 Registration Division (7505P)

Date
 SEP 25 2012

- 2 Make the label changes listed below before you release the product for shipment
 - a After EPA Reg No (first page) change '34704-XXXX' to 34704-1066
 - b Make sure that accurate batch code information appears on the label of each container of this product

Confidential Statements of Formula

The Confidential Statement of Formula (CSF) dated 9/18/2012" for the **Basic Formulation**" is accepted The CSF for the **Alt A Formulation** dated 9/18/2012 also is accepted Those CSFs describe the only formulations that may be used for this product

Submit two copies of the final printed labeling incorporating the changes listed above before you release this product for shipment

If you do not comply with these conditions this registration will be subject to cancellation in accordance with FIFRA section 6(e) Your release for shipment of the product constitutes acceptance of these conditions A copy of your label stamped 'Accepted' is enclosed for your records

If you have any questions or comments regarding this letter please contact Dr William W Jacobs by telephone (703- 305-6406) or via e-mail (jacobs bill@epa gov)

**GAVICIDE® 470 SPRAY OIL
EPA REG NO 34704-XXXX**

**PRECAUTIONARY STATEMENTS
HAZARDS TO HUMANS AND DOMESTIC ANIMALS
CAUTION**

Harmful if swallowed or absorbed through skin or inhaled Causes moderate eye irritation Avoid contact with eyes, skin or clothing Avoid breathing spray mist Wash thoroughly with soap and water after handling Remove contaminated clothing and wash before reuse

PERSONAL PROTECTIVE EQUIPMENT (PPE)

Some materials that are chemical-resistant to this product are barrier laminate nitrile rubber neoprene rubber, and Viton If you want more options, follow the instructions for category E on an EPA chemical-resistance category selection chart

Mixers, loaders, applicators, flaggers and other handlers must wear

- Long-sleeved shirt and long pants,
- shoes plus socks and
- chemical-resistant gloves

Follow manufacturer's instructions for cleaning/maintaining PPE If no such instructions for washables exist use detergent and hot water Keep and wash PPE separately from other laundry Discard clothing and other absorbent materials that have been drenched or heavily contaminated with the product's concentrate Do not reuse them

ENGINEERING CONTROLS

Pilots must use an enclosed cockpit that meets the requirements listed in the WPS for agricultural pesticides [40CFR 170 240(d)(6)]

USER SAFETY RECOMMENDATIONS

Users should

- Wash hands before eating, drinking, chewing gum, using tobacco or using the toilet
- Remove clothing/PPE immediately if pesticide gets inside Then wash thoroughly and put on clean clothing
- Remove PPE immediately after handling this product Wash outside of gloves before removing As soon as possible wash thoroughly and change into clean clothing

ENVIRONMENTAL HAZARDS

Do not apply directly to water or areas where surface water is present or to intertidal areas below the mean high watermark Do not contaminate water when disposing of equipment washwater or rinsate Drift and runoff may be hazardous to aquatic organisms in water adjacent to treated areas

This product may be applied at any time but bees are temporarily inactivated by direct contact and some loss may occur Consult your Agricultural Extension Service for further protective information

**GAVICIDE® 470 SPRAY OIL
EPA REG NO 34704-XXXX**

PHYSICAL / CHEMICAL HAZARDS

Do not use or store near heat or open flame

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not apply this product through any type of irrigation system. Do not apply this product in a way that will contact workers or other persons, either directly or through drift. Only protected handlers may be in the area during application. For any requirements specific to your State or Tribe, consult the agency responsible for pesticide regulations.

AGRICULTURAL USE REQUIREMENTS

Use this product only in accordance with its labeling and with the Worker Protection Standard, 40 CFR Part 170. This Standard contains requirements for the protection of agricultural workers on farms, forests, nurseries, and greenhouses and handlers of agricultural pesticides. It contains requirements for training, decontamination, notification, and emergency assistance. It also contains specific instructions and exceptions pertaining to the statements on this label about personal protective equipment (PPE) and restricted-entry interval. The requirements in this box only apply to uses of this product that are covered by the Worker Protection Standard.

Do not enter or allow worker entry into treated areas during the restricted entry interval (REI) of 12 hours.

PPE required for early entry to treated areas that is permitted under the Worker Protection Standard and that involves contact with anything that has been treated, such as plants, soil, or water is:

- Coveralls
- Shoes plus socks, and
- Chemical-resistant gloves made of any waterproof material

SPRAY DRIFT MANAGEMENT

A variety of factors including weather conditions (e.g., wind direction, wind speed, temperature, relative humidity) and method of application (e.g., ground, aerial, airblast) can influence pesticide drift. The applicator and grower must evaluate all factors and make appropriate adjustments when applying this product.

WIND SPEED Do not apply at wind speeds greater than 15 mph at the application site.

TEMPERATURE INVERSIONS If applying at wind speeds less than 3 mph, the applicator must determine if a) conditions of temperature inversion exist, or b) stable atmospheric conditions exist at or below nozzle height. Do not make applications into areas of temperature inversions or stable atmospheric conditions.

DROPLET SIZE Apply as a medium or coarser spray (ASABE standard 572), and the minimum volume mean diameter (VMD) for spinning atomizer nozzles.

When applied through ground equipment

Apply using a nozzle height of no more than 4 feet above the ground or crop canopy.

WIND SPEED Do not apply at wind speeds greater than 15 mph at the application site.

**GAVICIDE® 470 SPRAY OIL
EPA REG NO 34704-XXXX**

DROPLET SIZE Apply as a medium or coarser spray (ASABE standard 572), and the minimum volume mean diameter (VMD) for spinning atomizer nozzles

When applied as a spray through airblast equipment

For airblast applications turn off outward pointing nozzles at row ends and when spraying outer row To minimize spray loss over the top in orchard applications spray must be directed into the canopy

When applied as an aerial spray

RELEASE HEIGHT For aerial applications of agricultural products, do not release spray at a height greater than 10 feet above the ground top of crops, or above the orchard canopy

BOOM LENGTH The boom length must not exceed 75% of the wingspan or 90% of the rotor blade diameter

SWATH ADJUSTMENT When applications are made with a cross-wind, the swath will be displaced downwind The applicator must compensate for this displacement at the downwind edge of the application area by adjusting the path of the aircraft upwind Leave at least one swath unsprayed at the downwind edge of the treated field

WIND SPEED Do not apply at wind speeds greater than 15 mph at the application site

DROPLET SIZE Apply as a medium or coarser spray (ASABE standard 572) and the minimum volume mean diameter (VMD) for spinning atomizer nozzles

APPLICATION DIRECTIONS

Gavicide® 470 Spray Oil is a straight-cut narrow boiling range petroleum oil designed specifically for use as a foliar or dormant/delayed dormant application on fruit and nut crops

DILUTION Dilute specified dosage in 50-2,000 gallons of water per acre as directed below and in 15-30 gallons for aircraft as needed for coverage Fill spray tank with 1/2 the required amount of water Start agitator Add total amount of spray oil Continue to agitate while adding balance of water

COMPATIBILITY **Gavicide 470 Spray Oil** may be tank-mixed with insecticides or fungicides To assure the compatibility of tank mixtures, mix the correct proportions of the tank-mix components in a small container After thorough mixing, let stand for five minutes If the combination remains mixed or can be readily remixed, the tank mixture is compatible

CHEMIGATION **DO NOT APPLY** this product through any type of irrigation system

APPLICATIONS **Gavicide 470 Spray Oil** is formulated as a "fast break" spray oil and will not stay in solution unless agitated constantly Keep agitator running at all times during spray operations Apply so as to give total coverage to all parts of crop Thorough drenching of trunks, limbs, twigs and leaves is essential for optimum results

**GAVICIDE® 470 SPRAY OIL
EPA REG NO 34704-XXXX**

USE LIMITATIONS

- DO NOT COMBINE with sulfur sprays or apply spray oil within 30 days before or after an application of sulfur unless allowed by the Directions for Use of this product and the sulfur product
- DO NOT MIX with insecticides or fungicides incompatible with oil Consult your State Agricultural Extension Service for specific compatibilities
- DO NOT APPLY to trees weakened by disease, drought freezing temperatures, drying winds or high nitrogen applications
- DO NOT APPLY prior to or during a period of excessively hot temperatures (>90 °F)
- DO NOT APPLY THIS PRODUCT when temperatures are below or are expected to drop below 32 °F
- MAINTAIN CONSTANT VIGOROUS AGITATION during application to keep spray oil and water in solution

SPECIFIC CROP APPLICATION RATES

Apply when pests appear Adjust dosage within specified range according to pest infestation crop canopy size and crop condition Do not apply at rates higher than the maximum rate specified on this label for the crop that is to be treated

ALMONDS, APRICOTS, APPLES, CHERRIES, NECTARINES, OLIVES, PEACHES, PEARS¹, PISTACHIOS, PLUMS, PRUNES

¹ See additional information below for application to Pears

Dormant/Delayed Dormant applications

Apply at a rate of 5 to 8 gallons/acre for control of the following pests

- Scales including Black Scale, Brown Apricot Scale, Frosted Scale Italian Pear Scale Lecanium Scale Oleander Scale, Olive (parlatoria) Scale San Jose Scale and Soft Brown Scale
- Ovicidal control of Whiteflies
- Ovicidal control of Aphids, including Black Cherry Aphid, Black or Green Peach Aphid, Green or Rosy Apple Aphid, and Plum Aphid
- Ovicidal control of Mites, including Blister Mite, Brown Almond Mite, European Red Mite, McDaniel Mite, Pacific Mite Peach Silver Mite, Rust Mite, Strawberry Mite and Two-spotted Mite

Restrictions

- DO NOT apply this product after bud break

PEARS (in addition to the uses above)

Dormant/Delayed Dormant Applications

Apply at a rate of 5 to 8 gallons/acre for control of Pear Psylla and Whiteflies

Restrictions

- DO NOT apply this product after bud break

PISTACHIOS

Dormant/Delayed Dormant Applications

Apply a maximum of 4 gallons/acre (in Arizona) or 6 gallons/acre (in California) for control of soft scales including *Parthenolecanium* spp

**GAVICIDE® 470 SPRAY OIL
EPA REG NO 34704-XXXX**

Restrictions

- DO NOT apply this product after bud break

WALNUTS

Dormant/Delayed Dormant Applications

Apply at a rate of 5 to 7 gallons/acre for control of Scales including Calico Scale, Frosted Scale, Oyster Shell Scale and other Scales listed above

Apply at a rate of 5 to 7 gallons/acre for ovicidal control of Walnut Aphid Whiteflies and Mites including European Red Mite, Pacific Mite, and Two-spotted Mite

Restrictions

- DO NOT apply after bud break
- Check with local farm advisor on all recommendations on walnuts

STORAGE AND DISPOSAL

Do not contaminate water food or feed by storage or disposal

PESTICIDE STORAGE Store only in original container in locked storage areas If a spill occurs visible puddles or drops should be covered with a dry absorbent such as clay sawdust, lime or soda ash Sweep up and dispose of spilled pesticide and absorbent in a permitted disposal facility Avoid cross-contamination with other pesticides and fertilizers during handling and storage Do not store near heat or open flame Protect from temperatures below 0 degrees F Do not use or store this product in or around the home

PESTICIDE DISPOSAL Wastes resulting from the use of this product may be disposed of on site or at an approved waste disposal facility

CONTAINER DISPOSAL Nonrefillable container Do not reuse this container to hold materials other than pesticides or dilute pesticides (rinsate) After emptying and cleaning, it may be allowable to temporarily hold rinsate or other pesticide-related materials in the container Contact your state regulatory agency to determine allowable practices in your state Once cleaned, some agricultural plastic pesticide containers can be taken to a container collection site or picked up for recycling To find the nearest site, contact your chemical dealer or manufacturer, or contact The Agricultural Container Recycling Council (ACRC) at www.acrecycle.org If not recycled then puncture and dispose of container in a sanitary landfill, or incineration, or if allowed by state and local authorities, by burning If burned, stay out of smoke

Triple rinse or pressure rinse container (or equivalent) promptly after emptying

For packages up to 5 gallons Triple rinse as follows Empty the remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip Fill the container ¼ full with water and recap Shake for 10 seconds Pour rinsate into application equipment or a mix tank or store rinsate for later use or disposal Drain for 10 seconds after the flow begins to drip Repeat this procedure two more times **Pressure rinse as follows** Empty the remaining contents into application equipment or a mix tank and continue to drain for 10 seconds after the flow begins to drip Hold container upside down over application equipment or mix tank or collect rinsate for later use or disposal Insert pressure rinsing nozzle in the side of the container, and rinse at about 40 PSI for at least 30 seconds Drain for 10 seconds after the flow begins to drip

**GAVICIDE® 470 SPRAY OIL
EPA REG NO 34704-XXXX**

For packages greater than 5 gallons and less than 56 gallons Triple rinse as follows Empty the remaining contents into application equipment or a mix tank Fill the container ¼ full with water Replace and tighten closures Tip container on its side and roll it back and forth, ensuring at least one complete revolution, for 30 seconds Stand the container on its end and tip it back and forth several times Turn the container over onto its other end and tip it back and forth several times Empty the rinsate into application equipment or a mix tank or store rinsate for later use or disposal Repeat this procedure two more times **Pressure rinse as follows** Empty the remaining contents into application equipment or a mix tank and continue to drain for 10 seconds after the flow begins to drip Hold container upside down over application equipment or mix tank or collect rinsate for later use or disposal Insert pressure rinsing nozzle in the side of the container, and rinse at about 40 PSI for at least 30 seconds Drain for 10 seconds after the flow begins to drip

For packages greater than 56 gallons To clean the container before final disposal, empty the remaining contents from this container into application equipment or mix tank Fill the container about 10 percent full with water Agitate vigorously or recirculate water with the pump for 2 minutes Pour or pump rinsate into application equipment or rinsate collection system Repeat this rinsing procedure two more times

For refillable containers Refill this container with pesticide only Do not reuse this container for any other purpose Cleaning the container before final disposal is the responsibility of the person disposing of the container Cleaning before refilling is the responsibility of the refiller To clean the container before final disposal empty the remaining contents from this container into application equipment or mix tank Fill the container about 10 percent full with water Agitate vigorously or recirculate water with the pump for 2 minutes Pour or pump rinsate into application equipment or rinsate collection system Repeat this rinsing procedure two more times Offer for recycling or reconditioning, if available, or puncture and dispose of container in a sanitary landfill, or by other procedures approved by state and local authorities

For help with any spill, leak, fire or exposure involving this material, call day or night CHEMTREC – 1-800-424-9300

CONDITIONS OF SALE AND LIMITATION OF WARRANTY AND LIABILITY BEFORE BUYING OR USING THIS PRODUCT, read the entire Directions for Use and the following Conditions of Sale and Limitation of Warranty and Liability By buying or using this product, the buyer or user accepts the following Conditions of Sale and Limitation of Warranty and Liability, which no employee or agent of LOVELAND PRODUCTS, INC or the seller is authorized to vary in any way

Follow the Directions for Use of this product carefully It is impossible to eliminate all risks inherently associated with the use of this product Crop or other plant injury, ineffectiveness, or other unintended consequences may result from such risks as weather or crop conditions mixture with other chemicals not specifically identified in this product's label, or use of this product contrary to the label instructions, all of which are beyond the control of LOVELAND PRODUCTS, INC and the seller The buyer or user of this product assumes all such inherent risks
