

DIONNE  
3100

**DIRECTIONS FOR USE**

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

Dionne Acid Bowl Cleaner is designed to clean, disinfect and deodorize toilet bowls and urinals.

1. To disinfect toilet bowls, flush toilet, add 4 ounces Dionne Bowl Cleaner directly to the bowl water. Scrub the bowl completely using a scrub brush or toilet mop, making sure to get under the rim. Let stand for 10 minutes and flush.

2. To disinfect urinals, add 2 ounces Dionne Acid Bowl Cleaner to 48 ounces (1 1/2 quarts) of water. Flush urinal. Apply solution with brush or toilet mop to urinal surface, making sure to scrub completely. Let stand for 10 minutes and flush.

3. For badly stained toilet bowls just flush, then use toilet mop to push water from the bowl over the trap. Press scrub mop against bowl to remove excess water, then saturate mop with 2 ounces Dionne Acid Bowl Cleaner while holding bottle and applicator over bowl. Scrub bowl completely, making sure to get under the rim. Let stand for 10 minutes then flush. Rinse applicator completely.

4. For grime film or heavy soil, a pre-cleaning step is required before disinfecting.

Dionne Acid Bowl Cleaner is an effective one step cleaner/disinfectant designed to kill microorganisms found in the toilet and/or urinal. When used as directed, the product exhibits effective disinfection against *Salmonella choleraesuis*, *Staphylococcus aureus*, and *Pseudomonas aeruginosa* in addition to preventing odors caused by microorganisms. Efficacy tests have demonstrated that Dionne Acid Bowl Cleaner is an effective bactericide, in the presence of organic soil (5% blood serum).

Dionne Acid Bowl Cleaner contains no phosphates.
