to prepare sites for planting fruit trees, ornamentals and vegetables.

What will I see?

Weeds will show browning, yellowing, and wilting usually within 5-7 days with complete browning and kill in 2-4 weeks.

(Kleenup contains a blue marker that allows you to see treated weeds. The marker is non-staining and will fade away with exposure to sunlight and water.) (If marker contacts skin or clothing, it is easily removed by washing with soap and water.)

CONTROLS:

Bahiagrass	Evening Primrose	Pennycress
Bentgrass	False Dandelion	Perennial Ryegrass
Bermudagrass	Fennel	Poison Ivy
Bindweed	Fescue	Poison Oak
(Wild Morning Glory)	Fiddleneck	Primrose
Blackberries	Filaree	Prostrate Spurge
Black Medic	Florida Pusley	Puncture Vine
Bluegrass	Garden Spurge	Quackgrass
Blue Toadflax	Henbit	Ragweed
Brassbuttons	Johnsongrass	Sandspur
Broadleaf Plantain	Knotweed	Shepherd's Purse
Bromegrass	Lambsquarters	Smooth Cat's Ear
Bur Clover	Little Bitter Cress	Sowthistle
Canada Thistle	London Rocket	Spotted Spurge
Chickweed	Maiden Cane	St. Augustinegrass
Common Groundsel	Mallow	Tall Fescue

Creeping Beggarweed	Nimblewill	White Clover
Creeping Bentgrass	Oldenlandia	Whiteweed
Creeping Charlie	Orchardgrass	Wild Barley
Curly Dock	Oxalis	Yellow Nutgrass
Dandelion	Pennsylvania	Zoysia
Diffuse Lovegrass	Smartweed	
Dog Fennel		

KLEENUP® SYSTEMIC WEED & GRASS KILLER

EPA REG. NO. 34704-XXX

WHEN TO APPLY

Apply any time that vegetation is actively growing. Warm, sunny weather will accelerate weed control. Heavy lawn grass or difficult to control weeds, such as Bermudagrass, nimblewill, dandelion or Canada thistle may require a repeat application.

For best results, apply on a sunny day when daytime temperature is at least 60°F. Avoid application when wind may cause spray mist to drift from target area.

HOW TO APPLY

GENERAL WEED & GRASS CONTROL: To apply with a plastic, aluminum or stainless steel tank type sprayer, mix 8 fluid ounces (1 cup) of KLEENUP® Systemic Weed And Grass Killer per 1 to 1½ gallons of water and spray to wet undesirable vegetation. NOTE: We do not recommend a galvanized or unlined steel sprayer. Never store unused spray. Rinse sprayer used.

To apply with an ORTHO® Lawn & Garden Sprayer (foliage setting) or ORTHO® SPRAY-ETTE® Hose-End Sprayers, add amount of product indicated to the sprayer jar and apply to specified areas. Do not add water to jar. For other brands of hose sprayers follow manufacturers directions to mix 8 fluid ounces of this product per 1 to 1½ gallons of sprayer output.

DILUTION TABLE

Amount of KLEENUP® Systemic Weed And Grass Killer to Use	Water to Use	Area to Treat
8 fl. oz. (1 cup)	1-1½ gallons	250 sq. ft.
1 pint	2-3 gallons	500 sq. ft.
1 quart	4-6 gallons	1,000 sq. ft.

IMPORTANT

For spot treating in lawns and around trees and shrubs, a tank type sprayer is recommended. Spray carefully. Avoid spray or drift contact with desirable lawn grasses, shrubs or trees.

If accidental drift contacts desirable foliage, wash off immediately with water. Do not apply when rainfall is expected within 24 hours of application as weed control will be reduced.

WHERE TO APPLY

General Weed Control: Apply this product to control undesirable plants growing in fences, around physical ornaments, buildings, tool sheds or other areas where control is desired.

Landscaping: Apply this product to control undesirable weeds or grasses growing in areas where plantings of ornamentals, trees, shrubs, desert landscapes, rock gardens, flower beds or similar plantings will be made.

Ornamentals: Apply this product to control undesirable plants growing around ornamentals, trees or shrubs. Spray contact other than with mature bark of desirable plants may cause injury.

Lawns: This product may be applied to control undesirable weeds growing in lawns. Spot treating undesirable weeds in a lawn will cause a dead spot until sufficient growth occurs to close the areas. Larger spots will require reseeding to provide complete grass cover and help protect reinfestation by undesirable plants. If dead spots are unacceptable, use a lawn weed killer that does not affect grasses.

Use to eliminate old, undesirable, or weed infested lawns or to change to a more desirable grass type. For best results, skip at least one mowing prior to spraying. Delay reseeding, tilling, or sodding for 7 days after spraying.

For Vegetables, Small Fruits, and Berries: The following vegetables, small fruits and berries may be planted (by seed, rooted cuttings or transplants) 7 days after spraying. For unlisted vegetables, small fruits and berries, wait 30 days after spraying to plant.

Vegetables: Jerusalem artichoke, asparagus, beans, beet greens, broccoli, Brussels sprouts, cabbage, cantaloupe, carrot cauliflower, casaba melon, celery, chard (Swiss), chicory, collards, corn, crenshaw melon, cucumber, eggplant, endive, garlic, gourds, ground cherry, honeydew melon, honey ball melon, horseradish, kale, kohlrabi, leek, lentils, lettuce, mango melon, melons, muskmelon, mustard greens, okra, onion, rapé greens, rhubarb, rutabaga, spinach, squash (summer, winter), tomatillo, tomato*, turnip, watercress, watermelon, and yams.

*Tomatoes planted from seed only. Wait 30 days for rooted transplants.

SMALL FRUITS AND BERRIES: Blackberry, blueberry, boysenberry, cranberry, currant, dewberry, elderberry, gooseberry, huckleberry, loganberry, olatieberry, raspberry (black & red), and strawberry.

3043
TO PREPARE READY-TO-USE SPRAY SOLUTION: Add 1 part of KLEENUP® Systemic Weed And Grass Killer and 9 parts of clear tap water to make a 0.5% spray solution. Example: 2 oz. of product plus 18 oz. of water. Follow label use directions on this label.
