Attention: Said I. Raziq  
Director of Research

Subject: Ready to Use Wexcide  
EPA Registration No. 34810-21  
MOU Compliance Amendment dated July 31, 1995

The amendment referred to above, submitted in connection with registration under the Federal Insecticide, Fungicide, and Rodenticide Act, as amended, will be acceptable provided that you make the labeling change listed below before you release the product for shipment bearing the amended label.

1. Remove surgical instruments from the list of surfaces to be disinfected. Surgical instruments are critical medical devices and must be sterilized.

A stamped copy is enclosed for your records. Submit five (5) copies of the final printed label prior to release of the product for shipment.

If you have any questions concerning this letter, please contact Wanda Mitchell at (703) 305-6141.

Sincerely,

Ruth G. Douglas  
Product Manager (32)

Kirkwood, Missouri 63122

Contents: One Quart

### DIRECTIONS FOR USE

It is a violation of Federal Law to use this product in a manner inconsistent with the label. Use on hard, non-porous inanimate surfaces, surgical instruments, stainless steel, a cloth or brush, or by immersing equipment to be disinfected. All hard surfaces remain wet for at least 10 minutes before drying with a cloth. Gross filth and dirt must be removed by applying cleaning solution. Discard solution when it becomes dirty and repeat. Use Wex-Cide is a synthetic germicidal detergent with broad spectrum kill of microorganisms. It is an excellent cleaner. **DO NOT MIX WITH OTHER CLEANERS.** **DECONTAMINATION OF CRITICAL OR SEMI-CRITICAL DEVICES:** **STERILIZATION/HIGH LEVEL DISINFECTION:** This product is not to be used as a disinfectant on any surface or instrument that (1) is introduced directly into contact with the bloodstream or normally sterile areas of the body, or (2) contact with which does not ordinarily penetrate the blood barrier or otherwise enter normally sterile areas of the body. This product may be used to pre-clean or decontaminate critical or semi-critical materials before high level disinfection.

**\*READY TO USE WEX-CIDE KILLS HIV ON PRE-CLEANED ENVIRONMENTS PREVIOUSLY SOILED WITH BLOOD/BODY FLUIDS** in all settings in which the soiling of inanimate surfaces/objects with blood or body fluids, and in which the soiling with blood or body fluids can be associated with the potential for transmission of HIV-1 (HIV-1) (associated with AIDS).

**SPECIAL INSTRUCTIONS FOR CLEANING AND DECONTAMINATING SURFACES SOILED WITH BLOOD AND BODY FLUIDS WHICH MAY CONTAIN HIV-1(AIDS virus).** Use disposable rubber or latex gloves, gowns, face masks, or eye coverings as appropriate for cleaning of these surfaces. **CONTACT TIME:** Leave surfaces wet for 1 minute. This is necessary to control other common types of viruses and bacteria. **CLEANING:** Wex-Cide can be used to remove and clean blood and other body fluids from surfaces and on lightly soiled areas wipe off visual soil/clean with solution, and disinfect surface with solution. For large spills the contaminated area should be flooded with the solution and decontaminated with fresh solution. **DISPOSAL OF INFECTIOUS MATERIAL:** Surfaces should be autoclaved and disposed of according to federal, state, and local regulations.

RECEIVED  
FEDERAL BUREAU OF INVESTIGATION  
NOV 6 1995
