

# ALGI-RID CONCENTRATE

## APPLICATIONS

ALGI-RID CONCENTRATE is used to control the growth of algae in swimming pools. For maximum effectiveness, pools containing heavy growth of algae should be cleaned prior to using ALGI-RID CONCENTRATE.

For pools having just visible algae growth add an initial dose of 11 to 17 fl. oz. of ALGI-RID CONCENTRATE per 10,000 gal. of water and remove settled algae debris by cleaning.

For treatment of a freshly cleaned and filled pool, add initially 6 to 11 fl. oz. of ALGI-RID CONCENTRATE per 10,000 gal. of water.

To maintain pools free of visible algae growth, subsequent additions of 2 to 4 fl. oz. of ALGI-RID CONCENTRATE per 10,000 gal. of water should be made every 5 to 7 days after the initial treatment.

Uniform distribution of ALGI-RID CONCENTRATE throughout the water in the pool is necessary for maximum effectiveness.

ALGI-RID CONCENTRATE is compatible with those chemicals normally used to treat pools and is effective at both acid and alkaline pH. ALGI-RID CONCENTRATE can be used in pools treated with chlorine chemicals and may reduce the amount of those chemicals normally required. However, do not mix ALGI-RID CONCENTRATE with concentrated dry or liquid chlorine products.

## INGREDIENTS

### ACTIVE INGREDIENT

Poly[oxyethylene(dimethyliminio)  
ethylene(dimethyliminio)-  
ethylene dichloride] ..... 60.0 percent

Inert Ingredient ..... 40.0 percent

EPA Reg. No. 34774-1

EPA Est. 34774-OK-1

**Net Contents 1 Qt. (U.S.) 32 Oz.**

### Caution

**KEEP OUT OF REACH OF CHILDREN**

See other precautions and first aid on back panel.

Manufactured By

**HERTZ POOLS**

## CAUTION

### Caution:

### Keep Out of Reach of Children

Harmful if swallowed. Do not get in eyes. Avoid contact with skin. If swallowed induce vomiting by giving 1 or 2 tablespoons of salt in warm water and sticking finger in back of throat. In case of contact with eyes flush with plenty of water for at least 15 minutes. If eye irritation persists call a physician. Avoid contamination of food.

### Environmental Hazards:

This product is toxic to fish. Treated effluent should not be discharged where it will drain into lakes, streams, ponds, or public water. Apply this product only as specified on this label.
