

UNITED STATES ENVIRONMENTAL PROTECTION AGENCY

15 JUL 1992

Mr. Brad Rogers
Qualis, Incorporated
4600 Park Avenue
Des Moines, Iowa 50321

Dear Mr. Rogers:

Subject: Active to Inert Change in Status
Horse Wipe I
EPA Registration Number 34797-59
Submission dated January 9, 1990
Telephone Correspondence of July 14, 1992

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, is acceptable subject to the comments listed below. Submit one (1) copy of the finished labeling prior to releasing the product for shipment.

1. Add the phrase "Contains Petroleum Distillate" to the product label as a substatement to the ingredients statement.
2. Revise the ENVIRONMENTAL HAZARDS statement "Do not contaminate....." to read as follows:

Do not contaminate water when disposing of equipment washwaters.

Sincerely,

RFM
Richard F. Mountfort

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. ✓

Dionne Horse Wipe 1 has been especially developed for use on horses. It provides a protective hair coating against flies while imparting a high sheen to the hair when brushed out. 1-2 ounces per head per day gives adequate protection. Apply by either soft cloth or fine mist spray.

USE TO WIPE ON:

First, brush animal to remove excess dirt and dust. Moisten (but do not wet to the point of dripping) a soft cloth and rub over the hair. It is best to apply by rubbing against the hair growth. Give special attention to the legs, shoulders, shanks, neck and facial areas where flies most often are seen.

Only a light application is required. Avoid using an excessive amount on your horses. Do not wet skin.

After application, brush out thoroughly to bring out bright sheen on the coat.

Repeat daily or as required.

USE AS A SPRAY:

Dionne Horse Wipe 1 may be applied as fine mist spray to stable area and over and around stabled horses for fast paralysis and kill of flies. Do not wet horse's skin or exceed two ounces per application.
