

 <p align="center">U.S. ENVIRONMENTAL PROTECTION AGENCY</p> <p align="center">Office of Pesticide Programs Registration Division (7505P) Ariel Rios Building 1200 Pennsylvania Ave., NW Washington, D.C. 20460</p> <p>NOTICE OF PESTICIDE: <input type="checkbox"/> Registration <input checked="" type="checkbox"/> Reregistration (under FIFRA, as amended)</p>	EPA Reg. Number: 34704-928	Date of Issuance: 1 JUL 2008
	Term of Issuance:	
	Name of Pesticide Product: Chaser Turf Herbicide	
Name and Address of Registrant (include ZIP Code): Loveland Products Inc. P.O. Box 1286 Greeley, CO 80632-1286		
<p>Note: Changes in labeling differing in substance from that accepted in connection with this registration must be submitted to and accepted by the Registration Division prior to use of the label in commerce. In any correspondence on this product always refer to the above EPA registration number.</p> <p>On the basis of information furnished by the registrant, the above named pesticide is hereby registered/reregistered under the Federal Insecticide, Fungicide and Rodenticide Act. Registration is in no way to be construed as an endorsement or recommendation of this product by the Agency. In order to protect health and the environment, the Administrator, on his motion, may at any time suspend or cancel the registration of a pesticide in accordance with the Act. The acceptance of any name in connection with the registration of a product under this Act is not to be construed as giving the registrant a right to exclusive use of the name or to its use if it has been covered by others.</p> <p>This product is reregistered in accordance with FIFRA sec. 4(g)(2)(C) provided that you:</p> <ol style="list-style-type: none"> 1. Submit and/or cite all data required for registration/reregistration review of your product when the Agency requires all registrants of similar products to submit data. 2. To the label add "Use of this product in certain portions of California, Oregon, and Washington is subject to the January 22, 2004 Order for injunctive relief in <u>Washington Toxics Coalition, et al. v. EPA</u>, C01-0132C, (W.D. WA). For further information, please refer to http://www.epa.gov/espp/wtc/". 		
Signature of Approving Official: <i>Joanne I. Miller</i> Joanne I. Miller Product Manager 23 Herbicide Branch Registration Division (7505P)	Date: 1 JUL 2008	

3. A Note to Physician must be added to the label and must read: "Note to Physician May pose an aspiration pneumonia hazard. Contains petroleum distillate."
4. The appropriate chemical resistant material should be add to the text appearing in the handler PPE section "Some materials that are chemical-resistant to this product are XXXX."
5. The following revisions are needed to the Engineering Control section:
 - The mechanical transfer engineering control text is no longer needed and may be deleted from the label.
 - It is unclear whether aerial application is prohibited only in Arizona or in all states. The label should be clarified. If aerial application is prohibited in all states, all reference to aerial application including mention of "flaggers" and "pilots" must be deleted from the label. Otherwise, the following text must be added to the label: "Pilots must use an enclosed cockpit that meets the requirements listed in the WPS for agricultural pesticides [40CFR 170.240 (d)(6)]."
6. The User Safety Requirements and User Safety Recommendations are acceptable but the User Safety Requirements statements must be removed from the User Safety Recommendation box.
7. The text "except as noted on appropriate labels" should be removed from the Environmental Hazard section of the label.
8. Per the product chemistry review, the physical or chemical hazards text must be revised to read "Combustible. Do not use or store the product near heat or open flame."
9. The early-entry PPE must be revised to read: "Coveralls, Chemical-resistant gloves made of any waterproof material, and Shoes plus socks."
10. The following revisions are needed to the spray drift section:
 - Reference to chemigation appearing in the first sentence of the Spray Drift Management section should be deleted because this label states "Do not apply this product through any type of irrigation system."
 - If aerial application is allowed, the spray drift text below is required. If this product is not intended to be applied by air any reference to aerially application must be deleted from the spray drift section.
 - "Release spray at the lowest height consistent with efficacy and flight safety. Do not release spray at a height greater than 10 feet above the crop canopy unless a greater height is required for aircraft safety. This requirement does not apply to forestry or rights-of-way applications.
 - When applications are made with a crosswind, the swath will be displaced downwind. The applicator must compensate for this by adjusting the path of the aircraft upwind."
 - If this product is applied by ground boom add the following:
 - "For ground boom application: "Do not apply with a nozzle height greater than 4 feet above the crop canopy."
 - Add the following:
 - "2,-4-D esters may volatilize during conditions of low humidity and high temperatures. Do not apply during conditions of low humidity and high temperatures."
11. The following typographical errors must be corrected. Revisions are noted in bold type below:

"...CHASER TURF HERBICIDE at 3 pints per acre (.75 lb ae) or 1.1 ounce per 1,000 square feet will provide control..."

“...Use a maximum of 6 pints of CHASER TURF HERBICIDE (1.5 lbs ae) **per acre** per application...”.

12. The text “A maximum of 2 quarts of CHASER TURF HERBICIDE per acre may be applied up to four times a year to control a variety of broadleaf weed species which may germinate at different periods” appearing in the sod farm use directions conflicts with the RED-required text “Limited to 2 applications per year.” The label must be revised.

Submit one copy of the revised final printed label for the record. If these conditions are not complied with, the registration will be subject to cancellation in accordance with FIFRA sec. 6(e). Your release for shipment of the product constitutes acceptance of these conditions. A stamped copy of the label is enclosed for your records. If you have any questions call Erik Kraft at 703-308-9358 or email at Kraft.Erik@epa.gov.

Chaser® Turf Herbicide

ACCEPTED
with COMMENTS
In EPA Letter Dated:
-1 JUL 2008

Under the Federal Insecticide,
Fungicide, and Rodenticide Act
as amended, for the pesticide
registered under EPA Reg. No.

34704-928

ACTIVE INGREDIENT(S):

2,4-dichlorophenoxyacetic acid, butoxyethyl ester †	34.4%
triclopyr BEE: 3,5,6-trichloro-2-pyridinyloxyacetic acid, butoxyethyl ester	16.5%
INERT INGREDIENT(S):	49.1%
TOTAL	100.0%

Acid Equivalents:

2,4-dichlorophenoxyacetic acid - 23.7% - 2 lb./gal.
triclopyr - 11.9% - 1 lb./gal.
† Isomer Specific by AOAC Method No. 978.05 (15th Ed.)
Contains Petroleum Distillates

To be applied only under the direct supervision of Commercial applicators responsible for turf weed control programs.

Low Volatile Weed Killer
For the control of annual and perennial broadleaf weeds in residential, commercial, and recreational turf and commercial sod.

KEEP OUT OF REACH OF CHILDREN CAUTION PRECAUCION

Si usted no entiende la etiqueta, busque a alguien para que se la explique a usted en detalle. (If you do not understand this label, find someone to explain it to you in detail.)

See Below For Additional Precautionary Statements

FIRST AID

If swallowed:	<ul style="list-style-type: none"> • Immediately call a poison control center or doctor. • Do not induce vomiting unless told to do so by a poison control center or doctor. • Do not give any liquid to the person. • Do not give anything by mouth to an unconscious person.
---------------	--

Have the product container or label with you when calling a poison control center or doctor, or going for treatment.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS

CAUTION: Harmful If Swallowed • Prolonged Or Frequently Repeated Skin Contact May Cause Allergic Skin Reactions In Some Individuals

Personal Protective Equipment (PPE)

Some materials that are chemical-resistant to this product are listed below. If you want more options, follow the instructions for category E on an EPA chemical resistance category selections chart.

All mixers, loaders, applicators, flaggers, and other handlers must wear: Long-sleeved shirt and long pants, shoes and socks, plus chemical resistant gloves, when applying with any handheld nozzle or equipment, mixing or loading, cleaning up spills or equipment, or otherwise exposed to the concentrate. Chemical resistant apron when mixing or loading, cleaning up spills or equipment, or otherwise exposed to the concentrate and protective eyewear.

See engineering controls for additional requirements.

Engineering Controls:

For containers of over 1 gallon, but less than 5 gallons: Mixers and loaders who do not use a mechanical system (such as probe and pump) to transfer the contents of this container must wear coveralls or a chemical-resistant apron in addition to other required PPE.

For containers of 5 gallons or more: A mechanical system (such as probe and pump) must be used for transferring the contents of this container. If the contents of a non-refillable pesticide container are emptied, the probe must be rinsed before removal. If the mechanical system is used in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240 (d) (4)], the handler PPE requirements may be reduced or modified as specified in the WPS.

When handlers use enclosed cabs or aircraft in a manner that meets the requirements listed in the Worker Protection Standard (WPS) for agricultural pesticides [40 CFR 170.240 (d) (4-6)], the handler PPE requirements may be reduced or modified as specified in the WPS.

USER SAFETY RECOMMENDATIONS

Users should:

- Wash hands before eating, drinking, chewing gum, using tobacco, or using the toilet.
- Remove clothing/PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing. If pesticide gets on skin, wash immediately with soap and water.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.
- Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry.

ENVIRONMENTAL HAZARDS

This pesticide may be toxic to fish and aquatic invertebrates. Do not apply directly to water, to areas where surface water is present, or to intertidal areas below the mean high water mark except as noted on appropriate labels. Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas. Do not contaminate water when disposing of equipment wash waters or rinsate.

This chemical has properties and characteristics associated with chemicals detected in groundwater. The use of this chemical in areas where soils are permeable, particularly where the water table is shallow, may result in groundwater contamination. Application around a cistern or well may result in contamination of drinking water or groundwater.

Notice: Read the entire label. Use only according to label directions. Before using this product, read Warranty Disclaimer, Inherent Risks of Use, and Limitation of Remedies at end of label booklet. If terms are unacceptable, return at once unopened.

PHYSICAL OR CHEMICAL HAZARDS

Do not use or store near heat or open flame.

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling.

Read all Directions for Use carefully before applying.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your state or tribe, consult the agency responsible for pesticide regulation.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses, and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water, is: Coveralls, chemical-resistant gloves such as Barrier Laminata, Nitrile Rubber, Neoprene, Rubber or Viton, shoes plus socks and protective eyewear.

5/6

CHASER® TURF HERBICIDE

EPA REG. NO. 34704-928

NON-AGRICULTURAL USE REQUIREMENTS

The requirements in this box apply to uses of this product that are NOT within the scope of the Worker Protection Standard for agricultural pesticides (40 CFR Part 170). The WPS applies when this product is used to produce agricultural plants on farms, forests, nurseries, or greenhouses.

Restricted Entry Interval: For use on residential and other turf sites (excluding sod farms and turf grown for seed), do not enter or allow people (or pets) to enter the treated area until sprays have dried.

STORAGE AND DISPOSAL

Do not contaminate water, food, or feed by storage or disposal.

PESTICIDE STORAGE: Store above 10°F or agitate before use.

PESTICIDE DISPOSAL: Pesticide wastes are toxic. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of federal law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste Representative at the nearest EPA Regional Office for guidance.

CONTAINER DISPOSAL: Nonrefillable container. Do not reuse or refill this container. Offer for recycling, if available. Triple rinse or pressure rinse container.

Triple rinse as follows: Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container ¼ full with water and recap. Shake for 10 seconds. Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times.

Pressure rinse as follows: Empty the remaining contents into application equipment or a mix tank and continue to drain for 10 seconds after the flow begins to drip. Hold container upside down over application equipment or mix tank or collect rinsate for later use or disposal. Insert pressure rinsing nozzle in the side of the container, and rinse at about 40 PSI for at least 30 seconds. Drain for 10 seconds after the flow begins to drip.

For help with any spill, leak, fire or exposure involving this material, call day or night CHEMTREC - 1-800-424-9300.

GENERAL INFORMATION

Foliage sprays should be applied during warm weather when weeds are actively growing. Application under drought conditions may provide less than desirable results. Use low spray pressures to minimize spray drift. **Apply this herbicide in a manner to avoid contacting nearby susceptible crops or other desirable plants and to avoid contaminating water intended for irrigation or domestic use. Read and follow all Use Precautions given on this label.**

GENERAL PRECAUTIONS and RESTRICTIONS

Apply this product only as specified on this label.

Be sure that use of this product conforms to all applicable regulations.

In Arizona: The state of Arizona has not approved CHASER TURF HERBICIDE for use on sod farms.

For ground application only.

Chemigation: Do not apply this product through any type of irrigation system.

Do not enter or allow people (or pets) to enter the treated area until sprays have dried.

Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application.

Do not apply CHASER TURF HERBICIDE directly to, or otherwise permit it to come into direct contact with cotton, grapes, tobacco, vegetable crops, flowers, fruit or ornamental trees, or other desirable broadleaf plants and do not permit spray mists containing it to drift onto them.

Do not apply to exposed roots of shallow rooted trees or shrubs.

CHASER TURF HERBICIDE is formulated as a low volatile ester. However, the combination of spray contact with impervious surfaces, such as roads and rocks, and increasing ambient air temperatures, may result in an increase in the volatility potential for this herbicide, increasing a risk for off-target injury to sensitive crops such as grapes and tomatoes.

In handgun applications, drift can be reduced by using low pressure Teejet® flat fan, raindrop, or other drift controlling nozzles. Standard flat fan nozzles may also be used at no more than 20 psi. At this pressure, the spray pattern may be narrower.

At high temperatures, vapors from this product may injure susceptible crops growing nearby. Excessive amounts of this herbicide in the soil may temporarily inhibit seed germination and plant growth.

Most cases of groundwater contamination involving phenoxy herbicides such as 2,4-D have been associated with mixing/loading and disposal sites. Caution should be exercised when handling 2,4-D pesticides at such sites to prevent contamination of groundwater supplies. Use of closed systems for mixing or transferring this pesticide will reduce the probability of spills. Placement of the mixing/loading equipment on an impervious pad to contain spills will help prevent groundwater contamination.

SPRAY DRIFT MANAGEMENT

A variety of factors including weather conditions (e.g., wind direction, wind speed, temperature, relative humidity) and method of application (e.g., ground, aerial, airblast, chemigation) can influence pesticide drift. The applicator must evaluate all factors and make appropriate adjustments when applying this product.

Droplet Size

When applying sprays that contain 2,4-D as the sole active ingredient, or when applying sprays that contain 2,4-D mixed with active ingredients that require a Coarse or coarser spray, apply only as a Coarse or coarser spray (ASAE standard 572) or a volume mean diameter of 385 microns or greater for spinning atomizer nozzles.

When applying sprays that contain 2,4-D mixed with other active ingredients that require a Medium or more fine spray, apply only as a Medium or coarser spray (ASAE standard 572) or a volume mean diameter of 300 microns or greater for spinning atomizer nozzles.

Wind Speed

Do not apply at wind speeds greater than 15 mph. Only apply this product if the wind direction favors on-target deposition and there are not sensitive areas (including, but not limited to, residential areas, bodies of water, known habitat for nontarget species, nontarget crops) within 250 feet downwind. If applying a Medium spray, leave one swath unsprayed at the downwind edge of the treated field.

Temperature Inversions

If applying at wind speeds less than 3 mph, the applicator must determine if: a) conditions of temperature inversion exist, or b) stable atmospheric conditions exist at or below nozzle height. Do not make applications into areas of temperature inversions or stable atmospheric conditions.

Susceptible Plants

Do not apply under circumstances where spray drift may occur to food, forage, or other plantings that might be damaged or crops thereof rendered unfit for sale, use or consumption. Susceptible crops include, but are not limited to, cotton, okra, flowers, grapes (in-growing stage), fruit trees (foliage), soybeans (vegetative stage), ornamentals, sunflowers, tomatoes, beans, and other vegetables, or tobacco. Small amounts of spray drift that might not be visible may injure susceptible broadleaf plants.

Other State and Local Requirements

Applicators must follow all state and local pesticide drift requirements regarding application of 2,4-D herbicides. Where states have more stringent regulations, they must be observed.

Equipment

All aerial and ground application equipment must be properly maintained and calibrated using appropriate carriers or surrogates. The boom length must not exceed 75% of the wingspan or 90% of the rotor blade diameter.

ADJUVANT USE When an adjuvant is to be used with this product Loveland Products recommends using LI 700®. For drift control and defoaming the use of Compadre at .125% v/v is recommended.

WEEDS CONTROLLED:

Black medic	Ground ivy (b)
Bull thistle (a)	Henbit
Burdock (a)	Knawel
Buttercup (a)	Lambsquarters
Canada thistle (a)	Lespedeza
Catnip	Matchweed
Chamise	Mustards (a)
Chickweeds (common and mouseear)	Oxalis (<i>stricta</i> and <i>corniculata</i>) (b)
Chicory	Plantain
Cinquefoil	Poison ivy
Clovers	Poison oak
Cocklebur	Prostrate spurge (b)
Cornflower	Purslane speedwell
Cornspeedwell (b)	Smartweed
Creeping beggarweed	Sowthistle
Dandelion	Spiderwort
Docks	Spotted catsear
Dwarf beggarweed	Vetch
Field bindweed	Wild carrot (a)
Goldenrod	Wild violet (b)
	Yarrow

(a), (b)—See "Broadcast Treatment of Residential, Commercial, and Recreational Turf and Commercial Sod".

Preparing The Spray: CHASER TURF HERBICIDE in water forms an emulsion (not a solution), and separation may occur unless the spray mixture is agitated continuously. Fill the spray tank about half full with clean water. Then add the CHASER TURF HERBICIDE and complete filling the tank with agitation running. Mix thoroughly and continue moderate agitation while spraying.

6/6

CHASER® TURF HERBICIDE
EPA REG. NO. 34704-928

LABELED USES
Turf

Broadcast Treatment of Residential, Commercial, and Recreational Turf and Commercial Sod Farms

Apply 1 to 2 quarts (.5 to 1 lb ae) of CHASER TURF HERBICIDE in enough water to make 20 to 200 gallons total spray per acre to control broadleaf weeds growing in tall fescue, bluegrass, or perennial ryegrass turf. **Do not** use on other grass species, such as bentgrass or St. Augustine grass, unless injury can be tolerated. CHASER TURF HERBICIDE at 3 pints per acre (.75 lb ae or 1.1 ounce per 1,000 square feet) will provide control of most weeds listed. The use of 4 pints per acre (1 lb ae or .5 ounces per 1,000 square feet) is suggested for those followed by (a). Optimum control of those species followed by (b) has been obtained when two applications of 3 pints per acre (.75 lb ae/acre) have been made 4 weeks apart. Apply from early spring through early fall when weeds are growing. Applications should be made 4 weeks apart to minimize grass injury.

Newly seeded turf should be mowed two or three times before being treated. Do not water for 24 hours after application. Do not reseed for 3 weeks after application.

Broadcast Application Restrictions for Residential, Commercial, and Recreational Turf: Postemergence: Limited to 2 applications per year. Use a maximum of 6 pints CHASER TURF HERBICIDE (1.5 lbs ae/acre) per application. The maximum seasonal rate is 6 quarts CHASER TURF HERBICIDE per acre (3.0 lbs ae/acre), excluding spot treatments.

Broadcast Application Restrictions for Commercial Sod Farms: A maximum of 2 quarts of CHASER TURF HERBICIDE per acre may be applied up to four times a year to control a variety of broadleaf weed species which may germinate at different periods. Limited to 2 applications per year. Do not exceed a maximum of 8 pints CHASER TURF HERBICIDE per acre (2.0 lbs ae/acre) per application. Observe a minimum of 21 days between applications.

Spot Treatment of Residential, Commercial, and Recreational Turf and Commercial Sod Using Portable Sprayers

Mix 1 to 2 fluid ounces (.01 to .02 lb ae) of CHASER TURF HERBICIDE in enough water to make 3 gallons of spray (1 to 2 quarts per 100 gallons of spray) and apply at any time broadleaf weeds are susceptible by wetting foliage of undesirable plants to point of runoff.

IN CASE OF AN EMERGENCY

In case of an emergency endangering health or the environment involving this product, call 1-800-301-7976.

AGRICULTURAL CHEMICAL

Do not ship or store with food, feeds, drugs, or clothing.

CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY BEFORE BUYING OR USING THIS PRODUCT, read the entire Directions for Use and the following Conditions of Sale and Limitation of Warranty and Liability. By buying or using this product, the buyer or user accepts the following Conditions of Sale and Limitation of Warranty and Liability, which no employee or agent of LOVELAND PRODUCTS, INC. or the seller is authorized to vary in any way.

Follow the Directions for Use of this product carefully. It is impossible to eliminate all risks inherently associated with the use of this product. Crop or other plant injury, ineffectiveness, or other unintended consequences may result from such risks as weather or crop conditions, mixture with other chemicals not specifically identified in this product's label, or use of this product contrary to the label instructions, all of which are beyond the control of LOVELAND PRODUCTS, INC. and the seller. The buyer or user of this product assumes all such inherent risks.

Subject to the foregoing inherent risks. LOVELAND PRODUCTS, INC. warrants that this product conforms to the chemical description on the label and is reasonably fit for the purposes stated in the Directions for Use when the product is used in strict accordance with such Directions for Use under normal conditions of use. EXCEPT AS WARRANTED IN THIS LABEL, THIS PRODUCT IS SOLD AS IS TO THE EXTENT ALLOWED BY APPLICABLE LAW. LOVELAND PRODUCTS, INC. MAKES NO OTHER WARRANTY, EXPRESS OR IMPLIED, INCLUDING BUT NOT LIMITED TO MERCHANTABILITY, FITNESS FOR A PARTICULAR PURPOSE, OR ELIGIBILITY OF THIS PRODUCT FOR ANY PARTICULAR TRADE USAGE.

IN THE UNLIKELY EVENT THAT BUYER OR USER BELIEVES THAT LOVELAND PRODUCTS, INC. HAS BREACHED A WARRANTY CONTAINED IN THIS LABEL, BUYER OR USER MUST SEND, TO THE EXTENT REQUIRED BY APPLICABLE LAW, WRITTEN NOTICE OF SUCH CLAIM TO THE FOLLOWING ADDRESS: LOVELAND PRODUCTS, INC., ATTENTION: LAW DEPARTMENT, 7251 WEST 4TH STREET, GREELEY, CO 80634.

TO THE EXTENT ALLOWED BY APPLICABLE LAW, THE BUYER'S OR USER'S EXCLUSIVE REMEDY FOR ANY INJURY, LOSS, OR DAMAGE RESULTING FROM THE HANDLING OR USE OF THIS PRODUCT, INCLUDING BUT NOT LIMITED TO CLAIMS OF BREACH OF WARRANTY OR CON-

TRACT, NEGLIGENCE, STRICT LIABILITY, OR OTHER TORTS, SHALL BE LIMITED TO ONE OF THE FOLLOWING, AT THE ELECTION OF LOVELAND PRODUCTS, INC. OR THE SELLER: DIRECT DAMAGES NOT EXCEEDING THE PURCHASE PRICE OF THE PRODUCT OR REPLACEMENT OF THE PRODUCT TO THE EXTENT ALLOWED BY APPLICABLE LAW, LOVELAND PRODUCTS, INC. AND THE SELLER SHALL NOT BE LIABLE TO THE BUYER OR USER OF THIS PRODUCT FOR ANY CONSEQUENTIAL, SPECIAL, OR INDIRECT DAMAGES, OR DAMAGES IN THE NATURE OF A PENALTY.
