Attention: Said I. Rasig
Director of Research

Gentlemen:

Subject: Bulk Type Label
Wex.ord Dri-Cide
EPA Registration No. 34810-17
Your Submission Dated March 15, 1989

The labeling referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act (FIFRA), is acceptable in support of the minor formulation change (your application dated June 26, 1987) provided that you:

1. Make the following revisions before you release the product for shipment bearing the amended labeling:
 - a. Delete "For Use and Storage by Maintenance Personnel Only."
 - b. Include "Wear goggles or face shield and rubber gloves when handling" after "Do not get in eyes, on skin, or on clothing" in the precautionary section.
 - c. In the first paragraph, back panel, include "(for 10 minutes at 20 °C)" after Mycobacterium Tuberculosis.
2. Submit the final printed labeling for inclusion in the product file.

DRI-CIDE

CONCENTRATED DRY GERMICIDAL DETERGENT

DRI-CIDE is a one-step cleaner-disinfectant, used for cleaning, disinfecting and deodorizing. When used as directed it is effective against *Staphylococcus aureus*, *Salmonella choleraesuis*, *Pseudomonas aeruginosa*, Pathogenic fungi, *Mycobacterium tuberculosis* and Lipophilic viruses*, such as Influenza A(H3N2), Herpes simplex Type 2, and Vaccinia virus, in the presence of A.O.A.C. 400 ppm hard water and 5% blood serum, on non-porous, inanimate surfaces.

AREAS OF USE: Hospitals and nursing homes, veterinary and animal care facilities, industrial plants, office buildings, schools and recreational areas.

DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with its labeling.

DISINFECTION: For disinfection of non-porous hard surfaces such as floors, walls, bathroom fixtures, shower stalls and surgical instruments, stainless steel, chrome, glass, vinyl, vinyl asbestos, ceramic and terrazo, use 1/2 ounce (1 heaping blue scoop) to 1/2 gallon of warm water; use 1 ounce (1 heaping green scoop) to 1 gallon of warm water; use 1-1/2 ounces (1 heaping clear scoop) to 1 1/2 gallons of warm water. Stir gently for a uniform solution. Solution may be applied with mop, cloth, scrubber or other suitable applicator, or by immersion. Wet surfaces thoroughly for at least ten minutes before drying. For heavily soiled areas, a pre-cleaning step is required. Use solution should be changed daily or sooner if it becomes over-diluted or soiled. When disinfecting surgical instruments these instruments must be pre-cleaned to remove blood and serous ex: Jates prior to immersion in, or treatment with DRI-CIDE solution. DRI-CIDE is a synthetic germicidal detergent with broad spectrum kill of many gram positive and gram negative microorganisms. It contains biodegradable detergents and is phosphate free. DO NOT MIX WITH OTHER CLEANERS.

PRECAUTIONARY STATEMENTS

HAZARDS TO HUMANS AND DOMESTIC ANIMALS. DANGER: KEEP OUT OF REACH OF CHILDREN. Corrosive. Powder causes eye damage and skin irritation. Harmful if swallowed. Do not get in eyes, on skin or clothing. Avoid contamination of food.

STORAGE AND DISPOSAL

STORAGE: Store in cool dry place. Do not reuse container. Triple rinse (or equivalent), wrap and place in a trash collection.

FIRST AID

In case of contact, immediately flush eyes or skin with plenty of water for at least 15 minutes. For eyes call a physician. Remove and wash contaminated clothing before reuse. If swallowed, drink promptly a large quantity of milk, egg whites, gelatin solution, or if these are not available, drink large quantities of water. Avoid alcohol and call a physician.

NOTE TO PHYSICIAN

Probable mucosal damage may contraindicate the use of gastric lavage. Measures against circulatory shock, respiratory depression and convulsion may be needed.
